## **Presentation Overview**

One of the goals of the RTMC is to coordination response to freeway incidents between State Patrol and MNDOT. This includes everything from “the big ones” down to the everyday fender benders and stalls. Learn about the day to day operations; how 911 calls lead to traffic cameras, to the overhead sign boards, and to FIRST response – all day, every day.

**Presenter:**

**John McClellan**

John McClellan is the Freeway Operations Supervisor at MNDOT's Regional Transportation Management Center (RTMC) in Roseville. John has worked for the DOT since 2002. John's group is responsible for monitoring 800 Metro freeway traffic cameras; locating incidents, deploying overhead signs, coordinating response with State Patrol and dispatching the Freeway Incident Response Safety Team (FIRST). John is a regular presenter to first responders on highway safety and emergency traffic control.
