

## Fact Sheet for the I-35W Team of Ames/Lunda, a Joint Venture and HDR

### **Team Members**

Ames/Lunda, A Joint Venture (A-L), is composed of Ames Construction, Inc. and Lunda Construction Company. Ames is the managing partner.

HDR Engineering, Inc. (HDR) is the lead design firm, with WSB & Associates, Alliant Engineering, and American Engineering Testing, Inc. (AET) as exclusive subconsultants.

### **Relevant Team Experience and Background**

All of the team members have design-build experience and significant experience working with each other and with Mn/DOT. Ames and Lunda have worked together for 29 years and are currently partners on the \$288 million Crosstown Project. Ames, HDR, AET and WSB are nearing completion of the \$238 million TH 212 project.

**About Ames Construction, Inc.** Headquartered in Burnsville, Minn., Ames is one of the nation's largest heavy civil and industrial design-build general contractors and has completed nearly \$1 billion of design-build contracts. It is an equity partner and primary constructor on Mn/DOT's two largest design-build projects. It has more than 20 years of experience constructing bridges, including the recently completed Mississippi River Bridge in Sauk Rapids.

**About Lunda Construction Company.** Headquartered in Black River Falls, Wisc., Lunda is Mn/DOT's largest bridge contractor by volume. It specializes in river crossings and has completed contracts on 37 major bridges over the Mississippi, Minnesota and St. Croix Rivers since 1993, including many of Minnesota's largest and most technically difficult bridges. Lunda has completed more than 500 construction projects in Minnesota, involving more than 1,500 structures.

**About HDR.** Headquartered in Omaha, Neb., HDR is a national A/E firm with more than 6,200 employees, including 150 in Minneapolis. Ranked No. 9 nationally in transportation engineering by *Engineering News-Record*, HDR is a recognized leader in designing concrete and steel major river crossings including the Missouri, Hudson, Ohio and Colorado Rivers. HDR has been involved in the accelerated delivery of more than \$4 billion in design-build projects in the last five years.
