

# Table of Contents

Executive Summary .....	ES-1
1.0 Background.....	ES-1
2.0 Key Findings.....	ES-3
3.0 Key Recommendations .....	ES-3
4.0 Study Corridors.....	ES-3
5.0 Objectives and Methodology .....	ES-5
6.0 Violation Rates .....	ES-6
7.0 Modeling Results .....	ES-6
8.0 Market Research.....	ES-9
9.0 Benefit/Cost Analysis .....	ES-10
10.0 Secondary Research.....	ES-13
11.0 Conclusions and Recommendations .....	ES-14
1.0 Project Background .....	1-1
1.1 Purpose.....	1-1
1.2 Existing Twin Cities HOV System Corridors .....	1-2
1.3 Report Structure .....	1-3
2.0 Study Team.....	2-1
3.0 Evaluation Objectives.....	3-1
4.0 Measures of Effectiveness and Evaluation Overview .....	4-1
4.1 Evaluation Measures .....	4-1
4.2 Evaluation Scenarios and Assumptions .....	4-3
4.3 Overview of Evaluation Methodologies.....	4-4
5.0 Secondary Research.....	5-1
5.1 Basics of HOV Lanes .....	5-1
5.1.1 Benefits of HOV Lanes .....	5-1
5.1.2 HOV Operations .....	5-1
5.1.3 HOV and Ridesharing.....	5-2
5.1.4 HOV Lane Types.....	5-3
5.2 HOV Evaluation.....	5-4
5.3 HOV Lane Challenges.....	5-4
5.4 Keys to a Successful HOV Program .....	5-6

# Table of Contents

## (continued)

5.5	Expert Interviews.....	5-7
5.5.1	Virginia Department of Transportation (VDOT) .....	5-7
5.5.2	California Department of Transportation (Caltrans).....	5-8
5.5.3	Texas Transportation Institute (TTI) .....	5-9
5.5.4	Washington Department of Transportation (WashDOT) .....	5-10
5.5.5	New Jersey Department of Transportation (NJDOT).....	5-10
5.6	Comparison of Twin Cities’ HOV Facilities to Other HOV Facilities Across the Country .....	5-11
6.0	Traveler Perceptions.....	6-1
6.1	Analysis Objectives.....	6-1
6.2	Traveler Survey Methodology .....	6-2
6.2.1	Design of the Surveys.....	6-4
6.2.2	Steps in the Survey Analysis .....	6-5
6.3	Socioeconomic Characteristics .....	6-6
6.3.1	Traveler Profile.....	6-6
6.4	Travel Patterns .....	6-8
6.4.1	Geographic Distribution .....	6-8
6.4.2	Trip Characteristics.....	6-12
6.4.3	Travel Time and Timesavings.....	6-13
6.5	Traveler Attitudes.....	6-18
6.6	Polling and Policy Options .....	6-27
6.6.1	Policy Options .....	6-28
6.6.2	Reaction to HOV Lanes Opening Up.....	6-29
6.6.3	Future Traffic Conditions .....	6-32
7.0	Data Collection and Modeling Results .....	7-1
7.1	Approach.....	7-1
7.2	Traffic Flow Impacts.....	7-3
7.2.1	Travel Time and Speed .....	7-4
7.2.2	Vehicle and Person Throughput.....	7-7
7.2.3	Person Hours Traveled .....	7-19
7.2.4	Travel Time Reliability .....	7-20
7.3	HOV and Transit Use Impacts .....	7-21
7.3.1	Transit Travel Time .....	7-22
7.3.2	Mode Shift.....	7-23
7.3.3	Average Vehicle Occupancy .....	7-23
7.3.4	Temporal Change .....	7-24
7.3.5	Change in Transit Vehicles to Maintain Headways.....	7-24

# Table of Contents

## (continued)

7.4	Safety Impacts .....	7-25
7.5	HOV Enforcement Impacts .....	7-26
7.6	Environmental and Energy Impacts .....	7-29
7.7	Other Impacts and Policy Issues.....	7-30
8.0	Potential Impacts of HOV Lane Removal on Existing Transportation Plans and Programs.....	8-1
8.1	Mn/DOT Statewide Transportation Plan – Moving Minnesota – “ABCs”.....	8-1
8.2	Metropolitan Council Transportation Policy Plan .....	8-1
8.3	Mn/DOT Transportation System Plan .....	8-2
8.4	2002-2004 State Transportation Improvement Program .....	8-2
8.5	Potential Impacts of HOV-Lane Removal on Plans .....	8-3
8.5.1	Traffic Flow .....	8-3
8.5.2	Transit/Carpool .....	8-4
8.5.3	Existing Projects .....	8-4
8.6	Summary .....	8-5
9.0	Benefit/Cost Analysis .....	9-1
9.1	Analysis Approach .....	9-1
9.1.1	Estimation of Benefits.....	9-1
9.1.2	Estimation of Costs .....	9-2
9.2	Analysis Findings .....	9-4
9.2.1	Year 2000 Analysis.....	9-4
9.2.2	Year 2020 Analysis.....	9-10
10.0	High-Occupancy Toll (HOT) Lanes .....	10-1
10.1	Background.....	10-1
10.2	HOT-Lane Experience .....	10-2
10.2.1	SR-91 HOT Lanes (ExpressLanes) .....	10-2
10.2.2	I-15 HOT Lanes .....	10-4
10.2.3	I-10 Katy Freeway .....	10-6
10.2.4	Other HOT-Lane Projects Proposed and Under Study .....	10-6
10.3	Potential Benefits of HOT Lanes.....	10-6
10.4	Potential Obstacles to HOT Lane Conversion .....	10-7
11.0	Conclusions and Recommendations.....	11-1

## **(continued)**

Appendix A  
    Technical Working Group Committee Members

Appendix B  
    Evaluation Plan

Appendix C  
    Secondary Research Technical Memorandum

Appendix D  
    Value Pricing (HOT Lanes) White Paper

Appendix E  
    Data Collection and Modeling Results

# List of Tables

ES.1	Poll by Sample and Survey.....	ES-10
1.1	Twin Cities HOV Lane Characteristics.....	1-3
3.1	Evaluation Measures.....	3-1
4.1	Evaluation Measures.....	4-2
4.2	Data Collection and Analysis Methods.....	4-5
6.1	Parking Costs Comparisons.....	6-26
6.2	Poll by Sample and Survey.....	6-28
7.1	Data Collection and Analysis Methods.....	7-2
7.2	Estimated Changes in Person Hours of Travel by Corridor and Regionwide If HOV Lanes Are Opened to All Traffic (Modeled).....	7-20
7.3	Decline in HOV and Transit Trips (Model Results).....	7-23
7.4	Additional Transit Vehicles Required.....	7-25
7.5	Change in Number of Crashes by Corridor and Type for Year 2000.....	7-25
7.6	Change in Number of Crashes by Corridor and Type for Year 2020.....	7-26
7.7	HOV Lane Violation Count Locations.....	7-28
7.8	Changes in Emissions.....	7-29
7.9	Changes in Fuel Consumption (Gallons).....	7-29
8.1	STIP Projects.....	8-3
9.1	Impact Value Assumptions.....	9-2
9.2	2000 Benefits of Opening the Lanes to All Traffic (2001 Dollars).....	9-7
9.3	2020 Benefits of Opening the Lanes to All Traffic (2001 Dollars).....	9-9

## **List of Tables (continued)**

9-4	Comparison of Costs and Benefits .....	9-10
9-5	2020 Benefits of Opening the Lanes to All Traffic (2001 Dollars) .....	9-11
9-6	2020 Costs for Opening the HOV Lanes to All Traffic .....	9-12
9-7	Comparison of 2020 Costs and Benefits .....	9-13

# List of Figures

ES.1	Twin Cities HOV System.....	ES-4
ES.2	Model Change in Vehicle and Person Throughput – Year 2000 (A.M. and P.M. Peak Periods).....	ES-8
ES.3	Reaction to HOV Lanes Opening Up – Bus Survey.....	ES-11
ES.4	Reaction to HOV Lanes Opening Up – Carpool Survey.....	ES-12
1.1	Twin Cities HOV System.....	1-2
2.1	HOV Study Team.....	2-2
4.1	Estimated Bus-Only Shoulder Feasibility Areas.....	4-4
6.1	Sampling Figure.....	6-3
6.2	Gender of Respondents.....	6-7
6.3	Origins of Bus Riders.....	6-9
6.4	Origins of Carpoolers.....	6-10
6.5	Origins of SOV Users.....	6-11
6.6	Origins of Random Sample.....	6-12
6.7	HOV and SOV Morning Destinations.....	6-13
6.8	Perceived Timesavings (Bus) Compared to Driving Alone.....	6-14
6.9	Perceived Timesavings (HOV) Compared to Driving Alone.....	6-15
6.10	Travel Time Advantage of HOV Lanes as Perceived by SOV Users.....	6-16
6.11	SOV Versus HOV.....	6-17
6.12	Attitudes Towards Traffic Conditions (Bus).....	6-18
6.13	Reasons for Riding the Bus (Rating Scale).....	6-19

## List of Figures (continued)

6.14	Reasons for Riding the Bus (Open-ended).....	6-19
6.15	Attitudes Towards Traffic Congestion (Carpool) .....	6-20
6.16	Reasons for Carpooling (Ratings).....	6-21
6.17	Reasons for Carpooling (Open-ended).....	6-22
6.18	Factors that Influence Decision to Carpooling (Ratings) .....	6-23
6.19	Reasons for Not Carpooling (Open-ended) .....	6-23
6.20	Attitudes Towards Traffic Conditions.....	6-24
6.21	Factors Affecting Decision to Carpool (Ratings).....	6-25
6.22	Reasons for Not Carpooling (Open-ended) .....	6-25
6.23	Company Amenities Provided to Employees .....	6-27
6.24	Policy Questions (Respondents in Favor of Modification) .....	6-29
6.25	Reaction to HOV Lanes Opening Up (Bus Survey) .....	6-30
6.26	Reaction to HOV Lanes Opening Up (Carpool Survey) .....	6-31
6.27	Stated Action Under Increased Travel Time.....	6-32
7.1	Bottleneck Locations for Comparing Vehicle and Person Throughput Results .....	7-4
7.2	I-394 Estimated Travel Times for HOVs and Bus Drivers (Minutes) – Year 2000 and Year 2020 .....	7-5
7.3	I-394 Estimated Travel Times for Travelers in the General-Purpose Lanes (Minutes) – Year 2000 and Year 2020.....	7-5
7.4	I-35W Estimated Travel Times for HOVs (Minutes) – Year 2000 and Year 2020 .....	7-6

## List of Figures (continued)

7.5	I-35W Estimated Travel Times for Travelers in the General Purpose Lanes (Minutes) – Year 2000 and Year 2020.....	7-6
7.6	Estimated I-394 Corridor Speed Changes When HOV Lanes Opened to All Traffic – 2000 A.M. Peak Hour (6:30 A.M. to 7:30 A.M.) .....	7-8
7.7	Estimated I-35W Corridor Speed Changes When HOV Lanes Opened to All Traffic – 2000 A.M. Peak Hour (6:30 A.M. to 7:30 A.M.) .....	7-9
7.8	Estimated I-394 Corridor Speed Changes When HOV Lanes Opened to All Traffic – 2000 P.M. Peak Hour (4:40 P.M. to 5:40 P.M.).....	7-10
7.9	Estimated I-35W Corridor Speed Changes When HOV Lanes Opened to All Traffic – 2000 P.M. Peak Hour (4:40 P.M. to 5:40 P.M.).....	7-11
7.10	Estimated I-394 Corridor Speed Changes When HOV Lanes Opened to All Traffic – 2020 A.M. Peak Hour (6:30 A.M. to 7:30 A.M.) .....	7-12
7.11	Estimated I-35W Corridor Speed Changes When HOV Lanes Opened to All Traffic – 2020 A.M. Peak Hour (6:30 A.M. to 7:30 A.M.) .....	7-13
7.12	Estimated I-394 Corridor Speed Changes When HOV Lanes Opened to All Traffic – 2020 P.M. Peak Hour (4:40 P.M. to 5:40 P.M.).....	7-14
7.13	Estimated I-35W Corridor Speed Changes When HOV Lanes Opened to All Traffic – 2020 P.M. Peak Hour (4:40 P.M. to 5:40 P.M.).....	7-15
7.14	Persons Moved Per Lane from Quarterly Reports – A.M. Peak Period (6:00 to 8:00 A.M.) .....	7-16
7.15	Persons Moved Per Lane from Quarterly Reports – P.M. Peak Period (3:00 to 6:00 P.M.).....	7-16
7.16	Modeled Change in Vehicle and Person Throughput – Year 2000 (A.M. and P.M. Peak Periods).....	7-17
7.17	Modeled Change in Vehicle and Person Throughput – Year 2020 (A.M. and P.M. Peak Periods).....	7-18
7.18	Change in Vehicle and Person Throughput from HOV Quarterly Report Data and Market Research – Year 2020 (A.M. and P.M. Peak Periods).....	7-19

## List of Figures (continued)

7.19	HOV Lane Violation Rate Count Locations.....	7-28
7.20	Eastbound I-394 Entrance to HOV Lane .....	7-31
7.21	Eastbound I-394 with Southbound TH 100 Ramp Above.....	7-31
9.1	Estimated Speed Changes When HOV Lanes Opened to All Traffic - 2000 A.M. Peak.....	9-5
