RoadQuake Rumble Strips

RoadQuake temporary, portable rumble strips alert drivers to reduce speed. RoadQuake can be used in numerous highway and road construction applications including short-term work zones, temporary lane closures or law enforcement check points. RoadQuake is a temporary device and does not require adhesives or fasteners for installation. District 3 will evaluate these rumble strips' effectiveness of alerting drivers approaching a work crew.

For more information contact:
Randy Reznicek 320/223-6568
District 3, St. Cloud Superintendent
