Knapheide Utility/Service Bodies to fit 56", 60", 84" & 108" CA Chassis's

Standard Features:

Body Shell

14 gauge two-sided A40 galvanized steel. Compartment top and back are one piece seamless design. All doors, door openings, drip rails, and other exposed

steel edges to be hemmed for strength, safety and resistance to corrosion.

Floor

12 gauge treadplate with 1 3/8" return flange on each side. Side compartment back panel overlaps and interlocks with floor flange, providing support for weight of side compartment.

Understructure

50,000 yield 11 gauge high strength steel cross sills

Tailgate

14 gauge two-sided A40 galvanized steel double panel construction. Slam lockable style

Doors

20 gauge two-sided A40 galvanized steel double panel doors with hat section reinforcements.

Hinges

Corrosion resistant all stainless steel continuous hinges provide full length support for the doors and pry-proof security with a built-in weather shield. Hinge to be spot welded to the door frame supported with a six year warranty.

Rotary Latches

Automotive rotary latches rivet-less design
Rotary latch is slam-latchable
Latching cam to be elongated to allow the latch to move vertically relative to the lockstrike to prevent torsional damage.

Door Strikers

Adjustable striker affixed to door frame with screws. (

Door Seals

Automotive "bulb type" neoprene door seals to be installed by the manufacturer of the body on all door frames.

Door Retainer

Double spring over center door retainers on all vertical doors, retains doors in positive open or closed position.

Shelving

18 gauge bright spangled galvanized shelves with hemmed dividers on 4" centers.

Minimum 250 lbs. capacity rated.

Exterior Prime Paint

Body is completely immersed in electrodeposition gray epoxy prime

paint featuring a zinc phosphate pre-coat and seal for additional corrosion protection.

Prime paint is oven cured to provide a hard durable finish.

Interior Paint

Interior painted mid-gloss, mar resistant, light gray finish.

Undercoating

Body is completely undercoated by the manufacturer of the body using minimum

five (5) mils of water base acrylic.

Warranty

The following items to be covered by minimum six (6) year limited warranty to

first owner/user of record.

No Rust-Thru Guarantee

Continuous Door Hinge – Guaranteed not to fail to operate or come off product.

Latches and Lock Cylinders – Guarantee against failure.

Shelves – **Guaranteed not to fail in bending under maximum 250lb. rated load.**

Base Price includes, Standard Body as provided by Knapheide with Standard Shelving

Package. All prices are FOB Moorhead and are Load Out, Prime painted

Note: Chassis Specific Mounting Kit not included in base price!

Knapheide "Crane Bodies" For Crane Applications #4000lb and Greater

Standard Features:

Body Shell

14 GA two-sided A40 galvanized steel compartment wall panels, fenderskirts and drip rails with 12GA two-sided A40 galvanized steel backs, bottoms and bulkhead. 12 GA treadplate top and backs full length welded to the compartment structure and floor.

Floor

1/8" thick treadplate floor with 1 3/8" return flange on each side. Side compartment back panel overlapping and interlocking with floor flange, providing support for weight of side compartment. Full length welded.

Understructure

Torsion box design with internal longitudinal supports and full width tubular cross sills. Shear plates and mounting incorporated into rear understructure.

Crane Pedestal

1/4" wall box construction with 3/4" steel mounting plate predrilled for crane mounting bolts. Crane pedestal isolated from side compartments. Rated for a maximum of 30,000, 38,000 for 60,000 ft. lbs. thru 360 degrees rotation depending on model selected.

Tailgate

14 gauge two-sided A40 galvanized steel double panel construction 12" high slammable style installed on body.

Doors

14GA two-sided A40 galvanized steel outer door panel with 20GA two-sided A40 galvanized steel liner and hat section reinforcement. Overlap style doors on front vertical and horizontal compartments.

Compartments

Seam welded inside and outside of compartments.

Hinges

Corrosion resistant all stainless steel continuous hinges to provide full length support for the doors and pry-proof security with a built-in weather shield. Hinges are spot welded to the door frame supported with a five year warranty.

Latches

Stainless steel three point twist latches riveted to door with non-corrosive stainless steel rivets

Door Seals

Automotive "bulb type" neoprene door seals installed by the manufacturer of the body on all door frames.

Door Retainer

Double spring over center door retainers on all vertical doors, retains doors in positive open or closed position.

Shelving (optional)

18 gauge bright spangled galvanized shelves with hemmed dividers on 4" centers. Minimum 250 lbs. capacity rated. Shelves can be positioned vertically on 2" centers.

Exterior Prime Paint

Body is completely immersed in electrodeposition gray epoxy prime paint featuring a zinc phosphate precoat and seal for additional corrosion protection. Prime paint is oven cured to provide a hard durable finish.

Interior Paint

Interior paint is mid-gloss, mar resistant, light gray finish.

Undercoating

Body is completely undercoated by the manufacturer of the body .

Installation

Body is supplied a recommended installation process along with detailed installation instructions that conforms to all applicable Federal Motor Vehicle Safety Standards. Further, manufacturer of the body to supply owner manual describing proper care and maintenance of the body for user.

Warranty

The following items to be covered by minimum six (6) years limited warranty to first owner/user of record.

No Rust-Thru Guarantee

Continuous Door Hinge – Guaranteed not to fail to operate or come off product.

Latches and Lock Cylinders – Guarantee against failure.

Shelves – Guaranteed not to fail in bending under maximum 250lb. rated load.

Lighting

Lighting to meet all applicable FMVSS standards. Light harness are encased in plastic loom, and all wires colored for ease in troubleshooting. Wire harness have connectors compatible with applicable Ford, GM and Dodge chassis without splicing. Stop, tail, turn, backup and side marker lights recessed in aluminum light boxes at rear of body. Body end panels prepunched for wires and box mounting.

All exterior S/T/T lights **are included in base price**

Lighting Wire Retention

Wires must be retained by mechanical fastening system.

Base Price includes

Standard Body as provided by Knapheide. Shelving packages are not included. All prices are FOB Moorhead and are Load Out, Prime painted
