Project Specific Information

Project Overview
The Occupational Safety and Health Administration (OSHA) regulations require employers to perform ongoing audiometric testing for employees who are exposed to a noise level at or above 85 decibels for 8 hours. MnDOT has conducted a noise survey and concluded that approximately 2,300 employees are, or may be, exposed to 85 decibels of noise at least one day during the year. The purpose of the audiometric testing is to determine if employees are experiencing any loss of hearing. The OSHA regulations require employers to conduct respirator fit tests for all employees who are required to wear a respirator in order to safely perform their job duties. MnDOT has approximately 200 employees that require fit testing on an annual basis.

Project Goal
Selected Responder will provide OSHA compliant audiometric hearing testing and respiratory fit testing to appropriate MnDOT employees, located throughout the state, in a timely manner.

Desired Skills
Be familiar with, have an understanding of and must comply with the various requirements in OSHA standards 29 CFR 1910.95 and 29 CFR 1910.134.

Scope of Work and Deliverables
Selected Responder will perform audiometric hearing tests for up to 2,300 MnDOT employees and respirator fit tests for up to 200 MnDOT employees. The tests will support compliance with the applicable provisions of 29 CFR 1910.95, Occupational Noise Exposure, and 29 CFR 1910.134, Respiratory Protection, with regard to personnel, testing procedures and facilities/equipment.

Audiometric testing and respirator fit testing will be provided on an annual basis during the five day work week (Monday through Friday) on dates and hours that will be agreed on between the Selected Responder and MnDOT. Typically this would be during normal working hours of 7:00 am to 3:30 pm, 7:30 am to 4:00 pm, etc. and is frequently conducted during the months of March, April and May (may vary from location to location). Additional test dates may be necessary and will be set through mutual agreement between Selected Responder and MnDOT.

Selected Responder will conduct the following:

Audiometric Testing
1. Inform employees being tested:
   a. The effects of noise on hearing.
   b. The purpose of hearing protectors, advantages and disadvantages of the various types, attenuation and instruct them on the selection, fitting, care and use.
2. Conduct follow-up testing at the request of MnDOT for employees who experience a standard threshold shift. This re-testing will be conducted at a date and location agreed upon by Selected Responder and MnDOT. Selected Responder will facilitate re-testing within 30 days of the annual test, if requested.
3. Explain test results to employees so they will understand what their hearing level is and what the test score means. Selected Responder will provide a written letter for each employee explaining the test data, comparing test results to the baseline data, and advising them on how to protect their hearing from further loss.
4. Upon completion of testing, Selected Responder will submit a bound hard copy report to MnDOT. The report will include the following:
   a. A summary report indicating how many employees were tested, a breakdown of the number of employees by hearing loss category and a roster of employees tested.
   b. A breakdown by employee indicating date tested and hearing loss classifications.
   c. A listing of employees showing a hearing test history.
   d. A list of employees who experienced a standard threshold shift.
   e. A listing of employees who show a recordable shift per the applicable OSHA standard.
   f. A roster of employees whose names were submitted for testing but did not report for testing.
   g. Documentation of hearing conservation training provided.
5. Selected Responder will provide an electronic version of the report using MS Word or Excel formats.
6. Selected Responder will provide MnDOT with a letter for each employee who experiences a standard threshold shift (“21 day notification letter”). This letter will be used by MnDOT to fulfill the notification requirements as listed in 29 CFR 1910.95.
7. Selected Responder will provide consultation to MnDOT’s safety and health staff in regards to employee hearing tests.

Respirator Fit Testing
1. Explain test results and information on the fit test method used to each employee fit tested.
2. Provide documentation to each employee that has successfully passed a fit test. Documentation will include, at a minimum, the following:
   a. Employees name
   b. Date of fit test
   c. Respirator model and size fit tested
3. Selected Responder will submit a report to MnDOT that includes, but is not limited to, the following:
   a. A list of employees fit tested
   b. Results of fit test – pass or fail. If a quantitative method is used (e.g., Portacount), the overall fit factor achieved
   c. Respirator model fit tested, including manufacturer name and size
   d. Date of fit test
   e. Fit test method used
   f. Any unusual findings or observations discovered during fit test, such as employee refused fit test for any reason, claustrophobic underhood, employee had facial hair exceeding 1 days growth, etc.

The term of this contract is anticipated to run from January 2013 through January 2015, with the option to extend an additional 3 years, in increments determined by MnDOT.

Late responses will not be considered. Fax and e-mail responses will not be considered. All costs incurred in responding to this RFP will be borne by the responder.

MnDOT Not Obligated To Complete Project
This RFP does not obligate MnDOT to award a Contract or complete the project, and MnDOT reserves the right to cancel the solicitation if it is considered to be in its best interest.

Proposal Certifications
By submitting a Proposal, responders warrant that the information provided is true, correct and reliable for purposes of evaluation for potential Contract award. The submission of inaccurate or misleading information may be grounds for disqualification from Contract award and may subject the responder to suspension or debarment proceedings, as well as other remedies available to MnDOT, by law.

Disposition of Responses
All materials submitted in response to this RFP will become property of MnDOT and will become public record, in accordance with Minnesota Statutes §13.591, after the evaluation process is completed. Pursuant to the Statute, completion of the evaluation process occurs when MnDOT has completed negotiating the Contract with the successful responder. If the responder submits information in response to this RFP that it believes to be trade secret materials, as defined by the Minnesota Government Data Practices Act, Minnesota Statutes §13.37, the responder must:

- Clearly mark all trade secret materials in its response at the time the response is submitted,
- Include a statement with its response justifying the trade secret designation for each item, and
- Defend any action seeking release of the materials it believes to be trade secret, and indemnify and hold harmless the State, its agents and employees, from any judgments or damages awarded against the State in favor of the party requesting the materials, and any and all costs connected with that defense. This indemnification survives the State’s award of a contract. In submitting a response to this RFP, the responder agrees that this indemnification survives as long as the trade secret materials are in possession of the State. The State is required to keep all the basic documents related to its contracts, including responses to RFPs for a minimum of seven years.

MnDOT will not consider the prices submitted by the responder to be proprietary or trade secret materials.

Contingency Fees Prohibited
Pursuant to Minnesota Statutes §10A.06, no person may act as or employ a lobbyist for compensation that is dependent upon the result or outcome of any legislation or administrative action.

Affidavit of Noncollusion
Responders must complete the attached “Affidavit of Noncollusion” and submit it as part of the proposal.

Worker’s Compensation Insurance
The successful responder will be required to submit acceptable evidence of compliance with workers’ compensation insurance coverage requirements prior to execution of the Contract.

Pre-Award Audit Requirement
The successful responder will be required to submit pre-award audit information and comply with audit standards and failure to do so may result in disqualification.

This list should indicate the name of the entity, the relationship and a discussion of the conflict. Responders must complete the attached “Conflict of Interest Checklist and Disclosure Form” and submit it as part of the proposal.

Organizational Conflicts of Interest
The responder warrants that, to the best of its knowledge and belief, and except as otherwise disclosed, there are no relevant facts or circumstances, which could give rise to organizational conflicts of interest. An organizational conflict of interest exists when, because of existing or planned activities or because of relationships with other persons, a vendor is unable or potentially unable to render impartial assistance or advice to MnDOT, or the successful responder’s objectivity in performing the Contract work is or might be otherwise impaired, or the successful responder has an unfair competitive advantage. The responder agrees that, if after award, an organizational conflict of interest is discovered, an immediate and full disclosure in writing must be made to MnDOT, which must include a description of the action, which the successful responder has taken or proposes to take to avoid or mitigate such conflicts. If an organizational conflict of interest is determined to exist, MnDOT may, at its discretion, cancel the Contract. In the event the responder was aware of an organizational conflict of interest prior to the award of the Contract and did not disclose the conflict to MnDOT, MnDOT may terminate the Contract for default. The provisions of this clause must be included in all subcontracts for work to be performed similar to the service provided by the prime contractor, and the terms “contract,” “contractor,” and “contracting officer” modified appropriately to preserve MnDOT’s rights.

**E-Verify Certification (In accordance with Minnesota Statutes §16C.075)**
By submission of a proposal for services in excess of $50,000, responders certify that as of the date of services performed on behalf of MnDOT, responder and all its subcontractors will have implemented or be in the process of implementing the federal E-Verify program for all newly hired employees in the United States who will perform work on behalf of MnDOT. In the event of Contract award, the successful responder will be responsible for collecting all subcontractor certifications and may do so utilizing the E-Verify Subcontractor Certification Form available at http://www.mmd.admin.state.mn.us/doc/EverifySubCertForm.doc. All subcontractor certifications must be kept on file with the successful responder and made available to MnDOT upon request.

To be eligible for the preference, a business must have its “principal place of business” in Minnesota and must be certified by the United States Department of Veterans Affairs as either a veteran-owned small business or a service-disabled veteran-owned small business. To claim the preference, the responder must complete the “Veteran-Owned Business Preference” form and submit it with its proposal. Only eligible, certified, veteran-owned/service disabled small businesses that provide the required documentation, per the form, will be given the preference. Eligible veteran-owned and eligible service-disabled veteran-owned small businesses must be currently certified by the United States Department of Veterans Affairs prior to the solicitation opening date and time to receive the preference.

Information regarding certification by the United States Department of Veterans Affairs may be found at http://www.vetbiz.gov.

**Early Retirement Incentive Reemployment Prohibition**

**Checklist is not Exclusive:** Please note that this checklist serves as a guide only, and that there may be additional potential conflict situations not covered by this checklist. If a proposer determines a potential conflict of interest exists that is not covered by this checklist, that potential conflict must still be disclosed.

**Use of the Disclosure Form:** Proposer must complete the attached disclosure form and submit it with their Proposal (or separately as directed by MnDOT for projects not awarded through a competitive solicitation). If the proposer determines a potential conflict of interest exists, it must disclose the potential conflict to MnDOT; however, such a disclosure will not necessarily disqualify a proposer from being awarded a Contract. To avoid any unfair “taint” of the selection process, the disclosure form should be provided separate from the bound proposal, and it will not be provided to selection committee members. MnDOT Contract Management personnel will review the disclosure and the appropriateness of the proposed mitigation measures to determine if the proposer may be awarded the Contract notwithstanding the potential conflict. MnDOT Contract Management personnel may consult with MnDOT’s Project Manager and Department of Administration personnel. By statute, resolution of conflict of interest issues is ultimately at the sole discretion of the Commissioner of Administration.

**Material Representation:** Proposer is required to submit the attached disclosure form either declaring, to the best of its knowledge and belief, either that no potential conflict exists, or identifying potential conflicts and proposing remedial measures to ameliorate such conflict. The proposer must also update conflict information if such information changes after the submission of the proposal. Information provided on the form will constitute a material representation as to the award of this Contract. MnDOT reserves the right to cancel or amend the resulting Contract if the successful proposer failed to disclose a potential conflict, which it knew or should have known about, or if the proposer provided information on the disclosure form that is materially false or misleading.

**Approach to Reviewing Potential Conflicts:** MnDOT recognizes that proposer’s must maintain business relations with other public and private sector entities in order to continue as viable businesses. MnDOT will take this reality into account as it evaluates the appropriateness of proposed measures to mitigate potential conflicts. It is not MnDOT’s intent to disqualify proposers based merely on the existence of a business relationship with another entity, but rather only when such relationship causes a conflict that potentially impairs the proposer’s ability to provide objective advice to MnDOT. MnDOT would seek to disqualify proposers only in those cases where a potential conflict cannot be adequately mitigated. Nevertheless, MnDOT must follow statutory guidance on Organizational Conflicts of Interest.

**Statutory Guidance:** Minnesota Statutes §16C.02, subdivision 10(a) places limits on state agencies ability to Contract with entities having an “Organizational Conflict of Interest”. For purposes of this checklist and disclosure requirement, the term “Vendor” includes “Proposer” as defined above. Pursuant to such statute, “Organizational Conflict of Interest” means that because of existing or planned activities or because of relationships with other persons: (1) the vendor is unable or potentially unable to render impartial assistance or advice to the state; (2) the vendor’s objectivity in performing the contract work is or might otherwise be impaired; or (3) the vendor has an unfair advantage.

**Additional Guidance for Professionals Licensed by the Minnesota Board of Engineering:** The Minnesota Board of Engineering has established conflict of interest rules applicable to those professionals licensed by the Board (see Minnesota Rules part 1805.0300) Subpart 1 of the rule provides “A licensee shall avoid accepting a commission where duty to the client or the public would conflict with the personal interest of the licensee or the interest of another client. Prior to accepting such employment the licensee shall disclose to a prospective client such facts as may give rise to a conflict of interest”.

(CSS/CM Reviewed 8/23/2012)
An organizational conflict of interest may exist in any of the following cases:

- The proposer, or its principals, own real property in a location where there may be a positive or adverse impact on the value of such property based on the recommendations, designs, appraisals, or other deliverables required by this Contract.

- The proposer, or its principals, in previous work for the state has provided the final design or related services that are directly related to performance of work required under this contract. Comment: this provision will, for example, disqualify a proposer who performed final design for the State and now seeks to provide Construction Administration Services for that same project. MnDOT believes this is necessary because the firm that prepared the plans may be unable to objectively determine plan errors and omissions. This may cause a situation where: (1) the vendor is unable or potentially unable to render impartial assistance or advice to the state; and (2) the vendor’s objectivity in performing the contract work is or might otherwise be impaired.

- The proposer is providing services to another governmental or private entity and the proposer knows or has reason to believe, that entity’s interests are, or may be, adverse to the state’s interests with respect to the specific project covered by this Contract. Comment: the mere existence of a business relationship with another entity would not ordinarily need to be disclosed. Rather, this focuses on the nature of services commissioned by the other entity. For example, it would not be appropriate to propose on a MnDOT project if a local government has also retained the proposer for the purpose of persuading MnDOT to stop or alter the project plans.

- The Contract is for right-of-way acquisition services or related services (e.g. geotechnical exploration) and the proposer has an existing business relationship with a governmental or private entity that owns property to be acquired pursuant to the Contract.

- The proposer is providing real estate or design services to a private entity, including but not limited to developers, whom the proposer knows or has good reason to believe, own or are planning to purchase property affected by the project covered by this Contract, when the value or potential uses of such property may be affected by the proposer’s performance of work pursuant to this Contract. “Property affected by the project” includes property that is in, adjacent to, or in reasonable proximity to current or potential right-of-way for the project. The value or potential uses of the private entity’s property may be affected by the proposer’s work pursuant to the Contract when such work involves providing recommendations for right-of-way acquisition, access control and the design or location of frontage roads and interchanges. Comment: this provision does not presume proposers know nor have a duty to inquire as to all of the business objectives of their clients. Rather, it seeks the disclosure of information regarding cases where the proposer has reason to believe that its performance of work under this contract may materially affect the value or viability of a project it is performing for the other entity.

- The proposer has a business arrangement with a current MnDOT employee or immediate family member of such employee, including promised future employment of such person, or a subcontracting arrangement with such person, when such arrangement is contingent on the proposer being awarded this Contract. This item does not apply to pre-existing employment of current or former MnDOT employees, or their immediate family members. Comment: this provision is not intended to supercede any MnDOT policies applicable to its own employees accepting outside employment. This provision is intended to focus on identifying situations where promises of employment have been made contingent on the outcome of this particular procurement. It is intended to avoid a situation where a proposer may have unfair access to “inside” information.

- The proposer has, in previous work for the state, been given access to “data” relevant to this procurement or this project that is classified as “private” or “nonpublic” under the Minnesota Government Data Practices Act, and such data potentially provides the proposer with an unfair advantage in preparing a proposal for this project. Comment: this provision will not, for example, necessarily disqualify a proposer who performed some preliminary work from obtaining a final design Contract, especially when the results of such previous work are public data available to all other proposers. Rather, it attempts to avoid an “unfair advantage” when such information cannot be provided to other potential proposers. Definitions of “government data”, “public data”, “non-public data” and “private data” can be found in Minnesota Statutes Chapter 13.

- The proposer has, in previous work for the state, helped create the “ground rules” for this solicitation by performing work such as: writing this solicitation, or preparing evaluation criteria or evaluation guides for this solicitation.

- The proposer, or any of its principals, because of any current or planned business arrangement, investment interest, or ownership interest in any other business, may be unable to provide objective advice to the state.
DISCLOSURE OF POTENTIAL CONFLICT OF INTEREST

Having had the opportunity to review the Organizational Conflict of Interest Checklist, the proposer hereby indicates that it has, to the best of its knowledge and belief:

___ Determined that no potential organizational conflict of interest exists.

___ Determined that a potential organizational conflict of interest exists, as follows:

Describe nature of potential conflict:

8 Indemnification; Standard of Care; Liability for Work; Deliverable Standards

8.1 Indemnification. In the performance of this contract by Contractor, or Contractor’s agents or employees, Contractor must indemnify, save and hold harmless State, its agents, and employees, from any claims or causes of action, including attorney’s fees incurred by State, to the extent caused by Contractor’s: 1) intentional, willful, or negligent acts or omissions; or 2) actions that give rise to strict liability; or 3) breach of Contract or warranty; or 4) breach of the applicable standard of care. The indemnification obligations of this section do not apply in the event the claim or cause of action is the result of State’s sole negligence. This clause will not be construed to bar any legal remedies Contractor may have for State’s failure to fulfill its obligation under this Contract.

8.2 Standard of Care. In the performance of its professional services, Contractor will use that degree of care, knowledge and skill ordinarily exercised by other reputable professionals in the field under like circumstances within the State of Minnesota.

8.3 Liability for Work. Contractor will be responsible for any damages incurred as a result of its failure to comply with the standard of care or other failure to comply with Contract requirements, and for any loss or cost to repair or remedy such non-compliance, however, Contractor will not be liable for consequential or punitive damages, including but not limited to those arising from, loss of use, loss of profits or revenue, loss of financing commitments or fees or the cost of capital. State acknowledges its duty to mitigate damages.

8.4 Deliverable Standards. All services provided by the Contractor pursuant to this Contract, which do not meet the requirements of this Article 8.4, will be considered defective work. All services provided by the Contractor pursuant to this contract must be in accordance with (1) the requirements and specifications set forth in this Contract; and (2) the required standard of care; and (3) applicable state and federal standards, specifications, policies and practices; and (4) applicable federal, state, and local, laws, ordinances, rules, and regulations.

8.4.1 Rejection and Correction of Defective Work. The State has the authority to reject services that do not meet the requirements of the Contract. Contractor will be responsible for promptly making such revisions, repairs or corrections to its work and deliverables as are necessary to meet the Contract requirements. Such revisions, repairs and corrections will be made without additional compensation.

8.4.2 No Waiver. Acceptance of the Contractor’s services by the State is not a waiver of any provision of this Contract and does not relieve Contractor of the responsibility for correcting a subsequently- discovered failure to conform to the requirements of the Contract.

8.4.3 Effect of Acceptance. It is understood by the parties that State will rely on the professional performance and ability of Contractor. Any examination by State or the Federal Highway Administration, or any acceptance or use of the work product of Contractor, will not be considered to be a full and comprehensive examination and will not be considered an approval of the work product of Contractor which would relieve Contractor from any liability or expense that could be connected with Contractor’s sole responsibility for the propriety and integrity of the professional work to be accomplished by Contractor pursuant to this Contract.

8.4.4 Consultation Concerning Deliverables. Contractor must, at no additional cost to State, confer with State at any time during construction or any phase of work performed by others based on deliverables provided by Contractor, when necessary for the purpose of interpreting or clarifying such deliverables. Contractor must give immediate attention to these requests so there will be minimal delay to the construction or other work as referenced. State will notify Contractor of any request for interpretation, clarification or correction. Notification may be in writing, or by telephone and confirmed in writing. Contractor must respond to such notice within three business days and must promptly perform the necessary services to minimize any delays to State. Contractor may be required to make a field review of the project site, as defined in the Special Terms of this Contract, if directed by State’s Authorized Representative, and Contractor may be required to send personnel to the appropriate State district office as part of performing the necessary services.

8.4.5 Subsequent Corrections. If State determines that additional field or office work may be required due to Contractor’s failure to comply with the Contract requirements and the standards set forth in this Article 8, then Contractor must perform such additional work as may be necessary to bring the work into compliance with such requirements and standards. Contractor must prepare any and all plans or data needed to correct its deliverables without additional compensation, even though Contractor may already have received final payment. Contractor must give immediate attention to these changes so there will be minimal delay to the construction or other work as referenced.

8.4.6 Reliance on State-Furnished Data. The parties understand and agree that Contractor must rely on documents, drawings, specifications and studies provided to Contractor by State and others on its behalf in
making its opinions of conformity to specifications and standards. Contractor will not be entitled to rely on such documents, drawings or specifications that Contractor knows to be incorrect or incomplete, unless it has first brought such concerns to the attention of State and has been directed to proceed notwithstanding such concerns.

9.1 Under Minnesota Statutes §16C.05, subdivision 5, Contractor’s books, records, documents and accounting procedures and practices relevant to this Contract are subject to examination by State, State’s Auditor or the Legislative Auditor, as appropriate, for a minimum of six years from the expiration date of this Contract.

10 Government Data Practices and Intellectual Property
10.1 Government Data Practices. Contractor and State must comply with the Minnesota Government Data Practices Act, Minnesota Statutes Chapter 13, as it applies to all data provided by State under this Contract, and as it applies to all data created, collected, received, stored, used, maintained or disseminated by Contractor under this Contract. The civil remedies of Minnesota Statutes §13.08 apply to the release of the data referred to in this clause by either Contractor or State. If Contractor receives a request to release the data referred to in this Clause, Contractor must immediately notify State and consult with State as to how Contractor should respond to the request. Contractor’s response to the request must comply with applicable law.

10.2 Intellectual Property Rights
10.2.1 Intellectual Property Rights. State owns all rights, title and interest in all of the intellectual property rights, including copyrights, patents, trade secrets, trademarks and service marks in the Works and Documents created and paid for under this Contract. Works means all inventions, improvements, discoveries (whether or not patentable), databases, computer programs, reports, notes, studies, photographs, negatives, designs, drawings, specifications, materials, tapes and disks conceived, reduced to practice, created or originated by Contractor, its employees, agents and subcontractors, either individually or jointly with others in the performance of this Contract. Works includes “Documents.” Documents are the originals of any databases, computer programs, reports, notes, studies, photographs, negatives, designs, drawings, specifications, materials, tapes, disks or other materials, whether in tangible or electronic forms, prepared by Contractor, its employees, agents or subcontractors, in the performance of this Contract. The Documents will be the exclusive property of State, and Contractor upon completion or cancellation of this Contract must immediately return all such Documents to State. To the extent possible, those Works eligible for copyright protection under the United States Copyright Act will be deemed to be “works made for hire.” Contractor assigns all right, title and interest it may have in the Works and the Documents to State. Contractor must, at the request of State, execute all papers and perform all other acts necessary to transfer or record the State’s ownership interest in the Works and Documents.

10.2.2 Obligations

Whenever any invention, improvement or discovery (whether or not patentable) is made or conceived for the first time or actually or constructively reduced to practice by Contractor, including its employees and subcontractors, in the performance of this Contract, Contractor will immediately give State’s Authorized Representative written notice thereof and must promptly furnish State’s Authorized Representative with complete information and/or disclosure thereon.

10.2.2.2 Representation. Contractor must perform all acts, and take all steps necessary to ensure that all intellectual property rights in the Works and Documents are the sole property of State and that neither Contractor nor its employees, agents or subcontractors retain any interest in and to the Works and Documents. Contractor represents and warrants that the Works and Documents do not and will not infringe upon any intellectual property rights of other persons or entities. Notwithstanding Clause 8, Contractor will indemnify; defend, to the extent permitted by the Attorney General; and hold harmless State, at Contractor’s expense, from any action or claim brought against State to the extent that it is based on a claim that all or part of the Works or Documents infringe upon the intellectual property rights of others. Contractor will be responsible for payment of any and all such claims, demands, obligations, liabilities, costs and damages, including but not limited to, attorney fees. If such a claim or action arises, or in Contractor’s or State’s opinion is likely to arise, Contractor must, at State’s discretion, either procure for State the right or license to use the intellectual property
rights at issue or replace or modify the allegedly infringing Works or Documents as necessary and appropriate to obviate the infringement claim. This remedy of State will be in addition to and not exclusive of other remedies provided by law.

11 Workers’ Compensation
11.1 Contractor certifies that it is in compliance with Minnesota Statutes §176.181, subdivision 2, pertaining to workers’ compensation insurance coverage. Contractor’s employees and agents will not be considered State employees. Any claims that may arise under the Minnesota Workers’ Compensation Act on behalf of these employees and any claims made by any third party as a consequence of any act or omission on the part of these employees are in no way State’s obligation or responsibility.

For purposes of this provision, publicity includes notices, informational pamphlets, press releases, research, reports, signs and similar public notices prepared by or for Contractor individually or jointly with others, or any subcontractors, with respect to the program, publications, or services provided resulting from this Contract.

These identification numbers may be used in the enforcement of federal and state tax laws which could result in action requiring Contractor to file state tax returns and pay delinquent state tax liabilities, if any.

15 Subcontractors
15.1 Subcontracts
15.1.1 If Contractor is authorized by State to use, or uses, any subcontractors, Contractor will be responsible for coordinating and managing the work of such subcontractors. The use of subcontractors does not relieve Contractor from its obligation to perform the services specified in this Contract.

Upon termination, Contractor will be entitled to payment, determined on a pro rata basis, for services satisfactorily performed.

16.2 Termination for Insufficient Funding. State may immediately terminate this Contract if it does not obtain funding from the Minnesota Legislature, or other funding source; or if funding cannot be continued at a level sufficient to allow for the payment of the services covered here. Termination must be by written or fax notice to Contractor. State is not obligated to pay for any services that are provided after notice and effective date of termination. However, Contractor will be entitled to payment, determined on a pro rata basis, for services satisfactorily performed to the extent that funds are available. State will not be assessed any penalty if the Contract is terminated because of the decision of the Minnesota Legislature, or other funding source, not to appropriate funds. State must provide Contractor notice of the lack of funding within a reasonable time of State’s receiving that notice.

16.3 Suspension. State may immediately suspend this Contract in the event of a total or partial government shutdown due to failure to have an approved budget by the legal deadline.
