\* Construction caused a road closure during September 2013 and no data was available; therefore, MADT for April 2013 was used to estimate total AADT

\*\* Sensor and site issues contributed to a lack of data for nine months; therefore, MADT for October 2015 was used to estimate total AADT

\*\*\* Incomplete data for the year; AADT determined from representative MADT data

Blank Cell - Did not report data for the year or no data available (sensors destroyed by construction, equipment malfunction, etc)

Station did not exist yet

Station has been retired
