1.0 SCOPE

MUNICIPAL UTILITY TRACTOR

This unit shall be the most current advertised production model as modified per specifications and approved by Mn/DOT. Unit to be furnished with all standard equipment advertised whether or not specifically called for here, except where the item is replaced by optional over standard equipment or conflicting equipment is specified. The unit shall be complete with all equipment required for immediate operation to function as listed below. The unit must meet all applicable codes and standards.

2.0 REQUIREMENTS

- 2.1 Tractor must be 4 wheel drive or track drive and be capable of employing multiple tools (snow blower, plow, mower, etc.) to accomplish a variety of jobs.
- 2.2 Steering shall be: articulated or 4 wheel steering (all 4 wheels can be turned), two wheel steering with independently applied brakes on the two non-steering wheels, or independent track drive.
- 2.3 Track drive units shall have a maximum width of 66" to allow for path or sidewalk type maintenance.
- 2.4 Unit shall have rollover protection and seat belt as an option if it is not included as part of the base unit for tractor(s) with 20 hp or larger.
- 2.5 Unit shall have replaceable oil filter.
- 2.6 Unit shall have replaceable dry type air filter.
- 2.7 Unit to be delivered with 1 complete set of filters.
- 2.8 Responder must price out the cost for a set of repair, parts and operating manuals.
- 2.9 Manufacturer's standard color acceptable, paint must be lead free.
- 2.10 Utility tractor and attachments must meet all current Federal and Minnesota safety codes.
