

Interstate 94 Overpass Construction at Broadway Street in Monticello

Traffic Impacts/Timeframe

Interstate 94

Will remain open to traffic throughout the duration of the project.

Summer 2009 to Spring 2010, crews will construct the westbound I-94 overpass just north of the current westbound I-94 overpass.

Summer 2010, westbound I-94 traffic will shift onto the constructed overpass; eastbound I-94 traffic will shift onto the old westbound I-94 overpass as crews construct the eastbound I-94 overpass.

Access Ramps at Wright County Highway 18

Stage 1A Fall 2009

The access ramp (C) from westbound I-94 to Wright County Highway 18 will be closed for temporary realignment. The old access ramp (J) will be reopened for use during construction.

Stage 1B Spring 2010

The access ramp (C) from westbound I-94 to Wright County Highway 18 will be closed for pavement work; traffic will be detoured via westbound I-94, Highway 25 and Wright County Highway 75.

Stage 2A Summer - Fall 2010

The access ramp (D) from Wright County Highway 18 to eastbound I-94 will be closed as crews construct the new eastbound I-94 overpass. Traffic will be detoured via Chelsea Road and Highway 25.

Broadway Street

Crews will reconstruct and realign Broadway Street under the overpasses. Motorists may encounter single lane closures, lane shifts or short-term road closures with a signed detour.

Work

July 2009 - November 2010

During this project crews will:

- Construct two I-94 overpasses
- Realign westbound I-94 to the new overpass
- Pave a new concrete surface on I-94 at the new overpasses
- Reconstruct ramps (C/D)
- Remove ramps (J/K)
- Install a safety three-cable guardrail off the shoulder of the eastbound ramp (D) at Freeway Fields Park
- Reconstruct Broadway Street under the overpasses
