

Maintenance Research

Bulletin: June 2011

NTREC--New Technology Research Equipment Committee
MOR-- Maintenance Operations Research

2009-2011 Biennial Report

The Office of Maintenance Research Section is proud to present the 2009-2011 Biennial Report coming in early August. In it you will find many current applied research projects by Maintenance, Bridge and Construction personnel from around the state. This report also contains lists of former projects, implementation projects, program history, budget information and much more.

For more information contact:
Clark Moe, 651/366-3545
Maintenance Research Program Manager

October 5-6, 2011

Independence Day,

July 4, 2011

Please Welcome,
Clark Moe to the Office of
Maintenance

Clark comes to Maintenance Research as part of a leadership exchange to focus on the MOR/NTREC Program in addition to managing research projects with an emphasis on Maintenance. Clark brings 9 years of experience from Mn/DOT's Central Research Office, 3 years from Mn/DOT District 8-Hutchinson, and, 11 years from Minnesota Local Agencies.
