**PLAN REVIEW AND INSPECTION OF MODULAR
BLOCK RETAINING WALLS AND REINFORCED STEEPENED SLOPES**

This course is intended for inspectors and project engineers involved in the construction of geosynthetic reinforced structures. New standard design charts are now available, requiring associated shop drawing submittal and review. The Geotechnologies Unit will take on a very limited role in this matter, requiring field personnel to check and approve designs. The skills needed to make those decisions will be taught in this class along with inspection advice and examples of projects gone bad. Other topics include freeze-thaw durability, plant quality control manual, materials testing, dispute resolution and help available on the Mn/DOT web site. **Audience:** Personnel involved in inspection and shop drawing review. **Date:** March 23, 2010. **Location:** Mn/DOT Training & Conference Center, 1900 West County Road I, Shoreview, MN. **Prerequisites:** Grading & Base 1 and 2 are helpful. **Course Hours:** 10:00 a.m. to 3:00 p.m. **Materials:** Bring a calculator, note paper, #2 pencils and highlighter.
