

Approved Suppliers for Fabricated Structural Metals Products 2/13/19

The following list is for approved Suppliers for fabricated Structural Metals products. MnDOT's Standard Specifications for Construction, current edition, requires that all suppliers of Structural Metals products have an approved Quality Manual (QM). The QM describes in detail, the methods, equipment, processes, inspection, and testing done by the supplier to ensure products meet the contract requirements. QM's are required to be written in accordance with the MnDOT Supplier Qualification Standard. Approved suppliers will be routinely audited to ensure compliance to their Quality Control Program. Structural Metals products or components supplied by a non-approved supplier shall be considered unacceptable and unauthorized work in accordance with specification 1512.

Any questions concerning this list can be addressed by Todd Niemann, Structural Metals Engineer 651-366-4567 or Richard Karras 651-366-4569, Engineering Specialist-Senior.

Supplier	Contact	Phone	QM Rev No.	QM Approval Date
1. AZZ Galvanizing a. Dixon, IL b. Winsted, MN c. Joliet, IL d. Minneapolis, MN	Richard Hensley Dana Wiegert Alan Gregor Michael Burns	815-284-5001 320-485-5001 815-723-5000 612-781-6801	11 0 9 0	Dixon- 3/24/2017 Winsted- 4/11/2017 Joliet- 1/12/2017 Minneapolis- 9/1/2017
