

Right of Way Mapping & Monitoring (RWMM) vs. eDOCS (formerly EDMS)

Feature	RWMM	eDOCS
Storage location of maps	FTP2	eDOCS ¹
Viewer software application	AutoVue	AutoVue
Search tools	spatial index	tabular query
File download	individual sheets	full roll or part
Raster map compression format	TIF LZW	TIF Group IV
CAD map (.DGN)	yes ²	yes ²
Right of Way map, image recall	map sheet ³	entire map roll
Highway right of way plats	yes	yes ⁴
Railroad maps and station plats	yes	yes ⁵
Current right of way line	yes	no
Commissioner's orders	plats, graphic	all types
Construction plans	no	yes
Utility permits	no	yes
Survey records	yes ⁶	yes ⁶
Printing	AutoVue/ArcInfo	AutoVue

Notes:

¹ MnDOT's eDOCS system, formerly known as Electronic Document Management System (EDMS)

² CAD files do not display feature line styles, this is a Bentley ProjectWise requirement

³ Some maps in Standard Sheet Size format may not include title sheet

⁴ Includes plat corrections, if any

⁵ Also includes the Sectional County Map dataset, a source for the abandoned railroad centerline data

⁶ Assumes district has coordinated and granted access rights
