Subject: Non-Interstate Road Closure (NIRCO) Flasher Update

Hi Janelle-

I'm not sure if this should be on Wednesday's agenda or not, but I wanted to get your opinion regardless.

D7 is updating our NIRCO flashers, but we wanted your opinion on our two signing options. Option one is to duplicate the existing sign (shown below). Option two is the attached .bmp

Our preference is to use the attached .bmp example as the yellow would help the sign stand out in low-visibility conditions (which we'd typically have when the road(s) would be closed).

Let me know your thoughts-

SMT
