1. General Fund Account Expenditures

March, 2011

Request:

Expenditure break-down by each division or section of the agency

Response:

All General (100) fund expenditures by program, budget activity, and object class for fiscal years 2010-2013. Note that object class codes beginning with "1" include both salary and fringe benefits (retirement, insurance, FICA, etc.).

Assumptions:

Base budget and Governor's Recommendation for FY2012-2013

FTE data is included in section 9

Data Source:

- Biennial Budget System (BBS) Multi-query report

1. Charge-backs Imposed by the Office of the Attorney General

March, 2011

Request:

- Current rate or charge back.
- Amount charged each fiscal year from FY 2001-11.
- Service delivered to state agency.
- Identify the fund (general, special revenue or federal) used to pay the rate or charge.

Response:

Pursuant to Minnesota Statutes Chapter 8, the Attorney General shall provide legal services to state agencies, boards and commissioners. Minnesota Statute 8.15, subd. 2, allows the Department of Transportation to include a request for legal services in its biennial budget request. The Department of Transportation needs legal services in order to administer and deliver transportation programs in Minnesota.

In general, we have an agreed upon base rate, which reflects a projected estimated level of legal service. Amounts over this base are billed at an agreed upon hourly rate.

STATE OF MINNESOTA
INTERAGENCY AGREEMENT
FISCAL YEAR 2011

WHEREAS, pursuant to Minnesota Statutes Chapter 8, the Attorney General shall provide legal services to state agencies, boards and commissioners; and

WHEREAS, pursuant to Minnesota Statutes section 8.15, subdivision 2, the Department of Transportation (Department) included a request for legal services in its biennial budget request; and

WHEREAS, pursuant to Minnesota Statutes section 8.15, subdivision 3., the Attorney General is authorized to enter into agreements with executive branch agencies to provide legal services; and

WHEREAS, the parties need to enter into an Interagency Agreement for legal services in order to administer arid deliver transportation programs in Minnesota for FY 2011.

NOW, THEREFORE, IT IS AGREED:

FY11

1. The total cost of all services to be provided to the Department by the Attorney General's Office (AGO) in Fiscal Year 2011 (FY11) is estimated by the AGO and the Department of be $1,981,700.00. This figure is based on projected estimated legal services of 17,800 hours at the hourly rates of $114.00 for attorney services and $64.00 for legal assistant and investigator services.

981,700
<291,860>
1,689,840 ÷ 4 =
$422,460

Terms of Payment: The total cost of all legal services to be provided to the Department by the Attorney General's Office (AGO) is estimated to be $1,981,700.00. This figure is based on projected estimated legal services of 17,800 hours at the hourly rates of $114 for attorney services and $64 for legal assistant services. The AGO has $291,860.00 in its budget to provide legal services to the Department. The Department will transfer the sum of $422,460.00 in quarterly payments on the first day of each quarter to the AGO.

3. The AGO will provide legal services to the Department in accordance with Minnesota Statutes section 8.06, except those duties, if any, delegated to Department personnel or provided by outside counsel under section 8.06. The scope of legal services to be provided includes all matters pertaining to the Department's official duties, including representation in litigation or other legal proceedings, provision of legal advice and assistance, provision of training and education to Department staff, and other legal needs as may be necessary.

4. The AGO staff will meet with the Department upon request to review priorities for legal services.

5. The hours of legal services provided under this agreement will be recorded by AGO staff for use in the AGO payroll system. The AGO will provide the Department with a report

set up PO
AGS (approp 211) $1,689,840.00
DOF (approp Field Blank) 291,860.00
$1,981,700.00

of all hours of service provided under this agreement on a monthly basis. Each report will include data from either two (2) or three (3) complete pay periods, from the end date of the preceding report through the last full pay period of the month in which the report is produced. The AGO will provide each report to the Department no later than six (6) weeks after the end of the period covered by the report.

6. The hourly billing rate used by the AGO and the total hours billed, along with supporting documentation and records, shall be subject to audit by the Department and the Legislative Auditor.

7. Costs and expenses, including, but not limited to, the cost of filing legal documents, hiring expert witnesses, mediators and court reporters, messenger services, and all travel expenses will be paid directly by the Department and not come from the funds identified to be paid by the AGO in this agreement.

8. This agreement supersedes any and all prior agreements of the parties relating to the provision of legal services. Any further amendments to this agreement shall be in writing and shall be executed as an amendment.

9. The authorized agent of the AGO for purposes of this agreement is Rebecca Spartz. The Department's authorized agent for purposes of this agreement is Pam Tschida.

10. The parties acknowledge that the amount set forth in paragraph I is simply a good faith estimate of the level of services needed, which estimate may be high or low. However, the parties also acknowledge that each will make decisions and resource allocations based on the estimate. Accordingly, the parties agree that the amount set forth in paragraph 1 shall be paid or transferred to the AGO in full and with no adjustments, regardless of whether the actual cost of services, provided is higher or lower that the estimate. Notwithstanding the foregoing, if there is a substantial change in the circumstances that were the bases for the parties' mutual estimate, e.g., the unexpected initiation or conclusion of a major lawsuit, the parties will then revise this agreement if necessary to reflect that change in circumstances.

1. Special Revenue Fund Expenditures

March, 2011

Request:

Expenditure break-down by each division or section of the agency

Response:

All Special Revenue (200) fund expenditures by program, budget activity, and object class for fiscal years 2010-2013. Note that object class codes beginning with "1" include both salary and fringe benefits (retirement, insurance, FICA, etc.). This fund primarily represents damage restitution and partnerships with counties, cities, and other various entities, including components of commuter and light rail funding arrangements.

Assumptions:

Base budget and Governor's Recommendation for FY2012-2013

FTE data is included in section 9

Data Source:

- BBS Multi-query report

For More Information Contact:
Warren Skallman
Mn/DOT Budget Director

1. Fee-Dedicated Accounts

March, 2011

Request:

Amounts collected by fee

Where the fees are distributed (to which funds)

What the fee revenue is used for

The nature of state or federal requirements, if any, attached to each fee

Response:

All fee-dedicated and non-dedicated accounts by program and budget activity. Legal Citations will provide state requirements; there are no federal funding requirements.

A brief purpose of the fee, and disposition or use of the fee proceeds is given by revenue code. Also included is a copy of the Departmental Earnings report.

Non-dedicated collections are deposited to the fund, and have no specific or designated purpose other than to provide revenues to the fund.

Assumptions:

Base budget and Governor's Recommendation for FY2012-2013

Department Earnings and Fees are defined as Revenue Source codes 3000-7999

Data Source:

- BBS Department-Earnings and Fee Report

For More Information Contact:
Warren Skallman
Mn/DOT Budget Director

Background Information
Permits for placement of advertising devices along state highways. This revenue code results in a positive adjustment to the Trunk Highway fund balance.

Basis of Estimate
Revenues are expected to remain fairly constant each year of the biennium.

Recent Changes
None.

Agency Analysis/Requested Changes
No change is recommended in the current fee structure.

TRANSPORTATION DEPT

AIR TRANSP REVOLVING ACCT.

Fiscal Report

Revenue Category Description: Air Transportation Revolving Account

Purpose: To provide air transportation for state officials traveling on government business. The fares for the flights are used to maintain the airplanes and correlating expenses.

Legal Citation(s): M.S. 360.024

Requesting a Fee Change: No

Fund: STATE AIRPORTS

Appr Name: AIR TRANSPORT SERVIC

Background Information

The aircraft available in this activity are used for transporting government officials and their staff. This will increase the efficiency of state government by reducing the time necessary for travel involved in governmental duties. Using centrally located air transportation services increases the ability of state government to respond more productively and immediately to constituent needs in Greater Minnesota. The air transportation service is operated as a revolving account. Rates for use of the aircraft are set so that the costs of operating the aircraft, maintenance of the aircraft, and recovery of acquisition costs are covered by the account. Rates are periodically reviewed and adjusted so that the fund maintains a positive balance.

Basis of Estimate

This activity operates from a revolving fund, and would expect little change from year to year. Continued department emphasis on electronic communication channels such as electronic conferencing has decreased ridership, but it is predicted that in the next biennium the planes should be back to full passenger capacity.

Recent Changes

None.

Agency Analysis/Requested Changes

No change is recommended in the current fee structure.

AIRP, COMM, OPER&AIRCRAFT D LI

Fiscal Report

Revenue Category Description: Licenses for airports, aviation dealers, and persons engaged in commercial operations at airports.

Purpose: To promote safety in aeronautics, Mn/DOT will license any person engaged in commercial operations in or at an approved airport, such as an aircraft dealer, or persons involved in air instruction. The agency also issues licenses for airports, restricted landing sites, and other air navigation facilities.

Legal Citation(s): MS 360.015, MS360.63, MS360.018

Accumulated Ending Balance	**(20)**	**(37)**	**(57)**	**(77)**	**(77)**	**(97)**	**(97)**

Background Information

The aeronautics program promotes aviation and air safety by inspecting and licensing public, private, and personal-use airports, helipads, seaplane bases, and restricted landing areas. Mn/DOT also will license any person engaged in commercial operations at an approved air site in accordance with rules set by state statutes and/or the agency. Aircraft registration also helps offset the cost of maintaining this aspect of the aeronautics program.

Basis of Estimate

The number of aeronautics licenses remains fairly stable from year to year.

Recent Changes

None.

Agency Analysis/Request Changes

No change is recommended in the current fee structure.

DOT: MISCELLANEOUS

Fiscal Report

Revenue Category Description: Miscellaneous Income

Purpose: Miscellaneous revenue includes rent collection on use of highway right of way, revenues from agreements with local governments for highway construction and maintenance, sale of sand, gravel, and salt at cost to other governmental units, sign fabrication cost recovery, striper operation and replacement expense recovery.

Accumulated Ending Balance	**2,684**	**4,374**	**4,465**	**4,560**	**4,560**	**4,655**	**4,655**

Background Information

Mn/DOT Leases, External:
Mn/DOT will continue to utilize available resources (vacant land and buildings) in a fiscally prudent manner until needed for construction purposes. Many leases are long-term such as parking for churches, or hay cutting along state roads. Also some lease collections are for inter-governmental co-operation property utilization. These earnings are collected as miscellaneous income and are not identified with specific operating expenditures in the department. Vacant rail right-of-way is also leased to interested parties until needed by Mn/DOT.

Mn/DOT Agreements with Local Governments:
To continue providing Mn/DOT expertise to local units of government for project engineering and finalization. Agreements are billed on an actual time used basis.

Sale of Gravel, Sand, and Salt: The agency sells gravel, sand, and salt to local units of government where locations are convenient, supplies are adequate, and at a cost basis. Activity is expected to remain constant at current levels.

Pavement Striping Revenue Account: After extensive analysis it was determined to be more cost effective to the state to own a striper than to keep leasing one whenever that procedure was needed for roadway purposes. By contracting some time and materials out to other agencies, the agency hopes to recover more than the expenses of owning a striping machine, thereby creating a fund for future striper purchases and/or major maintenance procedures.

Sign Fabrication Cost Recovery: The state sign shop creates signs for Mn/DOT districts as well as local units of government. By placing the revenues and corresponding expenses into an expense recovery account, the sign operations will act as a business within Mn/DOT.

Rail Safety Inspect Assessment:
Inspect rail tracks, rail right-of-way and crossings, review maintenance and repair records and review railroad security measures. Then assess rail safety inspector program costs to all railroad companies doing business in Minnesota.

Basis of Estimate

Road maintenance services regarding the above activities are not scheduled to change in the near future.

Recent Changes

None.

Agency Analysis/Requested Changes

No change is recommended in the current fee structure.

TRANSPORTATION DEPT

HIGHWAY TOLL REVENUE

Fiscal Report

Revenue Category Description: Fees and Rental of Transponders for Highway Congestion Pricing

Purpose: Fees collected from single passenger vehicles in the fast lane and rental of transponders to highway commuters to create a base for charging drivers for peak to slack driving hours on a sliding scale. Revenue is used to pay for and maintain the current Mn/PASS system.

Legal Citation(s): MS 031 019 02 007 002

Accumulated Ending Balance	**424**	**712**	**662**	**337**	**337**	**12**	**12**

Background Information

Mn/DOT has investigated several methods to reduce congestion on primarily metro highways during peak traffic flows. One possible solution is to charge a fee for travel on the most populous routes, based on a sliding per mile schedule according to traffic counts and road capacities. Also, to encourage multi-passenger commutes, a fee can be charged for single occupancy vehicles to enter the faster pay-as-you go lane.

Basis of Estimate

Revenues and expenditures have remained quite stable since initiation. The forecast is for a slight growth in both use and expense of the transponders as the public gains acceptance of this method of congestion mitigation. Several congested commuter routes have been considered for expansion of this program, therefore, if they are incorporated into the traffic congestion mitigation plan, the toll revenues will increase, but the expenses will likely rise as well.

Recent Changes

None.

Agency Analysis/Requested Changes

It could take more time for the general public to accept paying for a faster commute in peak travel times. If the state gains drivers, more people probably will be willing to accept an additional cost for the benefit of faster travel.

TRANSPORTATION DEPT

MOTOR CARRIER PERMITS & FEES

Fiscal Report

Revenue Category Description: Motor Carrier Permits and Fees

Purpose: Motor carrier permits and fees ensure compliance with state laws, rules, and regulations governing motor carrier operations, so that transportation of persons and property on Minnesota's public highways is safe and meets the needs of carriers, shippers, passengers, and the traveling public.

Legal Citation(s): MS 221.0355, Subd 4

Accumulated Ending Balance	**(544)**	**(2,786)**	**(2,768)**	**(2,750)**	**(2,750)**	**(2,732)**	**(2,732)**

Background Information

Since January 1995, all intrastate for-hire property carriers were made exempt from cab card fees. They are required to register, but at no cost to them. This results in a loss of income to our program. With less emphasis placed on economic regulation there is a transition to more safety training and regulation in the motor carrier program. The negative cash flow is considered an acceptable cost to the entire traveling public.

Basis of Estimate

This activity should remain relatively stable as long as other economic factors in the state maintain consistent motor carrier involvement.

Recent Changes

None.

Agency Analysis/Requested Changes

No change is recommended in the current fee structure.

TRANSPORTATION DEPT

MOTOR VEH MISCELLANEOUS FEE

Fiscal Report

Revenue Category Description: Sales Tax

Purpose: Fee on vehicles rented for less than 28 days. If the fee is greater than the motor vehicle registration tax, the excess is deposited in the Highway User Tax Distribution Fund.

Requesting a Fee Change: No

Fund: HIGHWAY USERS TAX DISTRIBUTION

Accumulated Ending Balance	**0**	**4,247**	**7,657**	**11,067**	**11,067**	**14,477**	**14,477**

Background Information

In lieu of motor vehicle registration tax, vehicles rented for less than 28 days have a fee of five percent of the sales price imposed on the vehicle. If the vehicle has paid registration tax, the excess of this fee over the tax is deposited into the Highway User Tax Distribution Fund.

Basis of Estimate

The Department of Revenue makes an estimate of the amount fees that will be collected. The fee is collected along with the payment of sales tax on the vehicle, and the excess fee will be collected by the Department of Revenue, and transferred to the Highway User Tax Distribution fund.

Recent Changes

This is a new fee initiated in FY2009, and no changes have been made since then.

Agency Analysis/Requested Changes

No changes are requested to this fee.

TRANSPORTATION DEPT

RENTAL INCOME

Fiscal Report

Revenue Category Description: Radio Tower Space Leases

Purpose: Space leased on DOT Metro Public Radio 800 Mgz Safety System as available at very little cost to the state. The revenues derived are used to reduce the overall cost of operating the electronic communications system.

Legal Citation(s): 08 306 001 002 02a

Requesting a Fee Change: No

Fund: TRUNK HIGHWAY

Appr Name: TOWER LEASES

The beginning and ending accumulated balances do not necessarily represent amounts in an account balance, but are shown to illustrate a five-year trend of cost recovery.

Revenue Category Summary (Dollars in Thousands)	Actual FY 2009	Actual FY 2010	Budgeted FY 2011	FY 2012 Current Law	FY 2012 Governor Recomm.	FY 2013 Current Law	FY 2013 Governor Recomm.

Background Information
The positive difference of income over expenditures for this permit revenue source continues to accumulate as planned compensation for damage to highways caused by overweight vehicles.

Basis of Estimate
Stable usage for exceptional vehicle access.

Recent Changes
None.

Agency Analysis/Requested Changes
No change is recommended in the current rate structure.

March, 2011

1. Federal Fund Revenues

Request:

List of all federal funds by program area (question #1), and any future planned federal funds (question #5).

Response:

Copy of Federal Funds Summary from BBS. This includes federal grants deposited directly to the Trunk Highway Fund and to both state aid funds.

Assumptions:

The Federal Funds Summary includes revenues as projected in the February forecast. It does not include funding changes that are part of the Governor's Recommended budget.

Data Source:

- BBS Federal Funds Summary

Federal Fund Expenditures

Request:

Question 1) Expenditure break-down by each division or section of the agency.

Response:

All Federal Funds (300 and 309 ARRA) fund expenditures by program, budget activity, and object class for fiscal years 2010-2013. Note that object class codes beginning with "1" include both salary and fringe benefits (retirement, insurance, FICA, etc.).

Assumptions:

Base budget and Governor's Recommendation for FY2012-2013

FTE data is included in Section 9

10. Reports

March, 2011

Request:

10. Please provide the number and cost of mandated studies and reports since FY 2002, broken down by federal and state mandated reports.

Response:

Since July 1, 2010, there have been 19 legislatively mandated reports submitted to the legislature at an approximate cost of $275,000. A list showing those reports is attached.

A list of reports from previous fiscal years, which was compiled by the Legislative Reference Library, is also attached. Please note that the list may not be complete. It is also important to note that costs are not identified for every report. In some cases, the amount of resources necessary to complete a report is negligible. In other cases, the department would have undertaken a reporting process even without a legislative mandate (for example: the recent development of a debt-management policy). Also, some of the large reports (such as the Statewide Policy Plan, Comprehensive Rail Plan, and Annual Transit Plan) are missing costs. The costs of federally mandated reports are not tracked.

Data Source:

Erik Rudeen, Mn/DOT Office of Government Affairs; and Legislative Reference Library

Reports and Studies Mn/DOT Must Complete

The following statutes apply to reports to the Legislature: Minnesota Statutes, sections 3.195, 3.197, 3.302, and 16B.122. These statutes prescribe the content, printing, and distribution of legislatively required studies and reports.

ON-GOING REPORTING REQUIREMENTS

No.	Report or Study	Required By	Due Date	Report Recipient	Description
1.	Trunk Highway Emergency Relief Account	MS 161.04, Subd. 5c (Laws 2010, Chapter 215, Article 10, Section 5)	September 1, 2012 and every subsequent even-numbered year by September 1	Chairs and Ranking Minority Members of Transportation Policy and Finance Committees	**Description:** Balance of the account, as well as details of payments made from and deposits made to the trunk highway emergency relief account since the last report.
2.	Spending and Environmental Compliance Costs	MS 161.08, Subd. 2	October 15 of odd-numbered years	Legislature	**Description:** Total expenditures on construction, planning, PT contracts, design and engineering, labor, environmental compliance, right-of-way, litigation, maintenance, and operations.
3.	Privatization Transportation Contracts	MS 161.3203, Subd. 4	September 1 of each year	Transportation Committees	**Description:** All privatization transportation contracts in the previous year, including the contractor; contract amount; duration; work, provided or to be provided; comprehensive estimates; actual cost to the agency of the contractor's performance of the contract; and statements of finding.
4.	Professional-Technical Contracts 16C.08 report has been MODIFIED—see Laws 2010, Chapter 302 (threshold changed from $50,000 to	MS 161.3205, Subd. 6	September 1 of each year	Governor, House Ways and Means Cmte, Senate State Government Finance Cmte, Legislative Reference	**Description:** Yearly listing of all contracts for professional or technical services executed. The report must identify the contractor, contract amount, duration, services to be provided, and summary of the contract review activities of the department. **Status:** This report has never been submitted because Admin submits a report under Minn. Stat. 16C.08, subd. 4, that includes all of Mn/DOT's professional-technical contracts. Mn/DOT does no professional-technical

	$25,000)			Library	contracts except through Admin, and since Mn/DOT never uses the authority under 161.3205, it has never produced a corresponding report.
5.	Design-Build Annual List	MS 161.3428	September 1 of each year	Governor, Chairs of Ways & Means, Senate Finance, Transportation Policy & Finance, Legislative Reference Library	**Description:** Yearly listing of all design-build contracts, including contractor, contract amount, duration and services to be provided.
6.	American Recovery and Reinvestment Act	MS 161.36, Subd. 7	Within 2 weeks of submitting reports to USDOT	Chairs and Ranking Members of Transportation Committees	**Description:** Copy of USDOT report, plus geographic and modal distribution.
7.	Bridge Inspections	MS 165.03, Subd. 8 (Laws 2010, Chapter 350, Section 2)	February 1 of each odd-numbered year	All Members of Transportation Policy and Finance Committees	**Description:** (1) Summarize bridge inspection quality assurance and quality control procedures; (2) identify substantive changes to quality assurance and quality control procedures; (3) summarize findings from bridge inspection quality reviews; (4) identify actions taken and planned in response to findings from bridge inspection quality reviews; (5) summarize the results of any bridge inspection compliance review by FHWA; and (6) identify actions in response to FHWA compliance review taken by the department in order to reach full compliance.
8.	Bridge Planning UPDATED to include compliance with ADA requirements—see Laws 2010, Chapter	MS 165.14, Subd. 5	In conjunction with update to Statewide Transportation Plan	Transportation Finance Committees	(1) explanation of the criteria and decision-making processes used to prioritize bridge projects; (2) historical and projected analysis of the extent to which all trunk highway bridges meet bridge performance targets and comply with the accessibility requirements of the Americans with Disabilities Act; (3) summary of bridge projects (i) completed in the previous six years or since

	351, Section 14				the last update to the Minnesota statewide transportation plan, and (ii) currently in progress under the program; (4) summary of bridge projects scheduled in the next four fiscal years and included in the state transportation improvement program; (5) projection of annual needs over the next 20 years; (6) calculation of funding necessary to meet the completion date, compared to the total amount of bridge-related funding available; and (7) for any tier 1 fracture-critical bridge that is repaired but not replaced, an explanation of the reasons for repair instead of replacement.
9.	Bridge Program Annual Report	MS 165.14, Subd. 6	Annually by January 15	Transportation Finance Committees	**Description:** Inventory information, analysis, recommendations for changes.
10.	Stillwater Bridge Endowment Account	MS 165.15, Subd. 8	Annually (unspecified)	Transportation Committee Chairs and Ranking Minority Members	**Description:** Detailed revenue and expenditure information on the account.
11.	Debt-Financing Management Policy	MS 167.60 (Laws 2010, Chapter 350, Section 3)	By July 1, 2010 and upon formal revisions the policy	All Members of Transportation Finance Committees	**Description:** Debt-financing management policy for trunk highway bonds, federal advanced construction funds, and other forms of highway financing based on debt or future repayment.
12.	Statewide Multimodal Transportation Plan	MS 174.03, Subd. 1, 1a, 1b	January 15, 2013, and every 4 years thereafter	Unspecified	**Description:** (1) incorporate the goals of the state transportation system in MS 174.01; (2) establish objectives, policies, and strategies for achieving those goals; and (3) identify performance targets for measuring progress and achievement of transportation system goals, objectives, or policies.
13.	Highway 20-Year Capital Investment Plan	MS 174.03, Subd. 1c (Laws 2010, Chapter 350, Section 7)	January 15, 2013, and in conjunction with every update to	Unspecified	**Description:** (1) performance measures and targets; (2) trends and impacts for each performance target over the past five years; (3) amount and impact of capital investments and priorities over the past five years on each performance

			Statewide Multimodal Transportation Plan		target, including a comparison of prior plan projected costs with actual costs; (4) investments required to meet the established performance targets over the next 20-year period; (5) available state and federal funding over the 20-year period; (6) strategies to ensure the most efficient use of existing transportation infrastructure, and to maximize the performance benefits of projected available funding; (7) investment priorities for projected funding, including a schedule of major projects or improvement programs for the 20-year period together with projected costs and impact on performance targets; and (8) performance targets identified under clause (1) not expected to meet the target outcome over the 20-year period together with alternative strategies that could be implemented to meet the targets.
14.	Highway Construction Training	MS 174.03, Subd. 10	February 1 of each odd-numbered year	Transportation Policy and Finance Committees	**Description:** Utilize the maximum feasible amount of all federal funds available to this state under federal law, to develop, conduct, and administer highway construction training, including skill improvement programs, including a description of the highway construction training and skill improvement programs, results of training programs, amount of federal funds available, and amount spent by in conducting and administering the programs.
15.	Disadvantaged Business Enterprise Program	MS 174.03, Subd. 11	February 1 of each odd-numbered year	Transportation Policy and Finance Committees	**Description:** The report must describe the department's annual overall goal, compared with the percentage attained; explain the methodology, applicable facts, and public participation used to establish the overall goal; describe good faith efforts to meet the goal, if the goal was not attained; describe actions to address over-concentration of disadvantaged business enterprises in certain types of work; state the number of contracts that included disadvantaged business enterprise goals, the number of contractors that met established disadvantaged business enterprise goals, and sanctions imposed for lack of good faith effort; and describe contracts with no

					disadvantaged business enterprise goals, and, of those, state number of contracts and amount of each contract with targeted groups under section 16C.16.
16.	Pavement Life-Cycle	MS 174.185, Subd. 3	January 1, 2012 and annually thereafter	Transportation Finance Committees	**Description:** For each project in the reconditioning, resurfacing, and road repair funding categories, the commissioner shall perform a life-cycle cost analysis and shall document the lowest life-cycle costs and all alternatives considered. The commissioner shall document the chosen pavement strategy and, if the lowest life cycle is not selected, document the justification for the chosen strategy.
17.	Transit Report UPDATED—see Laws 2010, Chapter 351, Section 50	MS 174.247	Annually by February 15	Legislature	**Description:** Transit services outside the metropolitan area. The report must include, at a minimum, an overview of public transit, a summary of funding sources and assistance programs, a summary of each public transit system receiving assistance, data that identifies use of volunteers in providing transit service, financial data that identifies operating and capital costs, and funding sources, for each public transit system, and, in each odd-numbered year, a calculation of the amounts of surplus or insufficient funds available for paying the state share of transit operating costs, and paying capital and operating costs to fully implement the transit service needs implementation plan.
18.	Council on Transportation Access	MS 174.285, Subd. 5 (Laws 2010, Chapter 351, Section 51)	January 15, 2012, and every January 15 thereafter	Governor and Chairs and Ranking Minority Members of Transportation, Health and Human Services Committees	**Description:** Findings, recommendations and activities of the council.
19.	Special Transportation	MS 174.30, Subd. 9	By January 15 of every odd-	Transportation Policy and	**Description:** Identify each complaint investigated by the commissioner including, but not limited to, any findings

	Service Provider Complaints		numbered year	Finance Committees	and steps taken for resolution of the complaint.
20.	Major Highway Projects	MS 174.56, Subds. 1-3	Annually on January 15	Not specified	**Description:** Status of major highway projects under construction or planned during the year of the report and for the ensuing 15 years, including description of the project sufficient to specify its scope and location; a history of the project, including, but not limited to, previous official actions by the department or the appropriate area transportation partnership, or both, the date on which the project was first included in the state transportation improvement plan, the cost of the project at that time, the dates of environmental approval, the dates of municipal approval, the date of final geometric layout, and the date of establishment of any construction limits; the project's priority listing or rank within its construction district, if any, as well as the reasons for that listing or rank, the criteria used in prioritization or rank, any changes in that prioritization or rank since the project was first included in a department work plan, and the reasons for those changes; and past and potential future reasons for delay in letting or completing the project.
21.	Complete Streets I	MS 174.75, Subd. 3 (Laws 2010, Chapter 351, Section 52)	As part of biennial budget submission	Unspecified	**Description:** Implementation of the complete streets policy.
22.	Rail and Bus Transit Projects	MS 174.93, Subd. 2, (Laws 2010, Chapter 350, Section 8)	November 15 of every odd-numbered year	Chairs and Ranking Minority Members of Transportation Policy and Finance Committees	**Description:** Status of guideway projects (1) currently in study, planning, development, or construction; (2) identified in the transportation policy plan; or (3) identified in the comprehensive statewide freight and passenger rail plan.
23.	DWI Repeat Offender Penalty	Laws 2001 1st Sp. Sn.,	Annually	Chairs and ranking	**Description:** Expenditure of any federal funds available under the repeat offender transfer program, Public Law

		Chapter 8, Article 4, Section 10, Subd. 1		members of Transportation and Public Safety Finance Committees	Number 105-206, section 164.
24.	Urban Partnership Agreement MODIFIED—Holberg language	Laws 2008, Chapter 306, Section 6	01/15/09 Annually thereafter through 2014	Transportation Committees	**Description:** The status of the state's participation in the urban partnership agreement. The report must: (1) present the elements of congestion reduction strategies to be implemented under the urban partnership agreement; (2) summarize average daily traffic and congestion levels on affected roadways including parallel trunk highways, and how those levels have changed since the last report; (3) summarize transit usage in affected corridors; (4) identify the costs of participation and the sources of funding secured or to be secured; (5) include information on revenues and expenditures under the urban partnership agreement; (6) summarize any user fees collected on I-35W high-occupancy vehicle and dynamic shoulder lanes by hour, and how those revenues have changed since the last report; (7) recommend any further legislative action necessary for the successful implementation and operation of the urban partnership agreement; and (8) identify the location of double white pavement marking lines within the I-35W corridor, and describe the justification for the location of those lines within the corridor.
25.	Local Design-Build	Laws 2009, Chapter 36, Article 3, Section 28	Annually by January 15	Chairs and Ranking Members of Transportation Committees	**Description:** Selection process, number of applications considered, proposal process, contracting process, and project costs. The report must evaluate the process and results applying the performance-based measures with which the commissioner evaluates trunk highway design-build projects. The report must include any recommendations for future legislation.
26.	Complete Streets II	Laws 2010, Chapter 351,	January 15, 2011, 2012	Chairs and Ranking	**Description:** 2011 report—Summarize the department's complete streets initiatives, summarize steps taken to

		Section 72	and 2014	Minority Members of Transportation Policy and Finance Committees	expedite and improve the transparency of the state-aid variance process related to complete streets, outline plans to develop and implement a complete streets policy, and identify any statutory barriers to complete streets implementation. (Different requirements for 2011 and 2014 reports.)

ONE-TIME REPORTING REQUIREMENTS

No.	Report or Study	Required By	Due Date	Report Recipient	Description
1.	Local Road and Bridge Grant Agreements	Laws 2010, Chapter 189, Section 15, Subd. 2	November 1, 2010	Chairs and Ranking Minority Members of Transportation & Capital Investment Committees	**Description:** Grant administration method being implemented for local roads and bridges, a copy of any model grant agreement, and recommendations, if any, for legislative changes.
2.	Utility Routing	Laws 2010, Chapter 288, Section 4	January 15, 2011	Chairs and Ranking Minority Members of Energy & Transportation Policy Committees	**Description:** Statutory amendments required for the implementation of locating a route for a high-voltage transmission line on an existing high-voltage transmission route and the use of parallel existing highway right-of-way.
3.	Mn/DOT Organization, Processes and Procedures (mostly bridge issues)	Laws 2010, Chapter 350, Section 9	February 1, 2011	All Members of Transportation Policy and Finance Committees	**Description:** Recent changes in organizational structure, internal procedures and practices, and anticipated budget, including, but not limited to: (1) summary and review of organizational structure for bridge management, maintenance, and inspections, including a brief explanation of any relevant structural or organizational changes made since August 1, 2007; (2) analysis of the division of bridge-related duties and decision-making

No.	Report or Study	Required By	Due Date	Report Recipient	Description
					responsibilities between districts and central administration; (3) summary of current agency procedures and processes, and any changes made since August 1, 2007, related to: (i) initiation of bridge re-rating and use of bridge inspection findings in the re-rating process; (ii) implementation of agency-wide standards for documenting bridge inspection findings and decision making for post-inspection bridge maintenance; and (iii) other changes designed to ensure or enhance the safety of Minnesota's transportation infrastructure; and (4) budget analysis of anticipated funding and funding allocations for pavement preservation and highway maintenance, safety projects, mobility enhancement projects, and highway and bridge construction, for fiscal years 2012 through 2018, including any anticipated budgetary challenges or risks.
4.	DBE and Workforce Collaborative	Laws 2010, Chapter 351, Section 41 (MS 174.186, Subd. 2)	February 11, 2011	Chairs and Ranking Minority Members of Transportation Finance and Policy Committees	**Description:** Findings and legislative recommendations, including draft legislation.
5.	TIFIA Pilot Program	Laws 2010, Chapter 351, Section 69	Upon completion of the pilot project	Chairs and Ranking Minority Members of Transportation Finance and Policy Committees	**Description:** Describe the transportation project undertaken and each financing mechanism utilized; analyze the effectiveness of each financing mechanism; evaluate the costs, risks, and benefits of additional participation in federal financial assistance programs; and provide any recommendations for related legislative changes.

No.	Report or Study	Required By	Due Date	Report Recipient	Description
6.	Stillwater Bridge Value-Capture/PPPs	Laws 2010, Chapter 351, Section 71	January 15, 2011	Chairs and Ranking Minority Members of Transportation Finance and Policy Committees	**Description:** Feasibility of utilizing any potential value-capture options or potential public-private partnerships, which may include charging tolls, for construction of a new bridge over the St. Croix River at or near Stillwater.
7.	Mileage-Based User Fees	Laws 2007, Chapter 143, Article 1, Section 3, Subd. 3 (a) 1	Unspecified	Unspecified	**Description:** A pilot project to demonstrate technologies that will allow for the future replacement of the gas tax with a fuel-neutral mileage charge.
8.	Daytime Running Lights	Laws 2009, Chapter 168, Section 13	January 15, 2011	Chairs and Ranking Minority Members of Transportation Policy Committees	**Description:** Mandatory 24-hour use of vehicle lighting by vehicles on public highways, and the experience of jurisdictions in the US, Canada, and the European Union, that require 24-hour display of vehicle lighting, including but not limited to: environmental consequences; crash prevention; motorcycle, bicycle, and pedestrian safety; cost to drivers; and application to motorcycles.

11. Budget Documents

March, 2011

Request:

11. All documents and proposals considered by the agency as part of the biennial budget process will become public on February 15, 2011. Please preserve all documents used to prepare the budget and provide the documents by February 23, 2011.

Response:

As referenced in the attached letter from MMB Commissioner Schowalter to Speaker Zellers and in accordance with Minn. Stat. 13.605, these data are classified as nonpublic.

For More Information Contact:
Warren Skallman
Mn/DOT Budget Director
651-366-3161
warren.skallman@state.mn.us

MINNESOTA Management & Budget

February 14, 2011

Speaker Kurt Zellers
Minnesota House of Representatives
463 State Office Building
St. Paul, MN 55155

Dear Speaker Zellers:

This correspondence is being sent in response to inquiries sent to several state agencies from House Fiscal Chairs requesting various budget information and documents. On behalf of the administration and all the agencies in receipt of those requests, please accept this response.

The majority of the information requested is currently and immediately available to the members of the legislature and can be generated through the Biennial Budget System (BBS) and the Minnesota Accounting and Procurement System (MAPS) in conjunction with your House fiscal staff. Specifically, BBS has a reporting function that would allow fiscal analysts to generate reports from all funding sources on the following information for each agency:

1. Amount of funds by program and budget activity
2. Fund transfers
3. Legal citations
4. FTE counts for state employees
5. Detailed budgets and expenditures including categories such as salaries, equipment, travel (in and out of state), communications, overtime and others

This information is currently available in the base budget information in BBS. In addition, the February 15th budget release will contain additional information on federal funds, including awards agencies currently anticipate applying for. As always, budget services staff are available to assist fiscal analysts in running the necessary reports to access this information from the system.

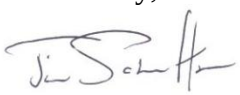
Detailed information on the purpose of funds, indirect costs, charge-backs to other agencies, purpose of carry-forward funds, organizational structure as indicated in the requests, rulemaking activities, use of state owned vehicles and pending lawsuits are available from each of the agencies and often available to the public online.

The letters also requested preliminary drafts of budget work. This data is classified as nonpublic and recent administrations of all political parties have followed the practice of retaining working papers. We should all recognize the importance and practical nature of allowing staff and agencies to have a free exchange of ideas and discuss various options as they work on a proposed budget.

The governor has instructed the commissioners and agencies to work with chairs and all members of the legislature during the legislative session as the legislature produces a budget proposal. We understand the need of the Legislature to get feedback on ideas and remain committed to identifying constructive ways to support that process. In the meantime, agency budget staffs will continue to work on their statutory obligations to submit the governor's budget on February 15th. We recognize the inconvenience and thank you for your understanding.

On behalf of the administration, we look forward to working with you and committee chairs on the state's biennial budget.

Sincerely,



James Schowalter
Commissioner

cc: Senate Majority Leader Amy Koch
Chair Mary Liz Holberg, House Ways and Means Committee
House Fiscal Chairs

4. Rulemaking

March, 2011

Request:

4. Please indicate if the agency is engaged or planning any rulemaking activities.

Response:

Mn/DOT is only engaged in one rulemaking activity at this time. The agency, in partnership with local governments, is updating rules pertaining to state aid for local transportation (Minn. Rules Chapter 8820). The draft rules and draft justification memo have been prepared. The next step will be meeting with the statutory rules advisory committees. (See Minn. Stat. 162.02 and 162.09 for additional information.)

No other rulemakings are planned at this time. However, future rulemakings may include an amendment to aeronautics rules, Minn. Rules 8800.2800, subpart 2(A), regarding seven-county metropolitan region seaplane operations, to update the rules so they are consistent with Department of Natural Resources wildlife management rules.

In addition, Minn. Rules 8810.9000-8810.9800, regarding bridge inspection standards, may be updated to reflect current national bridge inspection standards. The bridge office is currently reviewing those rules.

Data Source:

Laura Nehl-Trueman, Mn/DOT Rules Coordinator, Office of the Chief Counsel

warren.skallman@state.mn.us

6. General Fund Reduction Scenarios

March, 2011

Request:

6) The amount of funding available by this Committee is limited and denial of some aspects of a given budget request is inevitable. Please describe how your agency would address a general fund base budget reduction of 15% and 20% respectively. You are expected to examine your proposals, as well as your existing operations, areas where reduction in expenditures can be made and the amount of those reductions. This should be outlined in writing, with sufficient explanation as to how these reductions will be accomplished.

Response:

5%, 10%, and 15% scenarios have already been provided to committee staff. The department has not prepared a 20% reduction scenario.

For More Information Contact:
Warren Skallman
Mn/DOT Budget Director
651-366-3161
warren.skallman@state.mn.us

8. Mobile Equipment

March, 2011

Request:

8. Please detail the agency's use of state-owned vehicles, and equipment including snowplows and aircraft, and provide the Committee with a description of how the vehicles and equipment are utilized by the agency and the assignment of vehicles, if any are utilized by the agency. In addition, please submit five-year information including the number of vehicles utilized by each department or section of the agency and the assignment of vehicles to employees.

Response:

Mn/DOT has a large mobile equipment fleet, due to the nature of its business. The fleet is used for the following activities:

Clear Roads: clearing roadways of snow and ice and debris.

Smooth Roads: paving, drainage repair, shoulder repair and surface repair to ensure a smooth ride.

Roadsides: brush and tree removal for improved visibility and safety, mowing, spraying for noxious weed control (legally mandated), litter pickup (Adopt a Highway) and planting vegetation.

Bridges: inspecting, maintaining and repairing bridges to keep structures safe and in service.

Rest Area Management: providing general maintenance, building operations, janitorial services and property

Traffic Management: signing and lighting of roadways, striping and message painting, installing and repairing guardrails, operating and repairing traffic signals and devices, and traveler information via updates on radio, changeable message signs, internet and telephones.

In addition, Mn/DOT owns 4 airplanes. Two of the aircraft provide air travel for Mn/DOT and other state employees, the Legislature, and constitutional officers when conducting official business. The other two are used primarily as utility aircraft to carry Mn/DOT Aeronautics personnel and equipment to various airports around the state, often to provide training or inspections.

For More Information Contact:
Warren Skallman
Mn/DOT Budget Director
651-366-3161
warren.skallman@state.mn.us

We have provided summaries of the current mobile fleet and the last four years as of June 30th,and detailed listings at each of those periods. In all cases we have sorted by class of equipment; if you prefer it sorted a different way, we can provide that very quickly.

We have also provided listings of Mn/DOT's assigned vehicles and take-home vehicles currently and as of the last three years by organization. Most of Mn/DOT's vehicles are assigned as needed, but there is a group of vehicles assigned to specific people, and a smaller group assigned to people who take them home at night. There are policies for each group, which are attached. Employees can become part of the take-home group only if they are expected to respond to work-related emergencies after hours, or are temporarily assigned to a work location other than a normal permanent location. A greater number are assigned vehicles, but only when a vehicle is equipped with needed specialized equipment, or there is a minimum business usage of 150 days per year. These are typically used by supervisors or inspectors constantly moving from job to job, employees with district-wide responsibilities, or employees who need to move back and forth within a construction site. Though assigned, vehicles are shared when appropriate.

Assumptions:

We assumed:

- All Mn/DOT owned mobile equipment would be captured.
- Only quantities of assets were required.

Data Source:

Mn/DOT's mobile equipment database, M5 was used. All information was pulled as of the current date of February 28, 2011. A listing of all sales and receipt dates was also provided, and with that, we manually backed into 5 years of data.
