

## University/Central Avenues signal, sidewalk ramp improvements

### **The project:**

This is the third year of a three-year effort to replace signals and improve sidewalk ramps on University Avenue (Highway 47) and Central Avenue (Highway 65) so they comply with American with Disabilities Act standards. Crews working for MnDOT and the city of Minneapolis have already completed about 16 intersections on Central and University.

**Benefits:** Improved access to sidewalks and install traffic signals that assist those who are visually impaired.

**Impacts:** University Avenue at Broadway and Central Avenues and Central Avenue from Second St. SE to St. Anthony Parkway.

Construction could require lane and sidewalk closures at the intersections going east and west at various times during the project.

- Central Avenue at Second Street SE
- Central Avenue at University Avenue
- Central Avenue at Spring St.
- Central Avenue at St. Anthony Blvd.
- University Avenue at Broadway Street

**Timeline:** July to October 2018

**Cost:** \$2.5 million, estimated
