### Thief River Falls Construction 2020

**m** DEPARTMENT OF TRANSPORTATION

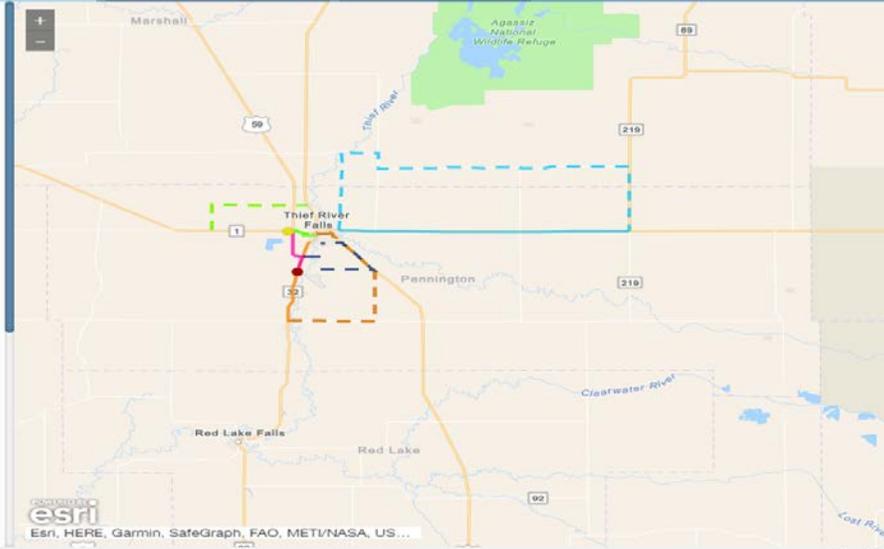

All Construction Activity This Year Active Construction Today Choose a Time Period

#### We're all in this together

Between MnDOT, Pennington County, City of Thief River Falls, and the Red Lake Watershed District there are 10 different projects happening in the vicinity of Thief River Falls. MnDOT has coordinated with the other agencies in order to limit the overall impact through staging and shared detours. Once a project begins, there will be weekly coordination meetings that are open to the public, and they will also be available online for those that can't attend in person.

The current map shows all the construction projects and detours that will happen in Thief River Falls during the summer of 2020.

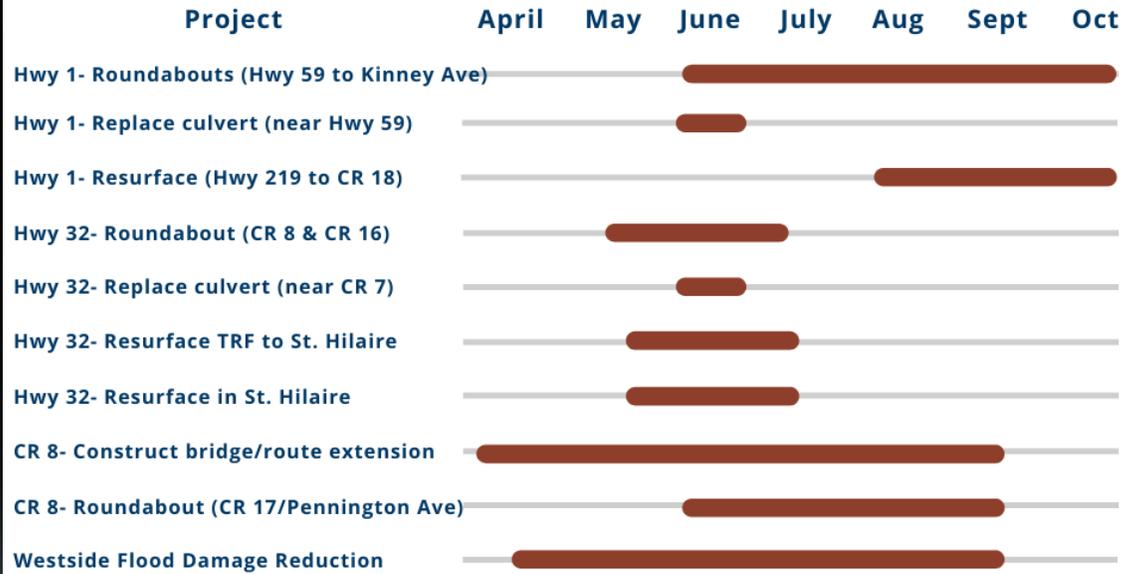

Clicking a project or detour feature on the map will provide additional information about that item.
