Highway 250 Bridge Replacement Project
Over the Root River, Lanesboro

Project Overview
The Minnesota Department of Transportation will be replacing two narrow through-truss bridges on Highway 250 over the Root River near Lanesboro. The project also involves improvements to the existing roadway alignment immediately approaching each bridge.

Project layout – Highway 250 bridges and roadway approaches

Traffic Management
Highway 250 will be closed and detoured for construction of the south bridge in Lanesboro. Highway 250 at the north bridge is expected to remain open for a majority of the construction, except during grading of the roadway connections back into the existing Highway 250 alignment.

• The proposed detour route includes rerouting Highway 250 traffic onto Highway 16, Highway 43 and Highway 30.

Project Schedule
• Construction: May 2016 to Late September 2016

Contract Information
• Contractor: Minnowa Construction, Inc.
• Project Bid: $3.81 Million
