**Section A-A**

- Joint at Abutment
- Details of screws and bolts for attachment

**Section D-D**

- Joint at Abutment
- Details of screws and bolts for attachment

**Section C-C**

- Joint at Abutment
- Details of screws and bolts for attachment

**General Notes**

- Curbs must be cornered at 1" radius or deeper where required.
- Curbs must be cornered at 1" radius or deeper where required.
- Curbs must be cornered at 1" radius or deeper where required.

**Bill of Reinforcement**

- List of reinforcement details for various sections.

**Concrete Curb Details**

- Dimensions and reinforcing details for various sections.

**Control Joint Details**

- Schematic representation of control joint details.

**Design Notes**

- Maximum spacing of control joints on superstructure, approach, and wingwall is 10 ft.
- See superstructure and approach for joint spacing.

**Concrete Curb Quantities**

- List of quantities for various sections.

**Concrete Curb with Ornamental Railing**

- Schematic representation of curb with ornamental railing.

**Special Notes**

- Refer to standard figure 5-397(a) for curb designs.
- Refer to standard figure 5-397(b) for curb designs.
- Refer to standard figure 5-397(c) for curb designs.
