---

## MINUTES 4/20/2016 1<sup>st</sup> meeting

### Preventive Maintenance Team

The preventive maintenance team will be comprised of technical experts in the area maintenance of concrete and asphalt roadways. Activities expected include prioritization of short and long term research, development of long term research test sections at MnROAD, and providing input to the technology transfer team on what should be marketed.

<a href="#">Jason Blomberg</a> (Missouri DOT)	<a href="#">Jerry Geib</a> - Chair (Minnesota DOT)
<a href="#">Todd Miller</a> (Missouri DOT)	<a href="#">Melissa Cole</a> (Minnesota DOT)
<a href="#">Ned Grady</a> (Wisconsin DOT)	<a href="#">Tom Zimmerman</a> (Minnesota DOT Friend)
<a href="#">Pete Kemp</a> (Wisconsin DOT)	<a href="#">Tom Wood</a> (Minnesota DOT Friend)
<a href="#">Mark Gawedzinski</a> (Illinois DOT)	<a href="#">Eddie Johnson</a> (Minnesota DOT Friend)
<a href="#">Sheila Beshears</a> (Illinois DOT)	<a href="#">Ben Worel</a> (Minnesota DOT Friend)

*Note: The team project pages are currently under development. Please check back as the website is updated*

Ben provided an agenda to members for our first, introductory meeting.

Members introduced themselves. We have a good mix of pavement, maintenance geotech, research, but no PCC experts at this time. Need MDOT members (Geib sent email to MDOT asking for members).

Ben to share ideas from a 2014 Peer Exchange (see website) MnROAD meeting to generate research ideas.

Key is the COST of treatments, and their EFFECTIVENESS.

PM is a different Industry / contractor than the Flexible group. Good to be a separate group.

MINUTES 5/5/2016 2nd meeting
