Figure 5-397.205
5 FT. WIRE FENCE (DESIGN W-1) FOR PEDESTRAIN BRIDGES

Approved, and signed, January 5, 2017.

Approved 01-05-2017
REMOVED from the STANDARD:
- Detail “D” Type 1 Anchorage option.
- Pipe Anchorage for Fence Posts-Type1 and replaced it with detail Bolt Anchorage for Fence Posts.

Under GENERAL NOTES:
- Removed and replaced all notes and added numbered notes ① and ②.

At the TYPICAL SECTION THRU FENCE:
- Changed the fence post size from 2 ½” to 3” dia. Which changed the weight to 7.58 lbs/ft.
- Increased the distance from the center of the post to edge of walkway from 5 ½” to 8 ½”.
- Added the curb to the pedestrian walkway.
- Changed the note at the top of the fence from “Barbed Edge” to “Knuckled Selvage Top and Bottom” and removed the “Knuckled Edge” note from the bottom of the fence.

At the SUSPENDED POST DETAILS:
- Changed the sub title for Detail “D” from “Use With Alternate Anchorage” to “Use With Type B Anchorage ②”

At the PIPE SLEEVE DETAIL, AND AT THE EXPANSION JOINT DETAIL:
- Added numbered note ① to the end of the title name.

At the FABRIC TIE DETAIL:
- Changed note, “9 GA. Wire Fabric Tie @ 1'-0" Max. Spg.” to: “Vinyl Coated Fabric Tie @ 1'-0" Max. Spg.”
- Changed the Elevation name to “Partial Elevation”.

THROUGHOUT the STANDARD FIGURE:
- Underlined all Detail Titles.

At the PART ELEVATION:
- Changed the title name to “PARTIAL ELEVATION”.
- Changed the 10’-0” Max. Spacing to 8’-0” Max. Spacing.
- Added a vertical break line to the Elevation to better represent the 8’-0” spacing.
- Added the concrete curb to the detail.
- Removed the dashed Type 1 anchorage option from the detail.
- Changed the look to show the knuckled selvage on both the top and bottom of the fencing.
