

Trailer Mounted Changeable Message Sign Evaluation

Instructions:

Starting at the 0 point, proceed slowly (5 - 10 mph) down the roadway. When you are able to **completely read** all characters and/or words on the first sign, RIGHT side of roadway, write down the number of the **next** tube delineator you see. Now proceed toward the next sign, which will be on the LEFT side, repeating the same procedure. If you can read the next sign before you pass the previous sign that's fine. Write down the tube delineator number. Please be certain you can identify all characters and words.

Seating position in vehicle. Make an "X" _____

Start time: _____

1 or 3 line message? _____

LEFT Side of Road

| PCMS left side | Tube delineator number | Sun glare (Y or N) |
