

STATEWIDE FREIGHT SYSTEM PLAN

ADVISORY COMMITTEE

The Advisory Committee, a multidisciplinary committee, will meet 3 times throughout the plan development process; early in the study to introduce the Committee to the team and scope and confirm the Plan goals and approach, and throughout Plan development to provide high-level policy guidance on issues and strategies as well as feedback on major findings and documents.

Advisory Committee Role: “big picture thinkers”

- Setting a long-term vision for freight – what would you do if there were no constraints?
- Identifying what’s out there that needs to be considered
- Fitting this plan into context of other planning (MnDOT’s 50-year vision, other statewide, district, and regional plans)
- Building partnerships, identifying future collaboration opportunities

Advisory Committee members, listed here, represent policy leaders and directors at the federal, state, regional, and local levels.

Members	Responsibility	Area	Contact
