

## TECHNICAL TEAM

The purpose of the Technical Team is to provide guidance and review of draft and final policies, strategies and performance metrics associated to the development of the Plan, and to facilitate coordination and partnership in implementing future freight projects. The Technical Team will meet four times throughout the planning process.

Technical Team Role: “implementers”

- Working out details of the vision, achieving grass-roots buy-in
- Providing input into how the elements of the plan can be followed through/what is needed to be successful
- Serving as representatives to ad hoc committees
- Building partnerships and links between policy-makers and “doers”

Members of the Technical Team, listed here, have specific technical expertise related to freight.

Members	Responsibility	Area	Contact
Mark Schoenfelder Co-Chair	MnDOT District 6 Planning	Transportation Planning, Project Development	<a href="mailto:mark.schoenfelder@state.mn.us">mark.schoenfelder@state.mn.us</a> 507-286-7552
