

Sign Post Sheath - Buried Cable

The sheath is an orange colored, triangular shaped marking device used to enhance the visibility of buried cable signposts. It slides over the installed sign post before the buried cable sign is mounted and has the following characteristics:

1. Made of an orange colored plastic resin, polypropylene material that contains stabilizers to protect against ultraviolet light.
2. Triangular in shape.
3. Sides that have a width of 3.31 ± 0.02 inches.
4. Length that is 4.0 feet.
5. Wall thickness is 0.08 ± 0.01 inches.
6. Temperature stable from $-40\text{ }^{\circ}\text{C}$ ($-40\text{ }^{\circ}\text{F}$) to $65\text{ }^{\circ}\text{C}$ ($150\text{ }^{\circ}\text{F}$).
