## **Minnesota Repeals Uniform State Hazardous Materials Transportation and Registration Program**

Minnesota has been a participating state in the Uniform State Hazardous Materials Transportation and Registration Program (HMP) since July 1, 1994. The program's purpose was to establish uniform forms and procedures for States that register persons who transport, cause to be transported, or ship hazardous materials by motor vehicle on the public highways in interstate or intrastate commerce. A carrier filing an application in Minnesota met the regulations in Minnesota as well as the requirements for other HMP states. Also, Minnesota collected fees and issued credentials for Minnesota and for other member HMP states in which the carrier operated.

Effective August 1, 2010, the statutory authority for Minnesota to participate in this program has been repealed by the 2010 State Legislature.

Effective June 1, 2010, the Office of Freight and Commercial Vehicle Operations will no longer accept new or renewal applications; collect fees under this program; or issue credentials for the HMP.

Minnesota enforcement agencies as well as the state administrators in the remaining HMP states of Illinois, Michigan, Nevada, Ohio, Oklahoma and West Virginia have been notified of this change.

What THIS MEANS to you is if you are a carrier that met the requirements to file an application and pay fees to the State of Minnesota as your base state under the HMP and you transport, cause to be transported, or ship hazardous materials by motor vehicle on the public highways in interstate or intrastate commerce through any of the 6 states listed above, you must now choose the state in which you generate the greatest percent of fleet mileage as your NEW BASE STATE.

The Minnesota portion of all HMP credentials issued by the State of Minnesota, Office of Freight and Commercial Vehicle Operations with an expiration date after July 31, 2010, will expire July 31, 2010 regardless of the date issued or the expiration date listed on the credential. Authority in any states listed on the credential (except Minnesota) will expire on the date shown on the credential. If your HMP credentials have expired or expire between now and July 31, 2010, the Office of Freight and Commercial Vehicle Operations will not process a renewal or new application. You must make arrangements with your new base state and file immediately with them.

If your Minnesota issued HMP credentials are expired or expire on or before June 1, 2010 you will need to identify your new base state, make application, calculate and pay fees to your new base state and receive new credentials before July 31, 2010 to operate legally in Illinois, Michigan, Nevada, Ohio, Oklahoma or West Virginia. If you have questions you may contact the Office of Freight and Commercial Vehicle Operations at 651-215-6330.

## **HMP State Contact Information**

### **ILLINOIS**

Illinois Environmental Protection Agency  
Division of Land Pollution Control
