

TRANSPORTATION LEADERS AGAINST HUMAN TRAFFICKING

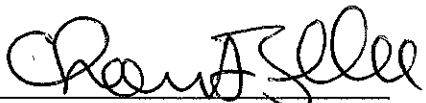

Our Pledge

Our commitment is simple -- to work together to end human trafficking.

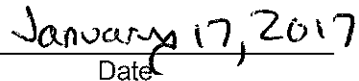

As a key step in this effort, the Minnesota Department of Transportation joins with partners across the transportation industry in a shared resolve to:

- Demonstrate industry leadership by issuing a leader statement on the Minnesota Department of Transportation's commitment to take a stand against human trafficking
- Educate employees on how to recognize and report signs of human trafficking
- Raise awareness among the traveling public on human trafficking issues by utilizing common messaging in targeted outreach campaigns
- Measure our collective impact on human trafficking by tracking and sharing key data points

By uniting our efforts across the transportation sector, we will see greater progress in reaching our ultimate goal of eliminating human trafficking.

Commissioner Charles A. Zelle
Minnesota Department of Transportation
