PRODUCT DESCRIPTION
Diamond Vogel’s State-Series MN Waterborne Traffic Marking Paint is a high solids and fast-drying striping paint. UC-1515 and UC-3590 meet or exceed the Minnesota specification for traffic marking paint.

TYPICAL USES
The State-Series Marking Paint is recommended for marking and striping streets, highways or other traffic surfaces including driveways, parking lots, sidewalks, curbs or airport runways. It may be applied to either concrete or asphalt surfaces by a variety of methods.

COLORS AVAILABLE
UC-1515 White
UC-3590 Yellow

PHYSICAL PROPERTIES (UC-1515)
Resin Type Acrylic
Clean-up Solvent Water
Finish Flat
Solids by Weight 78 %
Solids by Volume 62 %
Wet Film to Achieve DFT 15 mils
Practical Coverage at Recommended DFT¹ 107 ft² / gallon
4” Line @ 15 mils WFT 320 ft. / gallon
Dry Times²
@ 70° F (21° C) Tack Free less than
and 50% R.H. 5 minutes
VOC’s Less than 150 g/l

SPECIFICATIONS
Concrete Self Priming
Asphalt Self Priming
Cinders Self Priming

For more detailed recommendations, please contact your local Diamond Vogel Sales Representative.

1. Spread rates are estimates based on products volume solids and make no allowance for material loss during application. Actual spread rates may vary dependent on applicator experience, surface porosity and texture.
2. Dry times may vary depending upon temperature, humidity and degree of air movement.
SURFACE PREPARATION
The surface to be coated must be free of any contaminant that will prevent the paint from adhering to the surface. Oil, grease, loose paint chips, gravel, salt films and curing membranes may all interfere with the adhesion of the coating. The surface should be swept clean of all loose contaminants. Visible stains of oils or dirt should be washed from the surface prior to coating. Slick or glossy surfaces, such as hard steel troweled concrete should be abraded to provide surface profile for the coating to adhere to.

TEST METHODS
Weight per Gallon  ASTM D 1475
Viscosity  ASTM D 562
Fineness of Grind  ASTM D 1210
Total Solids  ASTM D 2369
Total Pigment  ASTM D 2371
Titanium Dioxide  ASTM D 4563; D 1394
Dry Time (12 mils wet)  ASTM D 711 (modified)
Daylight Directional Reflectance  ASTM D 2805
Contrast Ratio  ASTM D 2805
Bleeding Ratio  ASTM D 969
Color  ASTM D 2805

APPLICATION
• Stir material prior to application.
• Equipment must be clean prior to start. Flush airless lines with water or N-7025.
• Apply with conventional or airless spray equipment.
• Small areas may be brushed or rolled.
• Apply 1 coat 15 mils wet film thickness.
• Allow to dry 5 minutes before allowing traffic to drive over this coating.
• This coating has been successfully applied through a heated system up to temperatures of 140° F. Heating the coating will decrease the dry time, if surface temperatures, relative humidity, and air movement remain within the requirements for proper application.
• DO NOT THIN

ENVIRONMENTAL VARIABLES
Apply when air and surface temperatures are above 50° F. Lower surface temperatures and high humidity will slow the speed of dry. Surface temperatures below 70° F and/or relative humidity greater than 80% may require longer curing times prior to bearing traffic.

CLEAN-UP
Clean up spills immediately with soap and warm water or N-7025. Clean hands and tools immediately after use with soap and warm water or N-7025. After cleaning, flush spray equipment with mineral spirits to prevent rusting of the equipment.

CAUTIONS
Do Not Freeze
Do not apply below 50° F.
Do not take internally
Use with adequate ventilation
KEEP OUT OF REACH OF CHILDREN

*WARNING! If you scrape, sand, or remove old paint, you may release lead dust. LEAD IS TOXIC. EXPOSURE TO LEAD DUST CAN CAUSE SERIOUS ILLNESS, SUCH AS BRAIN DAMAGE, ESPECIALLY IN CHILDREN. PREGNANT WOMEN SHOULD ALSO AVOID EXPOSURE. Wear a NIOSH-approved respirator to control lead exposure. Clean up carefully with a HEPA vacuum and wet mop. Before you start, find out how to protect yourself and your family by contacting the national Lead Information Hotline at 1-800-424-LEAD or log on to www.epa.gov/lead.
1. IDENTIFICATION

Product identifier
Product Name Yellow Traffic High Solids L/F

Other means of identification
Product Code UC3590-955
SKU(s) UC3590-825, UC3590-825, UC3590-955

Recommended use of the chemical and restrictions on use
Recommended Use No information available.
Uses advised against No information available

Details of the supplier of the safety data sheet
Manufacturer Address
Diamond Vogel Paint
1020 Albany Place SE
Orange City, IA 51041
Phone: 712-737-4993
Fax: 712-737-4997

2. HAZARDS IDENTIFICATION

OSHA Regulatory Status
This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

Carcinogenicity Category 1A
Specific target organ toxicity (single exposure) Category 1

Emergency Overview

Danger

Hazard statements
May cause cancer
Causes damage to organs

Appearance No information available  Physical state liquid  Odor No information available
Precautionary Statements - Prevention
Obtain special instructions before use
Do not handle until all safety precautions have been read and understood
Use personal protective equipment as required
Do not breathe dust/fume/gas/mist/vapors/spray
Wash face, hands and any exposed skin thoroughly after handling
Do not eat, drink or smoke when using this product

Precautionary Statements - Response
IF exposed: Call a POISON CENTER or doctor/physician

Precautionary Statements - Storage
Store locked up

Precautionary Statements - Disposal
Dispose of contents/container to an approved waste disposal plant

Hazards not otherwise classified (HNOC)
Other Information
• May be harmful if swallowed
• Harmful to aquatic life with long lasting effects
• Harmful to aquatic life
Unknown acute toxicity 0% of the mixture consists of ingredient(s) of unknown toxicity

4. FIRST AID MEASURES

Description of first aid measures
Eye contact  Rinse thoroughly with plenty of water for at least 15 minutes, lifting lower and upper eyelids. Consult a physician.
Skin Contact  Wash skin with soap and water.
Inhalation  Remove to fresh air.
Ingestion  Clean mouth with water and drink afterwards plenty of water.

Most important symptoms and effects, both acute and delayed
Symptoms  No information available.
Indication of any immediate medical attention and special treatment needed
Note to physicians  Treat symptomatically.

5. FIRE-FIGHTING MEASURES
Suitable extinguishing media
Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Unsuitable extinguishing media  CAUTION: Use of water spray when fighting fire may be inefficient.

Specific hazards arising from the chemical
No information available.

Explosion data
Sensitivity to Mechanical Impact  None.
Sensitivity to Static Discharge  None.

Protective equipment and precautions for firefighters
As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Personal precautions  Ensure adequate ventilation, especially in confined areas.

Environmental precautions

Environmental precautions  See Section 12 for additional ecological information.

Methods and material for containment and cleaning up

Methods for containment  Prevent further leakage or spillage if safe to do so.

Methods for cleaning up  Use personal protective equipment as required. Dam up. Cover liquid spill with sand, earth or other non-combustible absorbent material. Take up mechanically, placing in appropriate containers for disposal. Clean contaminated surface thoroughly.

7. HANDLING AND STORAGE

Precautions for safe handling

Advice on safe handling  Handle in accordance with good industrial hygiene and safety practice.

Conditions for safe storage, including any incompatibilities

Storage Conditions  Keep containers tightly closed in a dry, cool and well-ventilated place.

Incompatible materials  None known based on information supplied.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

**NIOSH IDLH** Immediately Dangerous to Life or Health

**Other Information**
Vacated limits revoked by the Court of Appeals decision in AFL-CIO v. OSHA, 965 F.2d 962 (11th Cir., 1992).

**Appropriate engineering controls**

**Engineering Controls**
- Showers
- Eyewash stations
- Ventilation systems.

**Individual protection measures, such as personal protective equipment**

- **Eye/face protection**
  - No special technical protective measures are necessary.

- **Skin and body protection**
  - No special technical protective measures are necessary.

- **Respiratory protection**
  - If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn. Positive-pressure supplied air respirators may be required for high airborne contaminant concentrations. Respiratory protection must be provided in accordance with current local regulations.

**General Hygiene Considerations**
Handle in accordance with good industrial hygiene and safety practice.
