MOR Maintenance Operations Research

August 2006

Winter Maintenance Program

Program Coordinator Andy Kubista is putting the final touches on plans for this season's District visits and informational presentations. Kathy Schaefer of CTAP will be sharing duties with Andy to ensure that all Mn/DOT plow drivers are able to attend.

CTAP

New to this season's Snow and Ice Training is a module on Truck and Equipment Washing. Compliance is becoming more important each day and helps protect the environment.

Full Matrix LED Changeable Message Sign (CMS)

This project is evaluating full matrix changeable message signs. District 1-Duluth and Metro District-Arden Hills received funding from NTREC for this project. Scheduled completion date is Spring of 2007. The Mn/DOT Office of Traffic Safety is also participating in the research.
