Maintenance Research Staff Update

Central Office Maintenance Research Training Engineer Linda Taylor, shares information at the District 3A “Rock Around The District” Employee Annual Meeting at Camp Ripley. The Maint. Research Unit was invited to set up a display and provide employees with an informational presentation about research projects and how to fund them. The lower left inset photo shows Cheri Marti (U of M’s Center for Transportation Studies) presenting John Tarnowski of Maint. Research a certificate for being the first person to achieve necessary credits in the “Roads Scholar” program. Ben Zwart, Maint Research Engineer (top left) is pictured spreading the research word to District 1 Employees at their Annual Meeting.

Thank You!
