1.0 SCOPE

ENGINE DRIVEN SNOW BLOWER & ATTACHMENTS

This unit shall be the most current advertised production model as modified per specifications and approved by MN/DOT. Unit to be furnished with all standard equipment advertised whether or not specifically called for here - except where an item is replaced by optional over standard equipment, or conflicting equipment is specified. The unit shall be complete with all equipment required and ready for immediate operation to function as listed below. The unit must meet all applicable codes and standards.

2.0 SNOW BLOWER REQUIREMENTS

- 2.1 Pricing will be accepted for snow blowers that utilize their own power source and are primarily intended for installation on wheel loaders, tractor loader backhoes, and agricultural or industrial tractors. Options for truck mounting will be allowed – however combination cab/chassis and blower packages will not be accepted – just as combination tractor, backhoes or wheel loaders and blower packages will not be accepted. (The state has separate contracts for cab/chassis, wheel loaders, backhoes, and tractors.)
- 2.2 Snow blowers must be complete and ready to operate, including any and all mounting hardware and controls.
- 2.3 Price for base unit shall not include female coupler unit or standard hitch system. These items should be included in Section 5.0 as an option.
- 2.4 Snow blower unit shall be delivered with one additional complete set of OEM air and fluid filters.
- 2.5 Manufacturer's standard color acceptable, lead free paint.
- 2.6 The Contract Vendor shall provide adequate orientation in mounting, removal, operation, safety and maintenance of supplied equipment before the order will be considered complete.
- 2.7 Each snow blower unit shall be supplied with one set of parts, service, repair, and operation manuals.
- 2.8 The Contract Vendor shall furnish a standard manufacturer's warranty. The vendor shall be responsible for the cost of any inspections, adjustments, parts, labor, travel, pickup and/or delivery charges that are a result of equipment failure(s) during the warranty period. This warranty shall be stated on the pricing pages, and commence when the unit is put into service.
