

WHAT IS THE ABOUT TOOL

The about tool tells you about the website. It shows you what version of the application we are on, the release date, and the MNDOT disclaimer. To find the about tool follow these steps.

1. Click on the tools tab.
2. When the tools windows opens. Click on the about button.
3. The about information will box will open.
4. Here is where you can read about the website and MNDOT's disclaimer.
