

RED WING BRIDGE PROJECT

BUTTON-HOOK RAMP

OPEN TO TRAFFIC IN APRIL 2018

The new button-hook ramp will support traffic coming from both directions. This new, permanent traffic movement includes meeting a new traffic signal at the bottom of the button-hook ramp at Highway 61.

Two-Directional Traffic

-  Drivers coming from Wisconsin will access Highway 61 via the new button-hook ramp.
-  Drivers on Highway 61 crossing the river also will take the new button-hook ramp located on the north side of downtown Red Wing.

Slip Ramp Closed April 2018 - September 2019

-  Drivers will use the button-hook ramp to access downtown Red Wing during this time. When the slip ramp reopens to traffic, drivers coming across the river from Wisconsin will have two routes into town.

View from Oct. 31, 2017, where the button-hook ramp will meet a new traffic signal at Highway 61.
