

Red Wing Bridge Project

US 63 River Bridge & Approach Roadways

Public Open House #4

Wednesday, July 8, 2015

4:30 pm - 6:30 pm*

*Presentation begins at 5:00 pm

The Minnesota and Wisconsin Departments of Transportation will be hosting a public open house for the Red Wing Bridge Project on Wednesday, July 8th from 4:30 to 6:30 pm at the Red Wing Public Library (225 East Avenue, Red Wing, MN). You may arrive at any time, but an informational presentation will begin at 5:00 pm. Project staff will be available to discuss project developments, including the publication of the Environmental Assessment (EA) document. This meeting is a great opportunity to comment on the EA and any other project components. We are interested in hearing your issues, concerns, and suggestions as the project moves into final design.

Wisconsin Approach Area

Project Update

Since last fall, the project team has been hard at work developing a project layout, conducting the environmental review process, and developing visual quality design guidelines. MnDOT and WisDOT are wrapping up the preliminary design process and will proceed into final design and engineering this summer.

An Environmental Assessment (EA), a mandatory environmental review document, was published on June 22nd and is available on the project website. This document explains how the project is anticipated to impact the surrounding environment (i.e. water, wildlife, historic properties, residences). Interested stakeholders are encouraged to submit comments about the EA to MnDOT by July 22nd, 2015.

A Visual Quality Manual (VQM) was completed this spring with the help of a Visual Quality Advisory Committee that consisted of citizens, business owners, artists, and agency officials. The VQM provides guidance on what the project should look like to best protect the unique and historic Mississippi River setting while also enhancing the aesthetics of the project.

Find more information on the project website:
