

Weekly Construction Update S.P. 6910-96 Grand Avenue 2 Reconstruction 2016

DATE: July 27, 2016

Work is progressing at multiple locations along the project lane shifts and flagging will be found along the project.

The following construction activities will be worked on next week:

- Culvert installation at various locations,
- Setting of beams at Knowlton Creek Bridge :
- Box culvert removal
- Concrete removals
- Placement of new curb and gutter , sidewalks and driveways

Please drive with caution in the construction zone as traffic control will be changing almost daily due to the activity level as the project is nearing completion.

Traffic changes expected this week:

- **Tuesday August 2nd from 9:00am till about 4:00 pm Beams will be set for the new bridge at Knowlton Creek. During beam setting traffic will need to be stopped for time periods up to 15 minutes. This is necessary to allow the beams to be unloaded from the trucks.**
-

The Speed limit has been dropped to 35 MPH along the entire length of Grand from I-35 to Becks Road. All Lanes north of 83rd are now open

Contact information about the project:

MnDOT Project website <http://www.dot.state.mn.us/d1/projects/Hwy23grand/index.html>

You can sign up on the web site for contacts and an e mail will be sent as project changes are updated. Updates will be posted weekly or as major changes to traffic occur on the project.
