NCHRP 350 Requirements

On any roadways, all Category I and II temporary traffic control devices shall meet NCHRP 350 crash testing criteria. This includes all new and used Category I and Category II devices. Category I devices include tube markers, plastic drums and cones, etc. Category II devices include portable signs, Type I, II and III barricades, etc.

By signing the Certificate of Compliance, I agree to the terms of this policy and certify that the work zone safety devices used on this project comply with the NCHRP 350 standards.
