

State Transportation Improvement Program (STIP)

2010-2013

State of Minnesota

September 2009

Minnesota Department of Transportation

395 John Ireland Blvd.
St. Paul, MN 55155

To the Reader:

The State Transportation Improvement Program (STIP) is a comprehensive four-year schedule of planned transportation projects in Minnesota for state fiscal years 2010, 2011, 2012 and 2013. These projects are for state trunk highways, local roads and bridges, rail crossing projects, and transit capital and operating assistance. This document represents an investment of over \$4.7 billion in federal, state, and local funds over the four years.

This document is the statewide transportation program in which Mn/DOT, local governments, and community and business interest groups worked together in eight District Area Transportation Partnerships (ATPs) to discuss regional priorities and reach agreement on important transportation investments. This state process was developed in response to the Federal “Intermodal Surface Transportation Efficiency Act (ISTEA) of 1991” which focused on enhanced planning processes, greater state and local government responsibility, and more citizen input to decision making. The process has continued under the two following federal transportation acts.

Any questions and comments on specific projects included in this program may be directed to the identified Mn/DOT District Transportation office listed in the Program Listing sections of the document. To further assist you in using this information, a searchable database will be available in November 2009 on the Internet at:

<http://www.dot.state.mn.us/planning/program/stip.html>

General questions or comments can be directed to the Office of Investment Management and Performance Measures in St. Paul (651-366-3798). Thank you for your interest in and support of Minnesota’s Transportation System.

PREFACE

State of Minnesota State Transportation Improvement Program (STIP) 2010-2013

This document is the State of Minnesota State Transportation Improvement Program (STIP) for state fiscal years 2010-2013. It includes an introduction, or overview, of the anticipated expenditures for all modes of transportation under the authority of the Minnesota Department of Transportation (Mn/DOT). The document is organized into three chapters and three appendices.

Chapter I of this document is the introduction to Mn/DOT. It provides information on Mn/DOT's vision for its transportation system and the factors that help shape Mn/DOT's policies and programs.

Chapter II is the formal response to the federal requirements for the STIP under the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU). The programming process to develop this STIP began in the fall of 2007 and was developed under the requirements outlined in SAFETEA-LU with a conservative estimate of federal funds anticipated.

Chapter III includes the project listing of all projects using federal-aid highway or transit funding. Projects using only local dollars are not included. These listings are organized by Mn/DOT District/Area Transportation Partnership (ATP) areas.

Appendix A includes a description, expenditure summary and project listing for several federal-aid highway and transit categories. A description of the Mn/DOT State Road Construction Program (SRC) is also included, but without a repeat of the project listing of state trunk highway projects. Appendix B includes, for information purposes only, a description, financial summary, and project listing for other modal programs that are not subject to the federal planning requirements under SAFETEA-LU. Appendix C includes a detailed financial plan for the STIP.

The STIP was developed using programs specified in SAFETEA-LU which was signed into law August 10, 2005. Once approved by the US DOT, the State Transportation Improvement Program for Minnesota is available on the Internet at the following address:

<http://www.dot.state.mn.us/planning/program/stip.html>

I. INTRODUCTION

The Minnesota Department of Transportation (Mn/DOT) was established and operates in order to provide a balanced transportation system including aeronautics, highways, motor carriers, ports, public transit, railroads and pipelines. Mn/DOT is the principal agency in the state for development, implementation, administration, consolidation, and coordination of state transportation policies, plans, and programs. These policies, plans, and programs are developed in cooperation with the public and a variety of transportation partners, including the Twin Cities Metropolitan Council, the six Metropolitan Planning Organizations (MPOs) established in areas with populations exceeding 50,000, the nine Regional Development Commissions (RDCs), county, city, and Indian tribal governments throughout the state.

The Mn/DOT vision is to establish a coordinated transportation network that meets the needs of Minnesota's citizens and businesses for safe, timely, and predictable travel. Fundamental to this vision is the need to preserve and maintain the state's physical transportation assets – highways, bridges, airports, water ports, freight, bus, rail, intermodal facilities, and bikeways.

A number of factors are shaping the development of Mn/DOT policies and programs. These include safety, the integration of transportation modes, service and investment preservation, customer focus, economic development, technology, environment partnerships, and federal actions. This document addresses these factors and provides a multimodal focus. This document and the investment levels summarized in Figure 1 do not include the expenditures for infrastructure maintenance. In addition, unless federal funding is a part of the investment, the investments in this document and Figure 1 do not include improvements made by local levels of government. Total government investment in transportation infrastructure could be two to three times the investment level included in this document. The investment in transportation infrastructure improvements included in this document is summarized in Figure 1.

Figure 1 STATE TRANSPORTATION IMPROVEMENT PROGRAM FUNDING INCLUDING RAIL, PORTS, AND AIR BY PROGRAM AND YEAR (\$ MILLIONS)					
PROGRAM	2010	2011	2012	2013	TOTAL*
Highway Assistance Program¹	1,739	938	982	910	4,568
Transit Assistance Program²	467	217	231	207	1,124

TOTAL*	2,424	1,342	1,353	1,195	6,315

*May not total correctly due to rounding.

¹The Highway Assistance Program includes all federal-aid for highways received through the Federal Highway Administration (FHWA) of the U.S. Department of Transportation (USDOT). It includes all federal apportionment, allocation or special funding. It also includes all state trunk highway funds appropriated for construction, other state appropriated investments and any local funding utilized as match for federal projects. A list of projects is included in Chapter III of the STIP.

²The Transit Assistance Program includes all federal-aid for transit received through the Federal Transit Administration (FTA) of the USDOT. It also includes all state and local funds necessary to match the federal funds and operate the transit systems. The Transit Assistance Program does not include the federal-aid highway funding used for some of the buses, facilities, and other capital purchases for transit. All transit projects are included in Chapter III of the STIP. The transit only portion of Chapter III is listed in Appendix A-4.

³The Minnesota Rail Service Improvement Program (MRSI) was established in 1976 to prevent the loss of rail service on lines potentially subject to railroad abandonment. Projects that fall within the MRSI are divided among 6 programs: rail line rehabilitation, capital improvements for rail shippers, capital improvement for railroads, purchase assistance to rail authorities, loan guarantees and state rail banking.

The MRSI Program does not include funding for rail-highway safety projects included in the highway assistance program. The number of rail service assistance projects is estimated and shown in Appendix B-1.

⁴The Port Development Assistance Program was created in 1991. The 1996, 1998, 2000, 2001, 2003, 2005, 2006, and 2008 Legislatures set aside a total of \$18.0 million to fund this program. A list of projects that could be funded is included in Appendix B-2.

⁵The Airport Development Program figures shown above include federal and state grant funds plus the local share or match. The project listing in Appendix B-3 is not financially constrained to the anticipated funding, and totals about \$597 million in candidate airport projects statewide over the next 4 years.

II. STATE TRANSPORTATION IMPROVEMENT PROGRAM (STIP)

Certification

In accordance with 23 CFR 450.218, the Minnesota Department of Transportation (Mn/DOT), as the Governor's designee, certifies that the transportation planning process is being carried out in accordance with the following requirements:

1. 23 U.S.C. 134 and 135, 49 U.S.C. 5303 and 5304, and this part;
2. Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d-1) and 49 CFR part 21;
3. 49 U.S.C. 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex, or age in employment or business opportunity;
4. Section 1101(b) of the SAFETEA-LU (Pub. L. 109-59) and 49 CFR part 26 regarding the involvement of disadvantaged business enterprises in USDOT funded projects;
5. 23 CFR part 230, regarding implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;
6. The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 *et. seq.*) and 49 CFR parts 27, 37, and 38;
7. Sections 174 and 176 (c) and (d) of the Clean Air Act, as amended (42 U.S.C. 7504, 7506 (c) and (d) and 40 CFR part 93;

8. The Older Americans Act, as amended (42 U.S.C. 6101), prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance;
9. Section 324 of title 23 U.S.C., regarding the prohibition of discrimination based on gender; and
10. Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 CFR part 27 regarding discrimination against individuals with disabilities.

Mn/DOT also concurs with the MPO's determination that the air quality conformity analysis has been completed by the necessary MPOs and has been reviewed and accepted by the Minnesota Pollution Control Agency.

The Minnesota Statewide Transportation Policy Plan

Projects in the STIP are consistent with the *Minnesota Statewide Transportation Policy Plan 2009-2028: Your Destination....Our Priority*, a long-term, multi-modal and statewide plan that is consistent with federal requirements outlined in 23 CFR part 450. The *Plan* addresses federal planning requirements, the transportation goals identified in state law, and reflects *Mn/DOT's Strategic Vision*. The process for developing and updating the *Plan* provides early and continuous opportunities for the involvement of the public and other potentially affected parties.

In accordance with Minnesota Statutes §174.01, Subdivision 1a, the *Plan* is updated every six years, within interim updates as needed by Mn/DOT to promote statewide transportation

planning. The most recent update of Statewide Transportation Plan was completed in August of 2009.

Mn/DOT has concurrently updated the Statewide and District Highway Investment Plans for the 2009-2028 time period. These plans lay out priorities for projected available funding during the next 20 years and establish a balanced program of investment that help achieve strategic priorities of safety, mobility and infrastructure preservation.

Both plans are available for down at the following web address: www.dot.state.mn.us/planning/stateplan/index.html

Public Involvement

The last three federal Transportation acts have created less of a federal presence in many transportation decisions. The diminished federal role results in more state/local authority and responsibility for these decisions. The funding flexibility and expanded project eligibility under these acts has given decision makers more options to address transportation priorities. Public involvement in transportation issues and decision making is vital because of this expanded eligibility and diversity. Federal Law requires an opportunity for early and continuous involvement in the development of the *Statewide Transportation Plan* and the STIP. Public involvement is also a mandatory component of the MPO planning process.

Minnesota's transportation investment process (Figure 2), with the Area Transportation Partnerships (ATPs) provides for early and continuous involvement in the development of the STIP. The process incorporates the public involvement activities of the partners (MPOs, RDCs, counties, cities and others) into

their roles on the ATP. MPOs in accordance with federal requirements have developed public participation processes and use them in conjunction with the development of their Transportation Improvement Programs (TIPs). The MPO TIPs include detailed discussion of public involvement.

In addition to the public input derived through Minnesota's transportation investment process, public meetings, forums, conferences and focus groups have been held throughout the state by the ATP partners, Mn/DOT and modal partners such as transit, rail and bike/pedestrian. Mn/DOT's public involvement guidebook entitled "Hear Every Voice" provides guidance on involving the public in planning, programming, and project development.

Other methods used to encourage public involvement included the use of newsletters, newspaper articles, informational mailings, press releases, websites and an information display at the Minnesota State Fair. A notice of the availability of the draft 2010-2013 STIP was placed in the *State Register* on June 29, 2009. This notice provided a 30 day comment period to the public.

Figure 2
Transportation Investment Process

The Metropolitan Council conducts a formal public hearing within the Twin Cities Transportation Management Area (TMA). A significant effort is made by the Metropolitan Council to ensure that all interested and concerned parties are offered an opportunity to participate in the preparation of the Twin Cities TIP. A public meeting was held June 17, 2009 to explain and answer questions about the TIP schedule and approval process and to initiate public comments on the TIP. The required formal public hearing was held on July 15, 2009 to hear comments on the draft TIP. In preparation for these meetings over 300 mailings were or sent, notification was made in the *State Register*, press announcements were sent to the media, and the schedule was published in the *Metropolitan Digest* which is mailed to 600 local elected officials and legislators.

Minnesota Transportation Process for Investment Decisions

The STIP is developed in accordance with the *Guidance for the Development of the State Transportation Improvement Program* published by Mn/DOT in February 2001 and with the memo on *STIP Funding Guidance* dated December 24, 2008. Minnesota's STIP is developed through a regional geographic model for making investment decisions. The process chart on page II-3, (Figure 2), displays the partnerships and transportation activities necessary to produce a STIP.

The process is driven by federal, state, local, and regional planning goals and objectives. Statewide investment goals have been drawn from statewide planning studies and policies, the *Minnesota Statewide Transportation Plan*, the Mn/DOT

Strategic Directions, and an analysis of previous programs. They are offered as an aid in determining areawide priorities. The process builds on the plans and priorities established by Mn/DOT Districts, MPOs, cities, counties, townships and RDCs.

The investment process uses eight regional partnerships whose boundaries are based on Mn/DOT's State Aid Districts. The partnerships, called Area Transportation Partnerships (ATPs), have as their members both traditional and non-traditional, metropolitan and non-metropolitan stakeholders and can include MPOs, RDCs, cities, counties, townships, transit providers, tribal governments, other interests, and Mn/DOT. The ATPs integrate the state and local priorities within their region and recommend a minimum four year program for federally funded transportation investments. This four year program, when combined with a list of state highway funded projects is considered the draft Area Transportation Improvement Program (ATIP). Each draft ATIP includes a prioritized list of projects that aid in solving transportation problems and implementing the long range objectives for the area.

Balanced investment decisions promote effective and efficient transportation. Safety is a key element of all investments. The principal investment emphasis is preservation and operational improvements in the existing transportation system. Expansion is focused on the state's interregional corridor system that connects major economic centers and bottlenecks in the Twin Cities metropolitan area.

The draft ATIP prepared by each ATP is submitted for inclusion in the draft State Transportation Improvement Program (STIP). Project cost estimates include an adjustment for inflation. The ATIPs are analyzed and compared to statewide goals and objectives, and unique transportation needs. They are also analyzed for completeness and fiscal constraint. From this a draft STIP is developed. The draft STIP is widely circulated for review and comment before final adjustments are made. This STIP covers four state fiscal years and includes all state and local projects financed with federal (highway or transit) assistance. The STIP also includes other regionally significant projects, all projects on the state highway system and illustrative projects. Illustrative projects are those projects that will be programmed should funding become available.

The final STIP is reviewed and approved by the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) prior to any expenditure of federal funds. Upon approval, the document will be used by each ATP as a starting point in the process for developing their next ATIP.

Financial Plan

As mentioned in the Preface of this document, this STIP is a formal response to federal requirements. The STIP financial plan addresses fiscal constraint requirements under SAFETEA-LU. The principal financial assumption is the continuation of existing revenue sources and levels consistent with SAFETEA-LU authorizations. All of the projects in the 2010-2013 STIP are deemed affordable for implementation under these reasonable financial assumptions. The financial constraint

requirements under SAFETEA-LU are deemed to be sufficiently flexible to permit the selection of projects from the second and third year of the STIP to replace projects selected for the first year of the STIP. Mn/DOT reserves the right to make this project selection for the ATPs from within the STIP.

Federal Funding. SAFETEA-LU requires that the federal-aid highway and federal-aid transit projects in the STIP shall be based on financing reasonably expected to be available. The 2010-2013 STIP is based on anticipated federal, state and local funds. The federal-aid revenues are based on estimates of apportionment (formula), allocations, and high priority project funding.

Federal-Aid Highway Formula Funding: Federal-aid highway formula funding is apportioned to the states by formulas established in law. Federal-aid highway apportionments have been highly variable. Minnesota developed this STIP based on a forecast estimate for obligation authority. The federal-aid highway obligation authority estimate for the development of this STIP is \$484 million for FY 2010 and \$485 million for FYs 2011-2013. The annual obligation limitation of apportionment funds under SAFETEA-LU has been around 85 percent.

Federal-Aid Highway Allocation Funding: Funding available from allocated funding is included in the STIP. Federal-aid highway allocation funding is distributed to the states by administrative formula or by means of a competitive application. Allocated funds include many varied categories of federal-aid, including, but not limited to Public Lands, Indian Reservation Roads, Forest Highways, and Scenic Byways.

Allocations of categorical funding generally consist of several small projects that are distributed to specific areas of the state.

Allocations are not always consistent with the time-frame of the development of the STIP.

Annual allocations to individual projects or categories of funding that add up to less than \$1 million are routinely added to the STIP but due to the timing of project identification may require amendments to be processed.

Federal-Aid Highway Earmarked Funding: SAFETEA-LU saw an unprecedented amount of federal funds earmarked by Congress. About \$90 million in Earmarked funding was made available each year under SAFETEA-LU, up from about \$30 million each year under previous transportation acts. Earmarked funding is subject to obligation limitation but is available until spent. Due to project delivery schedules and the rules pertaining to the spending of these funds, the actual level of funding committed each year is variable.

Federal Transit Funding: Federal transit funding includes both formula and discretionary programs: Urbanized Area Formula Program, Non-urbanized Area (rural, small urban, and intercity bus) Formula Program, Special Needs for Elderly Individuals and Individuals with Disabilities Formula Program, Job Access and Reverse Commute Formula Program, New Freedom Formula Program and a discretionary program for major capital needs. The discretionary program provides for discretionary/competitive allocations as well as SAFETEA-LU Statutory Provisions projects for bus and bus-related facilities. Much of the transit program is based on grant applications. In the past,

the actual flow of funding was highly variable. The passage of SAFETEA-LU and its provisions to guarantee funding for transit programs keep federal transit funds predictable; however, federal funds make up only a small percentage of total operating costs for the small urbanized and rural programs.

State Highway and Transit Funding. The State of Minnesota has a biennial budget. State agency programs and operating budgets are based on a balanced budget. The 2010-2013 STIP is based on one year of approved funding and three years of estimated funding. The funding level for the STIP is estimated to be approximately the same for all 4 years of the STIP.

State Highway Funding: Funding is expected to be about \$250 million in 2010 and about \$210 million in 2011 with 2012 and 2013 averaging about \$290 million per year based on existing revenue sources. The State Highway cash flow also permits advance constructing projects prior to actual federal dollars being available.

State Transit Funding: Transit assistance comes from two sources, the General Fund and Motor Vehicle Sales Tax (MVST). The transit appropriation from the State General Fund is expected to be about \$18.8 million per year for each year of the STIP for Greater Minnesota and about \$73.5 million per year for the Metropolitan Area. The Constitutional Amendment passed in 2007 allocates 40% of MVST revenues to transit purposes, phased in over a five year period. The 40% is split 4% for Greater Minnesota Transit and 36% for Metropolitan Area Transit. With the phase in of MVST, transit funds are expected to be about \$7.5 million in 2008 increasing

to \$21.5 million in 2012 for Greater Minnesota and \$119.1 million in 2008 increasing to \$194.2 million for the Metro Area.

In addition, the 2009 Capitol Bonding Bill provided:

- \$12.5 million for Transit Capitol Improvements in the Metro Area
- \$ 8.5 million for the Central Corridor Light Rail line.

Local Highway and Transit Funding. Local funding is assumed to be available to match, or overmatch, the federal-aid for highways and transit. The state and local funding is also expected to be sufficient to maintain and operate the highway and transit systems.

Local Highway Funding: The State has a dedicated fund for state aid roads and bridges for counties and cities of 5,000 and over in population. The funding is available for maintenance and construction and is used in part to maintain the federal-aid highways and to match federal-aid. The local highway funding committed to match the federal highway aid is expected to average about \$115 million per year.

Local Transit Funding: The majority of the funding for the Minneapolis-St. Paul large urbanized area transit system is provided through local and state revenues. Since transit is substantially a local program, estimates of urbanized transit system funding are based on the MPO TIPs. Small urban and rural transit systems have a portion of their funding provided by assistance from the State General Fund and MVST. The local share may be from a large variety of sources.

Special Legislative Funding: The Minnesota State Legislature appropriated additional funding for transportation in the 2008 Transportation Funding Bill. The bill provided \$1.8 billion from trunk highway bond proceeds for improvements on the trunk highway system over the next ten years. The bill specifies how much and on what the funds should be spent. Program areas to be addressed included the construction, reconstruction, and improvement of trunk highways, the accelerated repair and replacement of highway bridges throughout the state; the construction of interchanges related economic development; and the acceleration of transit facility improvements on or adjacent to trunk highways. Funding was also provided for a trunk highway project in Mn/DOT's Mankato District that meets specific criteria in the bill. In addition to the \$1.8 billion mentioned above, additional Bond funds were made available to match the Urban Partnership Agreement projects and for the Great River Road program.

Advance Construction. Federal law allows states to request and receive approval to construct Federal-aid projects prior to receiving apportionment or obligation authority for the Federal-aid funds through the use of Advance Construction (AC). This means that Minnesota may commit future federal funds to a project as long as it goes through the normal FHWA approval and authorization process. An AC project is treated the same as any other federal project and must be authorized prior to advertising for letting or expending any funds on the project. Projects using AC must be fully encumbered in the state road construction budget for the amount of both the state funds and the federal AC amount. AC is available to local governments as well as Mn/DOT.

The agency that uses the AC procedure must “front end” the project with their own funds. These may be state aid funds, local tax funds, State Road Construction funds or some other appropriate funding sources. Local projects utilizing AC funds require a special agreement approved by Mn/DOT's Division of State Aid.

Federal regulations require that AC be shown in the year incurred and that the conversion of AC be shown in each year in which conversion takes place. Conversion is the process of converting AC to the obligation of actual federal funds. In the project listings in this STIP, AC funding is shown in a separate column and the dollar amounts are not included in the “Total” column. However, the AC conversion dollar amounts are included in the “FHWA” column and the “Total” column in the year in which a project is converted.

See Appendix C for the detailed financial plan.

Project Selection

The project selection process is the identification of the projects to be implemented in the first year of the 2010-2013 STIP. The projects in the remaining years of the STIP are deemed to be eligible for selection for implementation without a formal amendment to the STIP. Mn/DOT reserves the right to select projects for the first year of the STIP from the projects in the last three years of the STIP.

Project selection includes two iterative processes. The first iterative process is “determining the program” from the list of projects within the draft ATIPs. This includes the analysis of the preferred sources of funding for the projects and the directions included in the *Minnesota Statewide Transportation Plan*. It also is the step where the fiscal constraint is maintained. The second iterative process is the review of the STIP. The draft STIP is circulated back to the District/ATP for review and comment. Changes are made in the draft STIP as a result of the review and comment period. The STIP is forwarded to the Commissioner’s staff for review and approval before being sent to the U.S. DOT.

Figure 3 is a summary of the proposed expenditures in the STIP by fiscal year and the proposed source of federal highway or transit funding, state trunk highway funding or other source of state or local funding.

Figure 3 STATE TRANSPORTATION IMPROVEMENT PROGRAM FUNDING BY SOURCE AND YEAR (\$ MILLIONS)

III. PROGRAM LISTING

The following section contains the FY 2010-2013 STIP project listing sorted by District/ATP.

The first page of each District/ATP shows the District/ATP location within the state and the counties included within each District/ATP. The name of the District Transportation Engineer, phone number, and address are shown as well as a general information telephone number.

The second page begins the listing of projects in that District/ATP sorted by Fiscal Year. Within each Fiscal Year, projects are sorted by Route System with Transit project first followed by rail, local roadway, and then state projects.

The following information is provided for each project

Seq # - The sequence number is a unique number assigned to each project in this project listing.

Route System - The route name and number on which the project is located. See Figure 5.

Figure 5 Route System Categories	
Route System	Description
BB	Transit (buses)
CITY	City project
CMAQ	Congestion Mitigation and Air Quality
CR	County Road
CSAH	County State Aid Highway
DA	Disability Act
EN	Enhancement (not assigned to a specific road and not a pedestrian or bicycle path)
FH	Forest Highway
I	Interstate Highway
IRR	Indian Reservation Roads and Bridges
ITS	Intelligent Transportation Systems
LOCAL 999	Local project not associated with a road
MSAS	Municipal State Aid Street
MUN	Municipal Street
PED/BIKE	Pedestrian or Bike Path/Trail (not assigned to a specific road)
PL	Planning
RECTRAIL	DNR Recreational Trail
RR	Railroad
TH	Trunk Highway
TH 999	State project not associated with a road (not an Enhancement)
TWN	Township Road

- Project Number - Project identifier. Most trunk highway projects start with the control section numbers. Local projects start with either the county number or the city number.
- Agency - The jurisdiction responsible for implementing projects or for opening bids.
- Description - The location and/or type of project.
- Miles - The length of the project.
- Programs - The program category. See Figure 6.
- Type of Work - The intent of the project.
- Proposed Funds - Preliminary fund assignment with exact determination of funding determined upon authorization. See Figure 7.
- Total - The total estimated cost of the project relative to federal funding to be used in year of letting. This includes advance construction (AC) conversion funding. It does not include the original advance construction funding.
- FHWA - The total estimated federal aid highway funding to be used for the project. This includes advance construction conversion funding.

Figure 6 - Program Categories	
Program	Description
AM	Municipal Agreement
BI	Bridge Improvement
BP	Bridge Preservation
BR	Bridge Replacement
BT	Bike Trail (not an Enhancement)
CA	Consultant Agreement
CB	Capital Improprement
DR	Drainage
EN	Enhancement (STP)
IR	Indian Reservation Roads
JT	Jurisdictional Transfer
MA	Miscellaneous Agreements
MC	Major Construction
NA	Not Applicable (Uncommitted)
NO	Noise Walls
PE	Preliminary Engineering
PL	Planning
PM	Preventive Maintenance
RB	Rest Area/Beautification
RC	Reconstruction
RD	Recondition
RL	Revolving Loan
RS	Resurfacing
RT	Recreational Trail (DNR only)
RW	Right of Way Acquisition
RX	Road Repair (Bridge and Road Construction) (BARC)
SA	Supplemental Agreement/Cost Overruns
SB	Scenic Byway
SC	Safety Capacity
SH	Highway Safety Improvement Program (HSIP)
SR	Safety Railroads
TM	Transportation Management
TR	Transit (FHWA)
B9	FTA Urbanized Area Formula – Section 5307
CF	Clean Fuels – Section 5308
B3	FTA Capital Program - Section 5309
NB	FTA Elderly and Person with Disabilities – Section 5310
OB	FTA Non-urbanized Areas - Section 5311
JA	FTA Job Access and Reverse Commute – Section 5316
NF	New Freedom Section 5317

Figure 7 Proposed Fund Categories	
Fund	Description
BF	Bond Funds
BH	Bridge Rehabilitation
BR	Bridge Replacement
BROS	Off System Bridge
CBI	Coordinated Border Infrastructure
CMAQ	Congestion Mitigation and Air Quality
DPS	Department of Public Safety
ER	Emergency Relief
ES	Economic Stimulus
FFM	Federal Fund Miscellaneous (TCSP, Special Appr.)
FH	Forest Highway
FTA	Federal Transit Administration
HSIP	Highway Safety Improvement Program
HPP	High Priority Project (Earmarked)
IM	Interstate Maintenance
IRR	Indian Reservation Roads
ITS	Intelligent Transportation Systems
LF	Local Funds or Other
NCIP	National Corridor Infrastructure (Earmarked)
NHS	National Highway System
PNRS	Projects of National and Regional Significance (Earmarked)
PUB	Public Lands
RES	Research
RRS	STP Rail Safety
RT	Recreational Trail
SB	Scenic Byways
SF	State Funds
SRTS	Safe Routes to School
STP	Surface Transportation Program
SU	STP Small Urban
TEA	Transportation Enhancement (STP)
TI	Transportation Improvements (Earmarked)
TRLF	Transportation Revolving Loan Fund
UG	STP Urban Guarantee

- AC - The total estimated amount of future federal funds (AC) being committed to a project, front-ended by local/state funds.
- FTA - The total estimated federal aid transit funding to be used for the project.
- TH - The total estimated state trunk highway funding to be used for the project.
- Other - Estimate of funding other than FHWA, FTA or state TH to be used for the project. This includes local match and special legislative appropriations.

Areawide Transit

A map of Minnesota showing its 87 counties. The map is divided into eight numbered regions, each enclosed by a thick black border. Region 1 is in the northeast, including Cook, Lake, and St. Louis counties. Region 2 is in the northwest, including Kittson, Roseau, Marshall, Pennington, Red Lake, Polk, Beltrami, and Clearwater counties. Region 3 is in the central-north, including Koochiching, Itasca, Hubbard, Cass, Wadena, Aitkin, and Carlton counties. Region 4 is in the central-west, including Mahanomen, Clay, Becker, Wilkin, Otter Tail, Grant, Douglas, Traverse, Stevens, Pope, Big Stone, and Swift counties. Region 5 is in the central-south, including Todd, Morrison, Crow Wing, Mille Lacs, Benton, Stearns, Sherburne, Kandiyohi, Meeker, Wright, Hennepin, Ramsey, Washington, Anoka, and Isanti counties. Region 6 is in the southeast, including Goodhue, Wabasha, Olmsted, Winona, Dodge, Steele, Waseca, Blue Earth, Brown, Nicollet, Le Sueur, Rice, Scott, Dakota, and Carver counties. Region 7 is in the south-central, including Sibley, McLeod, Carver, and Renville counties. Region 8 is in the southwest, including Chippewa, Lac qui Parle, Yellow Medicine, Lincoln, Lyon, Redwood, Pipestone, Murray, Cottonwood, Watonwan, Jackson, Martin, Faribault, Freeborn, Mower, Fillmore, and Houston counties. The Metro area, consisting of Hennepin, Ramsey, Washington, Anoka, and Isanti counties, is highlighted with a thick black border and labeled 'Metro' in a white circle. The counties within the numbered regions are shaded in light pink.

GREATER MINNESOTA METROPOLITAN PLANNING ORGANIZATIONS

GREATER MINNESOTA MPO PROGRAMS

In accordance with the joint FHWA/FTA Metropolitan Planning Rules, Section 450.324, each of the Metropolitan Planning Organizations in Greater Minnesota has developed and approved a four-year fiscally constrained Transportation Improvement Program (TIP). Each TIP provides a prioritized list of projects for which federal (FHWA and FTA) as well as Mn/DOT state funds and, in some cases, local funds are anticipated to be used. The federally funded projects have been selected through the ATP process and are included in the appropriate ATP.

Also included in the MPO TIP is a Financial Plan discussing the fiscal constraint of the program and the MPO's certification that the MPO planning process is being carried out in compliance with all applicable federal requirements. In the case of Duluth-Superior and St. Cloud, which are "air quality maintenance areas" for carbon monoxide, a conformity determination analysis is also included.

After adoption by the MPO, approval from Mn/DOT as the Governor's designee, and the completion of a joint planning finding and Air Quality Conformity Determination by FHWA and FTA (where needed), the MPO TIP is incorporated by reference, without modification, into the STIP. In addition, the federal and Mn/DOT funded projects within the MPO area are also listed in the STIP.

The following table summarizes the federal funding for each MPO.

Figure A-1 GREATER MINNESOTA MPO FUNDING BY SOURCE AND YEAR (\$ THOUSANDS)					
SOURCE	2010	2011	2012	2013	TOTAL*

Transportation Enhancement Activities (TEA)

TRANSPORTATION ENHANCEMENT ACTIVITIES (TEA)

Transportation Enhancement funding is a portion of the state's federal STP funds that is available only for projects in one or more of twelve exclusive project categories and is subject to the same general eligibility requirements associated with other federally funded transportation projects. For the 2010-2013 STIP, enhancement projects were solicited, ranked and selected within the ATP process. The projects were then incorporated into the ATIPs. The Enhancement funding included in the 2010-2013 STIP is shown in Figure A-2.

Figure A-2 TRANSPORTATION ENHANCEMENT FUNDING BY YEAR (\$ MILLIONS)					
	2010	2011	2012	2013	TOTAL*
Federal Highway Funds	27.7	19.4	14.1	6.4	67.6

* May not add due to rounding.

Highway Safety Improvement Program (HSIP)

HIGHWAY SAFETY IMPROVEMENT PROGRAM (HSIP)

Before the passage of SAFETEA-LU federal safety funds were made available through the Hazard Elimination Safety Program (HES). Funds were identified in a decentralized process through local Area Transportation Partnerships (ATP).

Traditionally, these projects were reactive in nature and were designed to improve an existing safety problem. Through the project development process a benefit/cost ratio would be estimated based on the safety improvement at a particular location. A review of projects funded in recent history yields the following breakdown of project types. For intersections (the predominant project location), most of the projects were new traffic signal installations usually including channelization and turn lane construction. Other intersection projects included: lighting, Emergency Vehicle Pre-emption (EVP) installation, and conversion to an interchange. For sections of roadway, most of the projects included general safety improvements – guardrail, shoulder improvements and turn lane construction. Other safety projects included: lighting, signing, and vertical and horizontal curvature correction. Projects programmed in later years have shifted to other areas including roundabouts and median treatments.

With the passage of SAFETEA-LU and the development of the Minnesota Strategic Highway Safety Plan, the types of safety projects funded with HSIP dollars has changed. In 2007 and 2008 Mn/DOT transitioned from a purely reactive safety program to a more proactive safety program where low-cost systematic strategies are emphasized. Beginning in 2009 all

ATPs have a safety program developed based on Minnesota data and the Minnesota Strategic Highway Safety Plan.

Projects were selected for the 2010-2013 STIP through a centralized process. A solicitation process was used for the local project selection. Low cost, systematic, proactive projects were prioritized over reactive single location improvements. Projects funded using the new process includes: systematic intersection lighting, enhanced edge lines, rumble strips, chevrons on curves and cable median barrier. The Office of Traffic, Safety and Technology now approves state HSIP projects before they are included in the STIP.

Goals were set for proactive project funding. Greater Minnesota districts have a goal of 70% HSIP money being spent on proactive projects. The metro district has a goal of 30% HSIP money to be spent on proactive projects.

Projects were selected using the following criteria:

- Ability to meet the intent of the SHSP
- Fatal and A injury crashes per intersection or per mile
- SHSP (critical emphasis areas)
- Cost per intersection or cost per mile
- ADT
- Recommendation of a previous safety audit
- Inclusion on the High Risk Rural Roads list or Top 5% list

The selection committee was comprised of individuals from the following offices:

- Mn/DOT Office of Traffic, Safety and Technology
- FHWA
- Mn/DOT Office of State Aid for Local Transportation (local solicitation only)

The Highway Safety Improvement Program funding included in the 2010-2013 STIP is shown in Figure A-3.

Transit Programs

FTA

- ✓ Urbanized Area Formula Program (Section 5307)
- ✓ Capital Program (Section 5309)
- ✓ Elderly and Person with Disabilities Program (Section 5310)
- ✓ Non-Urbanized Area Formula Program (Section 5311)
- ✓ Job Access – Reverse Commute Program (Section 3037)
- ✓ New Freedom (Section 5317)
- ✓ Alternative Analysis (Section 5339)

FHWA

- ✓ Surface Transportation Program --Transit Capital
- ✓ Congestion Mitigation & Air Quality (CMAQ)
- ✓ FHWA Earmarks

TRANSIT PROGRAMS

Federal Transit Administration (FTA)

A portion of the federal gas tax is placed in the Mass Transit Account of the Federal Highway Trust Fund. These funds are reserved for transit purposes and are managed by the FTA. Transit funding authorized by SAFETEA-LU is managed in several different ways. Some transit funding is earmarked by Congress, some is discretionary, some is distributed by formula, and some is allocated to the states and/or transit authorities by FTA.

In Minnesota, FTA transit allocations for rural and small urban transit capital and operating assistance is managed by Mn/DOT's Office of Transit (OT). These formula programs include the Special Needs for Elderly Individuals and Individuals with Disabilities Program (capital assistance), the Non-Urbanized Area Formula Program (capital and operating assistance), the Job Access-Reverse Commute Program (JARC) and the New Freedom Program, Federal capital and operating assistance for urbanized areas of over 50,000 population (Urbanized Area Formula Program, JARC and New Freedom,) is provided directly to the urbanized area transit agency by FTA. In addition, FTA works directly with the states and/or transit agencies in urbanized areas to allocate discretionary capital funds under the Capital Program for major capital needs such as fleet replacement and construction of transit facilities.

Federal Highway Administration (FHWA)

An investment in transit capital is eligible for federal highway funding under SAFETEA-LU through the Surface Transportation Program (STP) or Congestion Mitigation and Air Quality (CMAQ). STP and CMAQ transit projects are prioritized by the ATP.

Transit funding from FTA and FHWA is estimated in Figure A-5. Each of these programs is displayed in the Program Listing section of this document.

Indian Reservation Roads Program

INDIAN RESERVATION ROADS

The Federal Lands - Indian Reservation Roads (IRR) program is co-administered by the Federal Highway Administration and the Bureau of Indian Affairs (BIA). The Indian tribal government, in cooperation with the BIA, (and any state or local government, or metropolitan planning organization as may be appropriate), develops a transportation improvement program that includes all Indian reservation road and bridge projects proposed for funding. The projects must be selected by the Indian tribal government from the transportation improvement program (TIP) and approved by the BIA and FHWA.

The IRR TIP is forwarded by FHWA to Mn/DOT and incorporated into the State Transportation Improvement Program (STIP).

Recreational Trails Program

RECREATIONAL TRAILS PROGRAM

The Recreational Trails Program provides funds to develop, maintain, and enhance recreational trails for both motorized and non-motorized recreational trail users. Funds are appropriated to the State by formula, 50 percent equally among all eligible states and 50 percent in proportion to the amount of off-road recreational fuel use. The maximum federal share in Minnesota is 50 percent for these projects, and a cash match is required. Only state agencies, cities, counties, townships, tribal governments or private trail organizations sponsored by a local unit of government are eligible to apply.

The Minnesota Department of Natural Resources (MNDNR) administers this program for Minnesota. The Minnesota Recreational Trail Users Advisory Board assists the MNDNR in project selections. The committee is comprised of three representatives of the ten identified trail user groups (bike, mountain bike, hike, ski, horse, in-line skate, ATV, trucks, snowmobiles, motorcycles) in Minnesota.

The Recreational Trails Program projects are listed in District C of the project list.

2009 Federal Recreational Trail Program Funded Grants

Project #	Grantee	Project Title	Project Description	Type of Use	Total Cost	Amount Funded
0001-09-4D	Rice County	Grooming Equipment Purchase	To purchase snowmobile trail grooming equipment.	Motorized	\$110,000	\$55,000
0002-09-1C	Lake of the Woods County	Trail Groomer for Land and Lakes Trails	To purchase snowmobile trail grooming equipment.	Motorized	\$155,000	\$77,500
0003-09-3A	Stearns County Parks	Soo Line Corridor - Dairyland Trail Development	To construct 14 miles of abandoned rail corridor into a year round gravel surfaced multiple use trail.	Joint	\$500,000	\$150,000
0004-09-2B	City of Chisholm	Chisholm ATV Trail	To construct 10 miles of ATV trail between the City of Chisholm and the intersection of Connors Road (Co. Rd. 469) and Co. Hwy 5.	Motorized	\$176,000	\$88,000
0007-09-2C	Superior Hiking Trail Association	Rehabilitation/Maintaining the Superior Hiking Trail	To maintain and rehabilitate portions of the Superior Hiking Trail.	Non-Motorized	\$78,000	\$39,000
0010-09-2A	Itasca County	Marcell Snowdrifter's Grooming Equipment Purchase	To purchase snowmobile trail grooming equipment.	Motorized	\$175,000	\$75,000
0016-09-S	Minnesota Trail Riders Association	Trail and Campground Improvement and Maintenance Fund	To maintain and enhance equestrian trails and facilities in public parks, forests and on trails.	Joint	\$16,000	\$8,000
0023-09-3B	Chisago County	Swedish Immigrant Trail	To acquire 3.4 miles of the Swedish Immigrant Trail from Taylors Falls through Interstate Park to Tern Avenue.	Non-Motorized	\$147,000	\$73,500
0025-09-1C	Norman County	2010 Tucker Terra Model 2000D1-28R-6-173	To purchase snowmobile trail grooming equipment.	Motorized	\$182,723	\$91,000
0028-09-1D	Cass County	Mosquito Creek Bridge	To construct a bridge over Mosquito Creek.	Motorized	\$48,432	\$24,200
0030-09-1B	Otter Tail County	Otter Tail Riders Snowmobile Trail Groomer	To purchase snowmobile trail grooming equipment.	Motorized	\$171,572	\$58,513
0032-09-2D	Carlton County	Nemadji River Bridge	To fabricate and install a bridge across the Nemadji River on the east side of State Highway 23 on the Sno-Sharks Snowmobile Trail System.	Motorized	\$25,000	\$12,500
0034-09-2A	U.S. Department of the Interior, Fish and Wildlife Service	ADA trail at Twin Lakes in Rice Lake National Wildlife Refuge	To construct a disabled access trail for wheelchair uses that meets ADA requirements using asphalt pavement at 8 feet wide to tie into an existing 7 mile trail system.	Non-Motorized	\$31,750	\$15,750
0035-09-4A	City of Fairfax	FairRidge Recreational Trail Maintenance Project	To conduct maintenance on 6.3 miles of existing trail connecting the Fairfax Depot Museum Park and Fort Ridgely State Park to repair tree root damage, random holes, crack repair and seal coating.	Non-Motorized	\$57,145	\$27,500

Project #	Grantee	Project Title	Project Description	Type of Use	Total Cost	Amount Funded
0036-09-3A	Morrison County	Snow Duster Bridge	To construct a straight bridge with floor plate deck, four corner posts and guard rails.	Motorized	\$11,932	\$5,900
0039-09-1A	Beltrami County	Cross Country Ski Trail Grooming Equipment	To purchase cross-country ski trail grooming equipment.	Non-Motorized	\$124,000	\$62,000
0040-09-2C	Lake County	Trail Groomer Purchase	To purchase snowmobile trail grooming equipment.	Motorized	\$163,000	\$75,000
0041-09-3B	Dakota County	Dakota Beginner Mountain Bik Trail Extension	To construct 1 mile of a beginner mountain bike trail with "pump track" and construct a mountain bike "skills park" close to existing parking lot.	Non-Motorized	\$49,500	\$24,750
0042-09-3A	City of Saint Cloud	Nordic Ski Trail Grooming Equipment Purchase	To purchased ski trail grooming equipment	Non-Motorized	\$17,152	\$8,500
0043-09-3B	Three Rivers Park District	Elm Creek Recreational Trail Phase I	To construct a 7.7 mile single track, stacked-looped mountain bike trail.	Non-Motorized	\$265,980	\$50,000
0044-09-3B	Isanti County	Snowmobile Trail Bridge Replacement	To purchase and place a portable snowmobile bridge over the West Branch of the Rum River in Greenbush Township which in Mille Lacs County.	Motorized	\$39,040	\$19,500
0047-09-3B	Isanti County	Safety Fence	To install a safety fence on a GIA snowmobile trail where extremely steep banks exist.	Motorized	\$35,736	\$17,800
0049-09-1C	Polk County	Sandhill Trail West	To acquire an abandoned railbed for a multi-use recreational trail.	Joint	\$200,000	\$100,000
0051-09-2A	Aitkin County	County Trail Sign Project	To sign snowmobile trails, including road intersections and 911 road signs.	Motorized	\$34,560	\$5,600
0054-09-3B	City of Minnetrista	Westonka Recreational Association Park/Dakota Rail Trail Connection	To connect a parking lot in the City of Minnetrista to the Dakota Rail Trail.	Non-Motorized	\$29,170	\$14,500
0058-09-3B	City of Woodbury	Carver Lake Park Off-Road Cycling Trail	To construct a 6.5 mile mountain off-road cycling trail within Carver Lake Park.	Non-Motorized	\$115,000	\$57,500
D101-09-3C	DNR Parks and Trails	Zumbro Bottoms Equestrian Trail Rehab Phase II - Dorer State Forest	To rehabilitate 5 miles of equestrian trail to provide sustainable tread ways.	Non-Motorized	\$100,000	\$50,000
D105-09-3	DNR Parks and Trails	State Trail Maintenance and Operation	To complete maintenance on seven State Trails in DNR Region 3.	Joint	\$70,000	\$35,000
D109-09-4D	DNR Parks and Trails	Mill Towns State Trail - Cannon Falls Connection	To develop 2 miles of bituminous trail from Hanna's Bend Park in Cannon Falls to Byllesby Park.	Joint	\$500,000	\$150,000
D111-09-2D	DNR Parks and Trails	St. Croix State Forest Rehabilitation and Maintenance	To rehabilitate and maintain horseback and hiking trails along the Tamarack and St. Croix Rivers in the St. Croix State Forest.	Non-Motorized	\$50,000	\$25,000
D112-09-S	DNR Parks and Trails	Cross-Country Ski GIA Capital Improvements FY2011	To complete Cross-Country Ski GIA capital improvements statewide.	Non-Motorized	\$100,000	\$50,000

Project #	Grantee	Project Title	Project Description	Type of Use	Total Cost	Amount Funded
D113-09-2C	DNR Parks and Trails	Gitchi Gami State Trail - Schroeder Missing Link Segment	To develop the missing segment of the Gitchi Gami State Trail between Temperance River State Park to the MnDOT parking lot on the east side of the City of Schroeder.	Non-Motorized	\$60,000	\$30,000
D114-09-1D	DNR Parks and Trails	Paul Bunyan State Trail Extension to Crow Wing State Park	To complete the paving of the Paul Bunyan State Trail from the Mississippi River to Crow Wing State Park.	Joint	\$1,100,000	\$150,000
D115-09-2D	DNR Parks and Trails	Trail Bridge Replacement	To replace a damaged bridge on the Willard Munger Trail system within St. Croix State Park.	Joint	\$300,000	\$26,585
D116-09-2C	DNR Parks and Trails	North Shore State Trail Bridge Replacements	To replace or repair steel bridges on the North Shore State Trail.	Joint	\$1,950,000	\$150,000
TOTAL					\$7,188,692	\$1,903,098

Mn/DOT State Road Construction Program

MN/DOT STATE ROAD CONSTRUCTION PROGRAM

In developing the 2010-2013 STIP, only federal-aid highway formula funds were subject to the ATP prioritization process. State funded projects are included in the formal STIP for informational purposes and were shared and discussed with the ATPs. Mn/DOT anticipates a high degree of flexibility in the use of federal or state funding sources for individual projects.

The estimated annual state funds available for trunk highway construction activities is \$250 million in 2010, \$210 million in 2011 and \$290 million thereafter. Actual amounts are slightly higher with a modest level of over programming. However, a portion of those state funds are reserved for statewide initiatives shown in District C.

State funds are available to each Mn/DOT District to cover the following items in priority order:

1. Match federal dollars received through the ATP process and federal high priority project funding or allocated funding.
2. Estimate necessary District set-asides to cover supplemental agreements and cost overruns.
3. Estimate of right-of-way needs to cover all trunk highway projects, with appropriate lead time for expenditures. A single account will still be monitored by the Mn/DOT Office of Land Management. The

Mn/DOT Districts must identify the expenditures for the correct state fiscal year (SFY).

4. A prioritized list of all other state funded projects or set-a-sides. This prioritized list will include all Municipal Agreement Projects, Bridge and Road Construction Projects and Landscape Partnerships.

Mn/DOT's State Road Construction Program (SRC) is legislatively constrained by an annual budget level. The exact budget level can vary by biennium. The STIP program level may not coincide with the SRC budget level if Mn/DOT is more or less successful than anticipated during the ATP process. If the program level is significantly higher, legislative action would be required to raise the budget level. The STIP is fiscally constrained, but Mn/DOT's SRC budget includes a level of advance construction programming.

Project totals (all four years of the STIP) for the Mn/DOT State Road Construction Program (SRC) are provided in Figure A-6. Figure A-7 gives the SRC program totals by District/ATP and year. Totals for the SRC include dollars funded by federal advance construction funds, which may exceed actual federal dollars available in any given year. This is due to the fact that AC can be converted over more than one year.

Minnesota Rail Service Improvement Program

MINNESOTA RAIL SERVICE IMPROVEMENT PROGRAM

The Minnesota Rail Service Improvement Program (MRSI), established in 1976, helps prevent the loss of rail service on lines potentially subject to abandonment by railroads. Using state-developed eligibility rules, the state and rail users enter into contracts for rail line rehabilitation, capital improvements for rail shippers, capital improvement for railroads, purchase assistance to rail authorities, loan guarantees and state rail banking. When the project is completed, the recipient repays the state. These reimbursements are returned to the Minnesota Rail Service Improvement Program account to fund future rehabilitation projects.

Projects fall within the program areas identified below. The MRSI Program has identified \$27 million in railroad track project needs. Projects will move ahead if funding is available and project agreements can be completed and contracts executed. These projects are typically funded with state funds. Figure B-1 at the end of this section identifies the potential number of projects and funding.

The following five programs are funded under the Minnesota Rail Service Improvement Program.

Rail Purchase Assistance Program

Assists Regional Railroad Authorities in acquiring rail lines that can be operated on a self-sustaining basis to provide local rail service. Mn/DOT may provide up to 50 percent of the value of the property. State funds are secured and require

repayment if the line is sold or ceases to serve a transportation function.

Rail Rehabilitation Program

Provides low and no-interest loans to rehabilitate and preserve rail lines that are financially viable and have the potential to increase rail use. A shipper's survey, cost/benefit analysis, and a rehabilitation needs assessment are conducted to determine which lines are prospective rail projects.

Capital Improvement Loan Program

Provides rail user with loans for projects that improve rail service and strengthen the financial condition of the associated line. Eligible projects have typically included capital improvements such as expanding industrial spurs, and building more efficient loading/unloading facilities. A new initiative was passed by the 2008 Legislature that provides capital improvements to railroads. A combination of capital projects to railroads and shippers will be funded under the Capital Improvement Loan Program.

State Rail Bank Program

Allows the state to acquire and preserve abandoned rail lines for future transportation use or for transmitting energy, fuel or other commodities.

Rail User and Rail Carrier Loan Guarantee Program

Assists rail users in obtaining loans for rail rehabilitation and capital improvements by guaranteeing up to 90 percent of the loan. The 1994 Legislature further amended the statute, recreating the program as the Rail User and Rail Carrier Loan Guarantee Program. Not only rail users but rail carriers are eligible for assistance under the program. In addition to rail

line rehabilitation, rolling stock acquisition and installation are eligible.

Additional information on the Minnesota Rail Service Improvement Program may be obtained from Janelle Collier, Program Manager, Office of Freight and Commercial Vehicle Operations, at (651) 366-3653.

Port Development Assistance Program

PORT DEVELOPMENT ASSISTANCE PROGRAM

The Port Development Assistance Program was developed by the state in response to the needs of the commercial navigation system. No federal funds are currently available for these types of projects. The program provides a funding source that facilitates compliance with tighter environmental standards; helps to ensure the continued commercial effectiveness of lake and river navigation systems; and helps to offset the increases in general cost of commercial shipping.

There exist a number of conditions that warrant the port development assistance program in Minnesota. Many of the public terminals and docks in the state are in need of repair at costs beyond the means of local agencies. Local port authorities are having trouble keeping the infrastructure intact especially for our agricultural and mining industries because the transportation and disposal of dredge material is restricted to fewer locations for either temporary or permanent disposal due to environmental regulations.

Project proposals are prioritized based on need, employment generated and overall economic benefit. Mn/DOT's Office of Freight and Commercial Vehicle Operations, working with the state's port authorities, had identified a list of potential harbor improvement projects for 2006 and beyond. Past project include rehabilitating or improving rail and truck access, dock walls, building roofs, sprinkler and electrical systems, mobile handling equipment and adding warehouse capacity.

The Minnesota Legislature has made the following appropriations to the Port Development Assistance Program:

- 1996 - \$3 million (Bonds)
- 1998 - \$3 million (Bonds)
- 1998 - \$1.5 million (General Funds)

- 2000 - \$2 million (General Funds)
- 2001 - \$1 million (General Funds)
- 2003 - \$2 million (Bonds)
- 2005 - \$2 million (Bonds)
- 2006 - \$3 million (Bonds)
- 2008 - \$500,000 (General Funds)
- 2009 - \$3 million (Bonds)

To date, total state appropriations for the Port Development Assistance Program amount to \$21 million. The Ports have identified nearly \$40 million of port development needs.

According to Minnesota law, Port Development Assistance funds cannot be added to other state sponsored port investments. Port Development funds can be used with federal and local dollars to complete projects that benefit a port.

The following table identifies funds each port would spend on Port Development Assistance if the Minnesota Legislature appropriated funds. Except for the 2009 and 2010 funding for the St. Paul Port Authority and the Red Wing Port Authority, there are no additional State funds available for Port Development at this time.

Additional information about the Port Development Assistance Program may be obtained from Dick Lambert, Ports and Waterways Section, Office of Freight and Commercial Vehicle Operations, at (651) 366-3683 or email: dick.lambert@dot.state.mn.us

MINNESOTA AERONAUTICS AIRPORT CAPITAL IMPROVEMENT PROGRAM

Legislation

State:

Minnesota Statutes 360 (MS 360), Aeronautics, is the enabling legislation under which the Minnesota Department of Transportation (Mn/DOT), Office of Aeronautics operates. One of the primary directives of this Statute is to promote aviation and aviation safety in Minnesota. MS 360 also establishes a dedicated “State Airport System,” and a dedicated “State Airport Fund.” This fund derives revenue from four sources: aircraft registration tax, aviation fuel tax, airline flight property tax, and interest earned on the fund.

The Legislature appropriates monies from the State Airport Fund on a biennial basis to support the state funded aviation programs and activities. The major appropriations are for airport grant-in-aid programs, which support the continued development and maintenance of the State Airport System.

Federal:

The legislative authorization for the Airport Improvement Program (AIP), contained in the “Vision 100 – Century of Flight Authorization Act of 2003,” expired at the end of fiscal year (FY) 2007. At the time of this publishing Congress was working on new authorization language. The new authorization will establish funding levels for aviation.

Currently, commercial service airports receive primary entitlement funds, based on the number of passenger enplanements. Airports with at least 10,000 annual enplanements receive a minimum of \$1 million in entitlement funds. Commercial service airports may also collect a passenger facility charge (PFC) from enplaning passengers to supplement AIP funding. The current limit on PFCs is \$4.50 per passenger. Non-primary (i.e. general aviation, reliever and non-primary commercial service) airports also receive entitlements of up to \$150,000 per year. Continuation of a non-primary entitlement program is being considered by Congress. AIP discretionary funds are available to eligible airports. Projects funded with discretionary funds must compete for those funds on a nationwide basis.

Minnesota Chapter 360 requires that the state act as agent on behalf of airport municipalities for making application, and for receiving and disbursing federal funds. The Mn/DOT, Office of Aeronautics is the designated state agent for providing this coordination.

Eligibility

State:

To be eligible for state grants-in-aid, the airport must be owned by a municipality, licensed for public use, and identified in the State Airport System as designated by the Commissioner of Transportation and approved by the Governor. It must also be zoned or in the process of being zoned. Currently there are 136 publicly-owned airports in Minnesota.

Federal:

To be eligible for federal grants-in-aid, an airport must be in the National Plan of Integrated Airport Systems (NPIAS). To qualify, an airport must be more than 30 minutes driving time from the nearest existing NPIAS airport and must have a minimum of 10 based aircraft. Currently, there are 97 airports in Minnesota in the NPIAS.

Project Identification

A five-year Capital Improvement Program (CIP) is maintained for all public airports in Minnesota. Updates to the CIP are submitted to the Office of Aeronautics annually by the governing body responsible for the airports, usually a municipality. Local decision, and the availability of the local matching funds, will cause some projects to move to future years.

State:

The Minnesota CIP for airports is the result of the annual input received from the municipalities and funding availability for construction grants each fiscal year.

Several factors influence the selection of project elements for state funding. Inclusion in the State Airport System Plan (SASP), approved airport master plans and airport layout plans (ALP), statewide airport pavement management information, and licensing and inspection reports are some of the considerations for funding.

It is anticipated that \$10.5 million in FY 2010 and \$8.3 million in FY 2011 will be available for airport construction grants. Projects in 2010 through 2013 are based on CIP information submitted by airports in September of 2008.

Federal:

The Federal Aviation Administration (FAA) also maintains an Airport Capital Improvement Program (ACIP) for airports included in the NPIAS. In Minnesota, the ACIP is developed based on input from the Office of Aeronautics and the state CIP. Projects are prioritized by the Office of Aeronautics based on criteria such as completion of a multi-phase project, safety, and system needs. The FAA has ranking criteria for projects based on a formula that awards points for various project elements. The rank ranges from 0 to 100, with 100 being the highest priority. The ACIP list is developed by the FAA, Minneapolis Airports District Office with input from Mn/DOT, Aeronautics, and submitted to compete nationally for AIP funds.

Approximately \$63.7 million in federal AIP grants were issued in Minnesota during federal fiscal year 2008.

Detailed Federal Fiscal Constraint Plan

Mn/DOT's Detailed Federal Fiscal Constraint Plan

Detailed Federal Fiscal Constraint Plan

The Detailed Federal Fiscal Constraint Plan in Figure C-1 shows how Mn/DOT will be managing Advance Construction (AC) from 2010 through 2013. AC Paybacks identified in the STIP are referred to as “Planned AC Conversion.” District/ATPs have identified and planned for these project conversions. Along with STIP identified “Planned AC”, the Office of Investment Management (OIM) manages the program on a statewide basis using AC to provide for greater financial flexibility and to manage cash flow.

History shows that projects exceeding \$1million are more likely to be paid out over more than one year. For this reason, many projects can be adjusted to more closely reflect the actual timing of these expenditures. Historically, project expenditures payout 30% in the first year, 50% in the second year, and 20% in the third year. Use of these rates on additional AC projects allows Mn/DOT to maximize the use of Federal funding. OIM manages the conversions of these projects on a statewide basis and refers to these projects as “Managed AC Conversions.”

“Deferred Conversions” describe the adjustment to a Planned AC project. These conversions are used to delay planned conversions to correspond with actual expenditures. Mn/DOT could use a longer period of conversion and use Trunk Highway cash or bonds to delay conversions further. The reverse is true if more Federal funds become available than has been forecast.

Figure C-1 illustrates how AC is used to manage Mn/DOT’s program. Lines (1) through (3) come from the STIP. Line (1) is the total Federal formula funds in the STIP for each year. Line (2) represents the amount of regular funds in the STIP total. Line (3) is the amount of “Planned AC Conversions” in the STIP total. Line (4) equals the amount of line (2) which is planned to be the amount of new *managed AC* for the current year. Line (4a) is the new managed AC percentage of regular federal funds. Line (5) is 30% of the new *managed AC* from the current year. Line (6) is 50% of the new *managed AC* from the prior year. Line (7) is 20% of the new *managed AC* from 2 years back. Lines (5) through (7) total the amount of managed AC in that state fiscal year. Line (8) is the difference between lines (2) and (4). Line (8) is the forecasted sum of the projects that are expected to use 100% of their Federal funds in that year. Line (9) is the same as line (3). Line (10) comes from analysis of the Planned Conversions which are anticipated to convert at a different rate than the expected 30% - 50% - 20%. Line (10) is called “Deferred Conversion.” There are no deferred conversions presently planned in this STIP. Line (11) is the sum of lines (5) through (7). Line (12) is the managed AC carry forward from prior years. As Figure C-1 illustrates, all prior year’s AC will be totally converted in state fiscal year 2010.

Mn/DOT plans to continue its use of AC as a financial management tool. Mn/DOT's intention is to encourage the use of AC by the District/ATPs when 1) projects can be packaged, 2) completion of a project will occur over more than one construction season. At the same time, Mn/DOT will centrally manage AC to ensure sound financial management.

Lines 1-3 can be found in the STIP

Line 4 represents the amount of new AC projects (Line 2 x %)

Line 4(a) represents the new managed AC as a percentage.

Lines 5-7 represent the amount of conversions that will occur as related to the new AC (Line 4 x 30/50/20%)

Line 8 shows the net amount of regular federal funds that will be used (Line 2 minus Line 4)

Line 9 shows the conversions requested by the ATP's (Line 3)

Line 10 shows the adjustment for conversions to subsequent years.

Line 11 is the amount of conversion that will occur based on historical assumption (Lines 5-7)

Line 12 is the amount of the conversion that will occur due to carry forward AC conversions

TH = Trunk Highway, SA = State Aid

Differences due to rounding

Excludes Earmarks

Minnesota Projected Levels of AC The Federal AC shown in figure C-2 shows the projected level of AC Mn/DOT will be carrying at the end of each state fiscal year. The ending level of AC includes those projects that were authorized by the Federal Highway Administration (FHWA), have been let, awarded and encumbered by the State. The state fiscal year runs from July 1 to June 30. Trunk Highway Projects that are authorized by FHWA but have not gone through the final process of encumbrance are not counted in the year Ending Balance of AC. The AC Beginning Balance comes from the previous years ending balance. New AC – Planned can be found in the STIP.

New AC – Managed, Managed Conversions, as well as the Planned Conversions can be found in the Minnesota Detailed Financial Plan, figure C-1.

In 2003, Mn/DOT was authorized \$400 million in Trunk Highway bonds by the State Legislature of which \$300 million are being used to leverage future Federal Funds. This allowed Mn/DOT to pay initial bills with the bonds; delaying when Mn/DOT will do conversions on some of these projects as far out as 2010.

The strategy of using Managed AC on projects that were not planned to be Advance Constructed through the normal process, allows Mn/DOT to manage through a time when Federal Funding could be uncertain. This practice will allow Mn/DOT to be able to absorb a reduction in Federal funds in a year and not have to reduce the short term program, but make the necessary corrections in the following year(s). Once current year Federal funds become available Mn/DOT will reevaluate the need to AC projects that fall in this group.
