District construction Web site

http://www.dot.state.mn.us/d1/onst_updates.html

1 Location: Hwy 23 — Fond Du Lac to Gary
Description: Mill and overlay, drainage and lighting
Construction Dates: June 15 – Sept. 30
Construction Cost: \$3.7 million
Traffic Impacts: Lane restrictions with flaggers

2 Location: I-35 — at the Atkinson Bridge
Description: Living snow fence landscaping
Construction Date: June
Construction Cost: \$100,000
Traffic Impacts: None

3 Location: Hwy 53 — north of Duluth from 1 mile north of jct Hwy 194 to jct Hwy 33
Description: Concrete overlay
Construction Dates: June 1–Oct. 30
Construction Cost: \$18 million
Traffic Impacts: Lane refractions with flaggers, two-lane, two-way traffic on Hwy 53

4 Location: Hwy 61 — north of Two Harbors
Description: Skid treatment in Silver Cliff and Lafayette tunnels
Construction Date: May
Construction Cost: \$79,000
Traffic Impacts: Lane restrictions with flaggers

5 Location: Hwy 65 — north of McGregor
Description: Pavement reclamation, right turn lanes,

bypass lane and culvert replacement
Construction Dates: June 1–Aug. 21
Construction Cost: \$6.7 million
Traffic Impact: Lane restrictions with flaggers, bypass

6 Location: Hwy 169 — west of Chisholm
Description: Reinforced concrete pavement
Construction Dates: June 1–Oct. 30; completion June 25, 2010
Construction Cost: \$7.7 million
Traffic Impacts: Detour, two-lane, two-way traffic on Hwy 169

7 Location: Hwy 194 — Anderson Road to Mesaba Avenue in Duluth
Description: Mill and overlay
Construction Date: June 2009
Construction Cost: \$1.6 million (project is let)
Traffic Impacts: Lane restrictions with flaggers

8 Location: District-wide
Description: Curve chevron signs
Construction Date: May 2009
Construction Cost: \$45,467 (project is let)
Traffic Impacts: Moving project; short-term lane restrictions with flaggers

9 Location: Grand Portage and Duluth
Description: Landscape rehabilitation at three state entry signs
Construction Date: June 2009
Construction Cost: \$135,000
Traffic Impacts: None

10 Location: I-35 and Hwy 53
Description: Primary building/site preservation work at four rest areas
Construction Date: August 2009
Construction Cost: \$700,000
Traffic Impacts: None

District 2 – Bemidji/Thief River Falls

Contact: Karen Bedeau
218-755-6552
District construction Web site
<http://www.dot.state.mn.us/d2/construct.html>

11 Location: Hwy 1 — Warren to Thief River Falls
Description: Resurfacing
Construction Dates: June 22 – Sept. 4
Construction Cost: \$8.6 million
Traffic Impacts: Intermittent lane closures

12 Location: Hwy 2 — Bemidji
Description: Remove bridges over railroad, lower grade
Construction Dates: Late June – mid-August
Construction Cost: \$2.5 million
Traffic Impacts: Lane restrictions with possible detour

13 Location: Hwy 2 — Cass Lake and Grant Utley
Description: Signal replacement
Construction Dates: June 15 – July 24
Construction Cost: \$178,500
Traffic Impacts: Minimal

14 Location: Hwy 2 at five locations
Description: Rest area sign replacement
Construction Dates: July 6 – Aug. 28
Construction Cost: \$120,000
Traffic Impacts: None

15 Location: Hwy 2 — from CSAH 18 to Deer River
Description: Mill and overlay
Construction Dates: Mid-August – Oct. 30
Construction Cost: \$1.8 million
Traffic Impacts: Single lane closures with flaggers

16 Location: Hwy 2 — Deer River
Description: Add third lane
Construction Dates: Mid-August – Oct. 30
Construction Cost: \$1.2 million
Traffic Impacts: Single-lane closures with flaggers

17 Location: Hwy 6 — Jct Hwy 2 in Deer River

Description: Mill and overlay
Construction Dates: Mid-August – Oct. 30
Construction Cost: \$2.7 million
Traffic Impacts: Single-lane closures with flaggers

18 Location: Hwy 197 — at Ridgeway in Bemidji
Description: Signal replacement
Construction Dates: June 15 – July 24
Construction Cost: \$178,500
Traffic Impacts: Intermittent lane closures, intermittent temporary four-way stop

19 Location: Hwy 220 — in Mallory over Red Lake River
Description: Overlay on bridge
Construction Dates: July 1–Aug. 30
Construction Cost: \$750,000
Traffic Impacts: Single-lane closure with flagger

20 Location: Hwy 310 — over the Roseau River
Description: Overlay on bridge
Construction Dates: July 1 – Oct. 30
Construction Cost: \$450,000
Traffic Impacts: Single-lane closure with flagger

District 3 – Brainerd/St. Cloud

Contact: Judy Jacobs

District construction Web site

<http://www.dot.state.mn.us/d3/construct.html>

21 Location: Hwy 10 — Wadena to Motley
Description: Resurface and install shoulder rumble strips
Construction Dates: May – mid-July
Construction Cost: \$6.8 million
Traffic Impacts: Intermittent lane/shoulder closures

22 Location: Hwy 23 — in Milaca
Description: Replace Rum River bridge
Construction Dates: July – October
Construction Cost: \$1.8 million

Traffic Impacts: Bridge closed. Nine-mile detour via County Roads 8, 5 and Hwy 169

23 Location: I-94 — Sauk Centre to Douglas/Todd County line

Description: Install cable median guardrail

Construction Dates: Mid-April – early June

Construction Cost: \$1.4 million
Traffic Impacts: Intermittent shoulder closures

24 Location: I-94 — Clearwater to Monticello; St. Joseph

Description: Concrete rehabilitation

Construction Dates: April – October

Construction Cost: \$5.5 million
Traffic Impacts: Intermittent nighttime lane/shoulder closures

25 Location: I-94 — at County Road 143 west of Clearwater

Description: Replace deck and paint

Construction Dates: April – October

Construction Cost: \$1.2 million
Traffic Impacts: Intermittent lane/shoulder closures

26 Location: I-94 — at County Road 186 in Sauk Centre

Description: Replace deck and paint

Construction Dates: April – October

Construction Cost: \$1.8 million
Traffic Impacts: Intermittent lane/shoulder closures

27 Location: Hwy 95 — in Walbo at the Rum River

Description: Replace bridge
Construction Dates: July – October

Construction Cost: \$2.1 million
Traffic Impacts: Bridge closed. Seven-mile detour via Hwy 47 and County Road 1

28 Location: Hwy 95 — Cambridge to Isanti/Chisago county line

Description: Mill and overlay, replace bridge

Construction Dates: Mid-May – early August

Construction Cost: \$2.6 million
Traffic Impacts: Daytime lane closures with flaggers/pilot car. Bridge closed. Nine-mile detour via County Roads 2, 10, 8 and 21

29 Location: Hwy 107 — in Grasston

Description: Replace Snake River bridge

Construction Dates: July – October

Construction Cost: \$1.9 million
Traffic Impacts: Bridge closed. Two-mile detour via County Roads 17, 5 and Hwy 70

30 Location: Hwy 169 — north of Princeton to Milaca

Description: Roadway/shoulder mill and overlay, replace culvert

Construction Dates: Mid-August – October

Construction Cost: \$3.9 million
Traffic Impacts: Intermittent lane/shoulder closures

31 Location: SB Hwy 169 — Rum River to Onamia

Description: Concrete overlay
Construction Dates: June – July

Construction Cost: \$7 million
Traffic Impacts: Lane shifts with two-way traffic on NB Hwy 169

32 Location: Hwy 371 — north of Little Falls

Description: Plant living snow fence

Construction Date: June
Construction Cost: \$200,000

Traffic Impacts: None

33 Location: District-wide

Description: Coordinate traffic signal timing

Construction Dates: June – July

Construction Cost: \$420,000
Traffic Impacts: None

34 Location: St. Cloud Metro

Description: Upgrade traffic management system, ICONS

Construction Dates: June – July

Construction Cost: \$320,000
Traffic Impacts: None

District 4 – Detroit Lakes/Morris

Contact: Dana Hanson
218-846-3609

District construction Web site
<http://www.dot.state.mn.us/d4/construct.html>

35 Location: Hwy 9 — west of Nashau

Description: Install railroad gates and signals

Construction Dates: June 2009 to June 2010

Construction Cost: \$225,000

Traffic Impacts: Shoulder closures

36 Location: Hwy 27 — at jct I-94 and County Road 45 near Alexandria

Description: Install traffic signal
Construction Dates: Aug. 17 – September

Construction Cost: \$215,000
Traffic Impacts: Possible daytime lane closures

37 Location: Hwy 28 — southwest of Morris

Description: Install railroad gates, signals cantilevers

Construction Dates: June 2009 – June 2010

Construction Cost: \$275,000
Traffic Impacts: Shoulder closures

38 Location: Hwy 75 — Graceville to Ortonville

Description: Milling and bituminous overlay

Construction Dates: May 18 – mid-July

Construction Cost: \$5 million
Traffic Impacts: Detours, daytime lane closures

39 Location: I-94 north jct Hwy 59 to Grant County line

Description: Concrete rehabilitation, preserve Lake Iverson and Hansel Lake rest areas parking/sites

Construction Dates: May 11, 2009 – June 2010

Construction Cost: \$10 million
Traffic Impacts: Day and nighttime lane closures

40 Location: I-94 — Moorhead

Description: Landscape state entry sign

Construction Dates: Fall
Construction Cost: \$110,000

Traffic Impacts: None

41 Location: Hwy 210 — at Redwood Lane in Fergus Falls

Description: Install traffic signal
Construction Dates: July 13 – mid-August

Construction Cost: \$320,000

Traffic Impacts: Possible daytime lane closures

District 6 – Rochester/Owatonna /Winona

Contact: Krystal Ohlhaber
507-286-7684

District construction Web site
<http://www.dot.state.mn.us/d6/construct.html>

42 Location: Hwy 19 — in Goodhue County

Description: Replace bridge over Hwy 52 in Cannon Falls

Construction Dates: June – September

Construction Estimate: \$3 million

Traffic Impacts: Hwy 19 will be closed and detoured. There will be restricted turn movement to and from Hwy 52. Motorists should follow posted detour.

43 Location: I-35 — in Rice County

Description: Overlay on northbound and southbound lanes of I-35 from the

southbound entrance ramp of Rice County Road 48 to Hwy 21, including installation of median guardrail. Project is about four miles. Project will be staged with the 10 bridge rehabilitation projects on I-35 currently in 2009 regular construction season.

Construction Dates: May – August

Construction Cost: \$8 million (cost of both projects)

Traffic Impacts: Head-to-head traffic on southbound lanes, then head-to-head traffic on northbound lanes. Ramp closures at Hwy 21 and Hwy 60.

44 Location: Hwy 61 — in Goodhue County

Description: Rehabilitate the bridge over Hay Creek and Withers Harbor Drive in Red Wing.

Construction Date: August
Construction Estimate: \$225,000

Traffic Impacts: Minimal traffic impacts on Hwy 61. Temporary lane restrictions on Withers Harbor Drive

45 Location: I-90 — in Winona County

Description: Bituminous overlay on I-90 westbound lanes from two miles east of Hwy 74 to a half mile west of Hwy 43. Project is about 14 miles.

Construction Dates: June – September

Construction Cost: \$4.5 million
Traffic Impacts: Long-term lane closure.

46 Location: I-90 — West limits of Alden to Hwy 13 in Freeborn County

Description: Bituminous overlay WB lanes, concrete overlay EB. (This project will be staged with the Freeborn County concrete overlay project on Freeborn County Road 46 from Arena Road, in Albert Lea, to Freeborn County Road 6).
Construction Dates: May – September
Construction Estimate: \$16 million (\$4 million for the local project on County Road 46)
Traffic Impacts: Head-to-head traffic on westbound lanes, then head-to-head traffic on eastbound lanes. Ramp closures at Hwy 109 and Hwy 13

47 Location: I-90 — in Mower and Olmsted Counties
Description: Mill and overlay on I-90 eastbound lanes from 2.5 miles east of Mower County Road 1 to about one mile east of Hwy 63. Project is about nine miles.
Construction Dates: May – June
Construction Cost: \$2 million
Traffic Impacts: Long-term lane closure.

48 Location: I-90 — in Winona County
Description: Mill and overlay on I-90 east and westbound lanes from just west of the Winona County Road 12 overpass to Hwy 61 (Nodine Hill) including guardrail replacement. Project is about five miles.
Construction Dates: May – July
Construction Cost: \$3 million
Traffic Impacts: Long-term lane closures.

49 Location: I-90 — in Mower County
Description: Replace four bridges
Construction Dates: June 2009 – September 2010
Construction Cost: Total project cost is \$13.5 million
Traffic Impacts: Head-to-head traffic on alternating sides of I-90. Closures on the ramps from Hwy 218 to westbound I-90, Eighth Avenue NE and Tenth Place NE.

50 Location: Hwy 218 — in Mower County
Description: Install four railroad gates at crossing on Hwy 218 about a mile and a half north of Austin.
Construction Dates: TBD by railroad
Construction Cost: \$364,000

Traffic Impacts: TBD

51 Location: District-wide
Description: Install and replace guardrail on various highways throughout the district. Project includes about 12 miles of guardrail installation and 184 guardrail end treatments.
Construction Dates: September – October
Construction Cost: \$1.6 million
Traffic Impacts: Temporary lane closures.

**District 7 –
Mankato/Window**
Contact: Rebecca Arndt
507-304-6106

52 Location: I-90 — at Clear Lake and Des Moines rest areas
Description: Parking lot overlays
Construction Date: September
Construction Cost: \$320,000
Traffic Impacts: Brief closure of rest areas

53 Location: I-90 — in Faribault County
Description: Concrete pavement repair near Alden (about eight miles)
Construction Dates: TBD
Construction Estimate: \$3.9 million
Traffic Impacts: Lane restrictions; reduced speeds

54 Location: I-90 — in Faribault County
Description: Approach and joint work on seven bridges
Construction Dates: May - August
Construction Estimate: \$1.5 million
Traffic Impacts: Lane restrictions; reduced speeds

55 Location: Hwy 93 — in LeSueur
Description: Replace concrete pavement under U.P. Railroad Bridge and mill and overlay to Hwy 169. Project is about one mile.
Construction Dates: July - August
Construction Cost: \$435,000
Traffic Impacts: Detour

56 Location: Hwy 169 — in St. Peter
Description: Replace utilities, reconstruct pavement and median, aesthetics and safety improvements. Concrete work from Jefferson to Broadway,

Bituminous overlay from Broadway to Union Street and south junction of Hwy 22 to Jefferson.

Construction Dates: May or June start; completion late November
Construction Estimate: \$13.1 million

Traffic Impacts: Variable detours and restrictions
Status: Design-build project with requests for proposals by March 30
Web site:
<http://www.dot.state.mn.us/d7/projects/169stpeter/index.html>

57 Location: District-wide
Description: Install and replace guardrail on various highways throughout the district
Construction Dates: May – June
Construction Cost: \$481,000
Traffic Impacts: Minimal traffic restrictions

**District 8 –
Willmar/Marshall/
Hutchinson**
Contact: Diane Beck
320-214-6421
District construction Web site
<http://www.dot.state.mn.us/d8/construct.html>

58 Location: Hwy 7 — Montevideo to Clara City
Description: Unbonded concrete overlay
Construction Dates: May - September
Construction Cost: \$13.7 million
Traffic Impacts: Traffic detoured

59 Location: Hwy 23 — from County Road 31 to County Road 6
Description: Mill and overlay
Construction Dates: September - October
Construction Cost: \$1.1 million
Traffic Impacts: Intermittent lane closures

60 Location: Hwy 68 — Milroy to Wabasso
Description: Mill and overlay
Construction Dates: September - October
Construction Cost: \$2.1 million
Traffic Impacts: Intermittent lane closures

Statewide

61 Location: Statewide
Description: Americans with Disabilities Act improvements (e.g., curb access, sound and signals)
Construction Date: Summer
Construction Cost: \$2 million

62 Location: Statewide
Description: Rest area building and site preservation
Construction Date: Summer
Construction Cost: \$4.28 million

63 Location: Statewide
Description: Landscape rehabilitation at 10 state entry sign locations
Construction Date: Summer
Construction Cost: \$2 million

1 Location: Hwy 1 — Five miles west of Cook
Description: Replace Flint Creek Bridge
Construction Dates: July – October
Construction Cost: \$800,000
Traffic Impacts: Detour

2 Location: Hwy 2 — Deer River to Cohasset
Description: New pavement
Construction Dates: May – October
Construction Cost: \$13.6 million
Traffic Impacts: Lane restrictions

3 Location: Hwy 2 — east junction of Hwy 169 to LaPrairie Avenue in LaPrairie
Description: Mill and overlay
Construction Dates: July – August
Construction Cost: \$1.01 million
Traffic Impacts: Lane restrictions

4 Location: Hwy 2 and Hwy 53
Description: Pavement upgrade
Construction Dates: June – August
Construction Cost: \$1.4 million
Traffic Impacts: Lane restrictions

5 Location: In Grand Rapids Hwy 2/Hwy 169
Description: Major urban street reconstruction
Construction Dates: June
***(carryover)**
Total Construction Cost: \$6.2 million
Remaining Contract Amount: \$110,000
Traffic Impacts: Daytime lane restrictions

6 Location: I-35 — Near Pine City and Carlton

Description: Median cable guardrail
Construction Dates: May – June
Construction Cost: \$48,600
Traffic Impacts: Daytime lane restrictions

7 Location: I-35 — Boundary Avenue to Mesaba Avenue in Duluth
Description: Pavement and bridge replacement
Construction Dates: May – November
Construction Cost: \$4.8 million
Traffic Impacts: Detour for eastbound Hwy 2. Lane restrictions, flaggers

8 Location: I-35 — 40th Avenue west to the south end of Bridge #69835 in Duluth
Description: Repair pavement
Construction Dates: May – June
Construction Cost: \$100,000
Traffic Impacts: Nighttime lane restrictions

9 Location: Hwy 53 in Duluth — Miller Hill Area between Trinity and Haines roads
Description: Major state, city, county infrastructure renovation
Construction Dates: April – November
***(carryover)**
Total Construction Cost: \$23.5 million
Remaining Contract Amount: \$16 million
Traffic Impacts: Daytime lane restrictions

10 Location: Hwy 53 Expressway Extension
Description: Four-lane highway expansion north of Virginia
Construction Dates: May – November
***(carryover)**
Total Construction Cost: \$30 million
Remaining Contract Amount: \$5.7 million
Traffic Impacts: Daytime lane restrictions, flaggers

11 Location: Hwy 61 — from three to six miles north of Tofte
Description: Reconstruction
Construction Dates: April – November
Construction Cost: \$11.9 million
Traffic Impacts: Bypasses, lane restrictions, flaggers

12 Location: Hwy 61 — Over the Poplar River near the community of Lutsen
Description: Mn/DOT and DNR project – Gitchi Gami State Trail Bridge
Construction Dates: April – November
Construction Cost: \$331,000
Traffic Impacts: None

13 Location: Hwy 61 — Grand Portage Rest Area
Description: Mn/DOT and DNR project – Rest area and state park office building and parking lot
Construction Dates: June – September
Construction Cost: \$5 million
Traffic Impacts: None

14 Location: Hwy 61 — At Silver Creek Cliff Tunnel
Description: Rockfall protection
Construction Dates: September - October
Construction Cost: \$600,000
Traffic Impacts: Lane restrictions, flaggers

15 Location: Hwy 65 — Four miles north of the north jct with Hwy 200 over the Swan River
Description: Replace bridge
Construction Dates: July – October
Construction Cost: \$1.2 million
Traffic Impacts: Detour

16 Location: Hwy 65 — Over the Littlefork River, seven miles north of the Koochiching County line
Description: Dismantle and relocate Historic Silverdale Bridge
Construction Dates: August - October
Construction Cost: \$600,000
Traffic Impacts: None

17 Location: Hwy 73 — Seven miles south of Cromwell to Cromwell
Description: Pavement improvement
Construction Dates: July – November
Construction Cost: \$1.2 million
Traffic Impacts: Lane restrictions, flaggers

18 Location: Hwy 33/Hwy 45 — near Cloquet and Carlton
Description: Pavement resurfacing
Construction Dates: July – September
Construction Cost: \$1.5 million

Traffic Impacts: Lane restrictions, flaggers

19 Location: Hwy 169 — Elizabeth Avenue in Coleraine to .2 miles southwest of Itasca County Road 15
Description: Landscaping
Construction Dates: April – June
Construction Cost: \$94,000
Traffic Impacts: None

20 Location: Hwy 169 — In Hibbing over the B.N. Railroad
Description: Bridge replacement – box culvert
Construction Dates: June – October
Construction Cost: \$1.8 million
Traffic Impacts: Lane restrictions, flaggers

21 Location: District-wide
Description: Various intersection lighting improvements
Construction Dates: June – September
Construction Cost: \$225,000
Traffic Impacts: Minimal

22 Location: District-wide
Description: Various rumble strip installations
Construction Dates: May – June
Construction Cost: \$300,000
Traffic Impacts: None

23 Location: I-35 near Atkinson — Hwy 53 in Virginia
Description: Test installation of poly-carb overlay product
Construction Dates: May – June
Construction Cost: \$85,560
Traffic Impacts: Lane restrictions, flaggers

Contact: Karen Bedeau
218-755-6552
District construction Web site
<http://www.dot.state.mn.us/d2/construct.html>

24 Location: Hwy 1 — Pennington/Beltrami County line to jct of Hwy 89
Description: Resurface, culverts, replace bridge
Construction Dates: Aug. 10 – mid-October
Construction Cost: \$2.5 million
Traffic Impacts: Detour

25 Location: Hwy 1 — West of Clearwater County line
Description: Replace bridge
Construction Dates: June 15 – Nov. 13
Construction Cost: \$1.7 million
Traffic Impacts: Short-term detour

26 Location: Hwy 2 — Jct with Hwy 89 to Beltrami County Road 71 to Hwy 197
Description: Install median cable barriers
Construction Dates: Aug. 31 – Oct. 23
Construction Cost: \$1.2 million
Traffic Impacts: Single-lane closure

27 Location: Hwy 2 — near Beltrami/Hubbard County line
Description: Resurface
Construction Dates: July – August
Construction Cost: \$1.04 million
Traffic Impacts: Single-lane closure, flaggers

28 Location: Hwy 11 — Bridge over the Red River
Description: Replace bridge
Construction Dates: January 2009 – December 2010
***(carryover)**
Total Construction Cost: \$42.3 million
Remaining Contract Amount: \$14.8 million
Traffic Impacts: Detour

29 Location: Hwy 11 — in Clementson
Description: Replace bridge
Construction Dates: July 2009 – October 2010
***(carryover)**
Total Construction Cost: \$2.9 million
Remaining Contract Amount: \$2.1 million
Traffic Impacts: Single lane with signal

30 Location: Hwy 32 — from Hwy 200 to jct of Hwy 102 north of Fertile
Description: Culverts, recondition surface, bypass lanes
Construction Dates: June – August
Construction Cost: \$3.8 million
Traffic Impacts: Detour

31 Location: Hwy 32 — Thief River Falls
Description: Resurface from Greenwood to north city limits

Construction Dates: May – June
Construction Cost: \$630,000
Traffic Impacts: Constructed under traffic

32 Location: Hwy 71 — Menahga to north of Hwy 34 in Park Rapids
Description: Resurface, culverts, turn lanes, pave shoulders
Construction Dates: July – September
Construction Cost: \$6.08 million
Traffic Impacts: Two-phase detour, work under traffic in Park Rapids

33 Location: Hwy 89 — from Hwy 2 north to Hwy 1
Description: Resurface, shoulder widening, rumble strips
Construction Dates: May 18 – June 12
Construction Cost: \$1.6 million
Traffic Impacts: Lane closure, flaggers

34 Location: Hwy 89 – Eight miles northwest of Grygla and 14 miles south of Wannaska
Description: Replace bridges
Construction Dates: June – July
Construction Cost: \$1.05 million
Traffic Impacts: Detour

35 Location: Hwy 89, Hwy 219, Hwy 1
Description: Resurface Hwy 89 from Grygla to Hwy 219. Resurface Hwy 219 from Hwy 1 to Hwy 89. Resurfacing, culverts, bridge replacement on Hwy 1 from Hwy 219 to Pennington/Beltrami County line
Construction Dates: May – August
Construction Cost: \$5.1 million
Traffic Impacts: Staged detours

36 Location: Hwy 89 in Wannaska
Description: Replace bridge
Construction Dates: June – August
Construction Cost: \$650,000
Traffic Impacts: Detour

37 Location: Hwy 92 — In Gonvick, Bagley and five miles north of Zerkel
Description: Resurfacing, culverts
Construction Dates: June 8 – July 10
Construction Cost: \$2.3 million

Traffic Impacts: Lane closures, flaggers, detour at Zerkel north to County Road 35

38 Location: Hwy 102 — from Hwy 32 to Crookston
Description: Resurface, turn lanes, culverts
Construction Dates: August – September
Construction Cost: \$1.9 million
Traffic Impacts: Detour

39 Location: Hwy 175
Description: Replace box culverts in four locations west of Hwy 75
Construction Dates: Mid-June to July 31
Construction Cost: \$1.1 million
Traffic Impacts: Detour

40 Location: Hwy 220 — Climax to East Grand Forks; Hwy 220 between East Grand Forks and Alvarado; Hwy 75 from Climax to Crookston
Description: Resurfacing to repair cracks
Construction Dates: Sept. 1 – Sept. 30
Traffic Impacts: Temporary lane closures, flaggers

41 Location: Hwy 6 — Hwy 18 to Hwy 210 in Deerwood (nine miles); Hwy 210 Crosby to Deerwood (six miles)
Description: Resurface roadway, includes shoulders/turn-lanes, repair/replace culverts, construct turn-lanes
Construction Dates: Mid-April – mid-June
Construction Cost: \$2.9 million
Traffic Impacts: Daytime lane closures with flaggers/pilot car

42 Location: Hwy 10 — South of Motley to south of Cushing
Description: Seal coat road surface
Construction Dates: Late June – mid-July
Construction Cost: \$740,000
Traffic Impacts: Intermittent daytime lane closures/shifts

43 Location: Hwy 10 — Benton County Road 20 to Benton County Road 4 at Watab (11 miles)

Description: Resurfacing
Construction Dates: July – mid-Aug.
Construction Cost: \$750,000
Traffic Impacts: Single lane closures/shifts

44 Location: Hwy 10 St. Cloud – Railroad crossing to 15th Ave SE; Hwy 23 St. Cloud – Wilson Avenue to one mile east of Hwy 10
Description: Concrete resurfacing
Construction Dates: Aug. – Sept.
Construction Cost: \$1.4 million
Traffic Impacts: Night work, single lane closures

45 Location: Hwy 12 Delano – 72nd Street to Franklin Avenue
Description: New blacktop surface, includes shoulders and turn-lanes; replace sidewalks, curb and gutters, sewers and traffic signal system at Bridge Avenue; B.N.S.F. Railway will replace RR bridge
Construction Dates: July – Aug.
Construction Cost: \$1.4 million
Traffic Impacts: Detour April – May for railroad work. Detour July – August for roadwork. Detour via Wright County Hwy 30 and Hwy 25 (ten miles)

46 Location: Hwy 23 St. Cloud — Washington Memorial Dr to Fourth Avenue
Description: New blacktop surface includes shoulders, turn-lanes and ramps; rebuild 9th/10th Ave overpass at Lake George; replace city sidewalks, curb and gutters, sewers, medians, city parking lot; install/replace traffic signal systems through corridor
Construction Dates: April 2009 – June 2010; open to four lanes of traffic November 2009
Construction Cost: \$13 million
Traffic Impacts: Lane closures/shifts with two-way traffic; side street closures; short-term detours
Website:
www.dot.state.mn.us/d3/project/hwy23bridge/

47 Location: Hwy 23 St. Cloud — Mississippi River bridge
Description: Replace bridge
Construction Dates: Fall 2008 – June 2010; open to four lanes of traffic November 2009
***(carryover)**

Total Construction Cost: \$19.2 million (Chapter 152 Bond)
Remaining Contract Amount: \$14 million
Traffic Impacts: Bridge closed. Detour via city streets
Web site:
www.dot.state.mn.us/d3/projects/hwy23bridge/

48 Location: Hwy 25 — Hwy 10 in Big Lake to Sherburne County Hwy 17 east of Monticello (two miles)
Description: Resurface roadway, includes shoulders
Construction Dates: September – October
Construction Cost: \$1 million
Traffic Impacts: Daytime lane closures with flaggers/pilot car

49 Location: Hwy 27 — East of Osakis to Hwy 71 (13 miles)
Description: Resurface roadway, includes shoulders. Replace/repair culverts.
Construction Dates: August – September
Construction Cost: \$2.5 million
Traffic Impacts: Daytime lane closures with flaggers/pilot car. Short-term detour to replace culvert via Todd County Hwys 51, 2 and 11 (14 miles)

50 Location: Hwy 47 — St. Francis to Ogilvie (31 miles); Hwy 95 – Isanti County Hwy 15 to Cambridge (12 miles)
Description: Seal coat road surface
Construction Dates: May - June
Construction Cost: \$1.3 million
Traffic Impacts: Daytime lane closures with flaggers/pilot car

51 Location: Hwy 65 — Isanti
Description: Install dual left turn lane and replace traffic signal system at Isanti County Hwy 5
Construction Dates: Mid-April - June
Construction Cost: \$750,000
Traffic Impacts: Intermittent lane/shoulder closures

52 Location: Hwy 71 Wadena — Lincoln Avenue to Franklin Avenue
Description: Resurface roadway; replace city sanitary/storm sewers and watermain, curb and gutters, and sidewalks
Construction Date: Summer
Construction Cost: \$500,000 (Mn/DOT's share)

Traffic Impacts: Detour via city streets

53 Location: I-94 Monticello
Description: Replace overpasses
Construction Dates: Mid-July 2009 – November 2010
Construction Cost: \$12.3 million
Traffic Impacts: Intermittent lane/shoulder closures; ramp closures

54 Location: Hwy 169 — South of Aitkin
Description: Replace both Ripple River bridges
Construction Dates: Late August – mid-November
Construction Cost: \$1 million (Chapter 152 Bond)
Traffic Impacts: Detour via Aitkin CR 76 (three miles)

55 Location: Hwy 200 — Hwy 84 to Remer; Hwy 6 - Remer
Description: Resurface roadway
Construction Dates: Late July – August
Construction Cost: \$1.4 million
Traffic Impacts: Daytime lane closures with flaggers/pilot car

56 Location: Hwy 210 — Wisconsin Avenue east of Hewitt to Dakota Avenue in Staples (15 miles)
Description: Resurface roadway, includes shoulders/turn-lanes, construct turn-lanes
Construction Dates: May – mid-June
Construction Cost: \$2.3 million
Traffic Impacts: Daytime lane closures with flaggers/pilot car

57 Location: Hwy 238 — south of Hwy 27 for three miles
Description: Replace Pike Creek and Swan River bridges
Construction Dates: June – mid-Sept.
Construction Cost: \$1.4 million
Traffic Impacts: Bridges closed. Eight-week detour via Hwy 27 and Morrison County Hwy 1 (18 miles).

58 Location: BUS Hwy 371 — North of Hwy 371 to Hwy 210 in Brainerd
Description: Resurface roadway, includes shoulders/turn-lanes
Construction Dates: September – mid-October
Construction Cost: \$1.5 million

Traffic Impacts: Intermittent lane closures/shifts with flaggers/pilot car

District 4 – Detroit Lakes/Morris

Contact: Dana Hanson

District project Web site
<http://www.dot.state.mn.us/d4/construct.html>

59 Location: Hwy 10 — Hawley to Dilworth
Description: Mill and resurface WB lanes (includes EB lanes through Glyndon)
Construction Dates: June 8 – August
Construction Cost: \$7.18 million
Traffic Impacts: WB traffic restricted to one lane

60 Location: I-94 — Hwy 75 to Hwy 336
Description: Resurface EB and WB lanes
Construction Dates: May 15 – July
Construction Cost: \$1.62 million
Traffic Impacts: Daytime lane closures

61 Location: I-94 — 34th Street
Description: Realign interchange and street corridor
Construction Dates: September 2008 – Fall 2010
Construction Cost: \$2.14 million
Traffic Impacts: Daily lane closures, possible detours

62 Location: Hwy 108 — Hwy 59 to Hwy 78
Description: Replace culverts, mill and resurface roadway
Construction Dates: July 6 – October
Construction Cost: \$7 million
Traffic Impacts: Detours, daytime lane closures

63 Location: Hwy 7 — Highway 75 to Appleton
Description: Mill and resurface roadway, replace edge drains
Construction Dates: July 6 – August
Construction Cost: \$3.97 million
Traffic Impacts: Daytime lane closures

64 Location: Hwy 75 — Tenney, Hwy 9 west of Nashua, Hwy 59 west of Hoffman, Hwy 29 at Carlos Corners
Description: Install lighting
Construction Dates: June 1 – July
Construction Cost: \$63,000
Traffic Impacts: Possible daytime lane closures

65 Location: Hwy 200, 113, 228, 9, 108, 78, 79, 55, 27
Description: Install edgeline rumble strips
Construction Dates: July 6 – September
Construction Cost: \$387,000
Traffic Impacts: Daytime moving lane closures

66 Location: Hwy 34, 75, 9, 59
Description: Repair aggregate shoulders
Construction Dates: June 1 – mid-July
Construction Cost: \$229,000
Traffic Impacts: Daytime moving lane closures

67 Location: Hwy 114, 329, 29, 9, 119, 7
Description: Replace guardrails
Construction Dates: June 15 – Aug. 1
Construction Cost: \$336,000
Traffic Impacts: Daytime lane closures

District 6 – Rochester/Owatonna/Winona

Contact: Krystal Ohlhaber
507-286-7684
District project Web site
<http://www.dot.state.mn.us/d6/construct.html>

68 Location: Highway 14 in Steele County
Description: Grade and surface from Waseca County Road 5 to Steele County Road 7 and construct the I-35/Hwy. 14 interchange
Construction Dates: July – November
Construction Cost: \$51.8 million
Traffic Impacts: Intermittent lane closures

69 Location: Hwy 30 in Dodge and Steele counties
Description: Bituminous mill and overlay on Hwy 30 from Blooming Prairie to Hayfield

(Hwy 218 to Hwy 56). Project is about 11 miles.

Construction Dates: May – June

Construction Cost: \$1.85 million

Traffic Impacts: Daily lane closures with flaggers. Detour in effect during the railroad crossing replacement work in Blooming Prairie.

70 Location: Hwy 30 – in Fillmore and Olmsted counties
Description: Preventive maintenance – bituminous mill and overlay from the Root River Bridge to Hwy 52. This project is tied to the overlay on Hwy 52 for a total project length of about 17 miles.

Construction Dates: July – August

Construction Cost: \$306,445

Traffic Impacts: Daily lane closures with flaggers

71 Location: I-35 – in Rice County

Description: Bridge rehabilitation on 10 bridges from Rice County Road 48 to Hwy 21. This project will be staged with the I-35 overlay project, an American Recovery and Reinvestment Project.

Construction Dates: May – September

Construction Cost: \$8.22 million (cost of both projects)

Traffic Impacts: Head-to-head traffic on southbound lanes, then head-to-head traffic on northbound lanes.

72 Location: I-35 – in Steele County

Description: Unbonded concrete overlay, culvert replacements and guardrail work on I-35 northbound lanes, from about a half mile north of Hwy 30 to three miles south of Owatonna. Project is about nine miles.

Construction Dates: July – November

Construction Cost: \$9.4 million

Traffic Impacts: Head-to-head traffic on southbound lanes.

73 Location: Hwy 42 in Wabasha County

Description: Install wet reflective pavement markings on Hwy 42 from Plainview to Kellogg. Project is about 12 miles.

Construction Dates: May

Construction Cost: \$47,614

Traffic Impacts: Daily lane closures with flaggers.

74 Location: Hwy 52 – in Fillmore County

Description: Bituminous mill and overlay from Fountain (junction of Hwy 80) to Chatfield. Project is about nine miles.

Construction Dates: May – July

Construction Cost: \$3 million

Traffic Impacts: Daily lane closures with flaggers. Detour in Fountain during culvert replacement.

75 Location: Hwy 52 – in Olmsted County

Description: Bituminous overlay on Hwy 52 from Chatfield to Marion (I-90). This project is tied to the mill and overlay on Hwy 30 for a total project length of about 16 miles.

Construction Dates: July – August

Construction Cost: \$1.36 million

Traffic Impacts: Daily lane closures with flaggers.

76 Location: Hwy 60 – in Goodhue County

Description: Bituminous mill and overlay from Kenyon to Zumbrota (north junction of Hwy 56 to Hwy 52). Project is about 15 miles.

Construction Dates: July – September

Construction Cost: \$3.29 million

Traffic Impacts: Daily lane closures with flaggers. A detour will be in effect between Kenyon and Wanamingo during culvert replacement.

77 Location: Hwy 60 – in Goodhue and Rice counties

Description: Bituminous mill and overlay from the east end of the Straight River Bridge to Huseth Avenue in Kenyon. Project is about 14 miles.

Construction Date: May

Construction Cost: \$1.1 million

Traffic Impacts: Daily lane closures with flaggers

78 Location: Hwy 60 – in Rice County

Description: Replace two bridges on Hwy 60 over the Cannon River in Morristown.

Construction Dates: June – September

Construction Cost: \$1.77 million

Traffic Impacts: Traffic detoured – motorists should follow posted route.

79 Location: Hwy 60 – in Rice County

Description: Reconstruct the historic Viaduct Bridge over the Straight River in Faribault. The project also includes grading, surfacing and widening the road in addition to curb and gutter work and signing and lighting installation.

Construction Dates: February – October

Construction Cost: \$8.89 million

Traffic Impacts: Hwy 60 will be closed from First Avenue to Sixth Avenue in Faribault. Detour is Ravine Street and Sixth Avenue.

80 Location: Hwy 61 – in Wabasha County

Description: Bituminous mill and overlay on northbound lanes from Winona to Kellogg (Hwy 14 to Hwy 42) and southbound lanes from Hwy 14 to Hwy 248. Project is about 24 miles.

Construction Dates: May – September

Construction Cost: \$6.79 million

Traffic Impacts: There will be a 10-calendar day detour for culvert replacements between 54th Avenue in Goodview and Winona County Road 32. Detour is 54th Avenue and County Road 32. The remaining work will be completed under daily lane closures.

81 Location: Hwy 63 – in Olmsted County

Description: Widen southbound ramp and construct right turn lane at 48th Street South in Rochester

Construction Date: July

Construction Cost: \$250,000

Traffic Impacts: 48th Street South exit ramp closed. Traffic detoured on 40th Street SW and St. Bridget's Road.

82 Location: I-90 in Mower County

Description: Preventive maintenance – concrete pavement rehabilitation on eastbound lanes from Mower County Road 19 to Hwy 16 in Dexter. Project is about eight miles.

Construction Dates: May – July

Construction Cost: \$1.69 million

Traffic Impacts: Long-term lane closures.

83 Location: I-90 from Hwy 43 to Hwy 76 in Winona County

Description: Bituminous overlay WB lanes

Construction Dates: May – June

Construction Cost: \$2.7 million

Traffic Impacts: Long-term lane closures

84 Location: I-90 in Winona County

Description: Replace four bridges on I-90 at Dresbach Township (just southeast of the north junction of Hwy 61).

Construction Dates: May – November (will continue next year)

Construction Cost: \$4.4 million

Traffic Impacts: Head-to-head traffic on eastbound lanes

85 Location: Hwy 218 in Mower County

Description: Traffic signal installation at I-90 (Hwy 218 north ramp).

Construction Dates: June

Construction Cost: \$108,600

Traffic Impacts: Minimal traffic impacts

86 Various: I-35, I-90 in Winona County

Description: Install six permanent variable message signs, signing upgrade and sign replacement on I-90

Construction Dates: May – June

Construction Cost: \$1.7 million

Traffic Impacts: Minimal traffic impacts

87 Various: District-wide

Description: Install centerline and shoulder rumble strips, install lighting and guardrail repair, bituminous repair and install radio towers. Rehabilitate 46 bridges.

Construction Dates: May – November

Construction Cost: \$3.5 million

Traffic Impacts: Minimal traffic impacts

District 7 – Mankato/Window

Contact: Rebecca Arndt
507-304-6106

88 Location: Hwy 14 Waseca

Description: Construct four lanes on new alignment south of Waseca

Construction Dates: 2008-2011/12

Construction Cost: \$56 million

Traffic Impacts: Detour for Hwy 13 and some county/township roads

Web site:

<http://www.dot.state.mn.us/d7/projects/14owatonna/>

89 Location: Hwy 30 – Mapleton

Description: Grade and surface from the west edge of Mapleton to jct with Hwy 22

Construction Dates: May 2009 – June 2010

Construction Cost: \$2.6 million (Mn/DOT Share)

Traffic Impacts: Detour

90 Location: Hwy 60 – Bigelow

Description: Finish work and landscape

Construction Dates: May

Construction Cost: \$165,000 *(carryover)

Traffic Impacts: None

91 Location: Hwy 60 Windom to Butterfield

Description: Pavement resurface, rehab and interim safety improvements

Construction Dates: July to October

Construction Cost: \$5.6 million

Traffic Impacts: Detour in two stages

92 Location: I-90 – Blue Earth

Description: Restoration of prairie on roadsides and in rest areas west of Blue Earth

Construction Dates: 2009 - 2011

Construction Estimate: \$260,000

Traffic Impacts: Short detours and lane restrictions

93 Location: I-90 – Worthington

Description: Bridge repair and paint I-90 bridges over Hwy 60 and old Hwy 266

Construction Dates: July - October

Construction Cost: \$3.8 million

Traffic Impacts: Short detours and lane restrictions

94 Location: I-90 – Adrian to Rushmore

Description: Spot overlays on EB Lanes

Construction Dates: August

Construction Cost: \$350,000

Traffic Impacts: Lane restrictions

95 Location: Hwy 169 Minnesota River Crossing at LeSueur

Description: Finishing work – painting, seeding, signing

Construction Dates: April/May

Construction Cost: NA

Traffic Impacts: Short-term lane restrictions; reduced speeds

District 8 – Willmar/Marshall/Hutchinson

96 Location: Hwy 23 – Yellow Medicine CR 18 in Hanley Falls

Description: Lighting and warning flashers

Construction Dates: May

Construction Cost: \$27,000

Traffic Impacts: Minor impacts

97 Location: Hwy 12, east of Kerkhoven

Description: Bridge deck repair

Construction Dates: June-July

Construction Cost: \$261,614

Traffic Impacts: Traffic detoured

98 Location: Hwy 71 – Kandiyohi CR 90 to north jct of Hwy 71/Hwy23

Description: Tension cable guardrail

Construction Dates: June-July

Construction Cost: \$317,589

Traffic Impacts: Minor impacts

99 Location: Hwy 14 – Tracy to Revere

Description: Mill and overlay, guardrail

Construction Dates: September - October

Construction Cost: \$1.9 million

Traffic Impacts: Intermittent lane closures

100 Location: Hwy 23 from Hwy 19 to north of CR 33

Description: Grade, surface, lighting

Construction Dates: May-September

Construction Cost: \$4 million

Traffic Impacts: Traffic detoured

101 Location: Hwy 23 from Marshall to Cottonwood

Description: Mill and concrete overlay, passing lane, lighting

Construction Dates: May - September

Construction Cost: \$7.7 million

Traffic Impacts: Traffic detoured

102 Location: Hwy 30 from north jct Hwy 59 to west limits of Westbrook

Description: Bituminous mill and overlay; culvert liners

Construction Dates: September - October

Construction Cost: \$1.4 million

Traffic Impacts: Intermittent lane closures

103 Location: Hwy 24 – Five miles north of Hwy 12

Description: Grade and surface, replace bridge with box culvert; salvage historic bridge

Construction Dates: May-October

Construction Cost: \$1.5 million

Traffic Impacts: Traffic detoured

104 Location: Hwy 68 – East of Wabasso

Description: Replace bridge with box culvert

Construction Dates: September - October

Construction Cost: \$333,771

Traffic Impacts: Traffic detoured

105 Location: Hwy 212 – Renville to Danube

Description: Grade and surface (bituminous and concrete), lighting

Construction Dates: May-October

Construction Cost: \$5.07 million

Traffic Impacts: Traffic detoured

106 Location: Hwy 4 – North limits of Cosmos to Hwy 55

Description: Mill and overlay

Construction Dates: September - October

Construction Cost: \$2.4 million

Traffic Impacts: Intermittent lane closures

107 Location: Hwy 12, 22, 23 (Litchfield, Willmar, Clara City) at various locations

Description: Concrete repair

Construction Dates: May - August

Construction Cost: \$712,012

Traffic Impacts: Traffic detoured for Willmar and Clara City; traffic delays in Litchfield

108 Location: Various intersections in District 8

Description: Advance warning flashers

Construction Dates: July

Construction Cost: \$105,675

Traffic Impacts: Minor impacts

109 Location: Various locations on Hwy 71 and Hwy 75 district-wide

Description: Rumble strips

Construction Dates: July

Construction Cost: \$181,810

Traffic Impacts: Minor impacts

*(carryover) Carryover projects are multi-year projects. Total construction costs indicate the total amount of the project contract. Remaining contract amount pertains to the amount of the contract yet to be spent.
