

# Red Wing Bridge Project

## Hwy 63 Bridges over Mississippi River and Hwy 61

## What Has Happened Since the Last Newsletter?

The Red Wing Bridge Project began in December 2011 and the project team has been hard at work developing and evaluating various improvement scenarios while engaging the public, technical and project advisory committees, and agency stakeholders. MnDOT is currently in the environmental analysis and preliminary design phase with the replacement of the Red Wing bridges scheduled to begin in 2018. A recommended alternative has been identified by MnDOT and WisDOT. The recommended alternative consists of the following major project elements:

- A new two-lane river crossing constructed immediately upstream of the current river bridge
- A “Jug-Handle” intersection on the Wisconsin approach that provides full access and improved safety at the intersection with 825th Street
- A “Buttonhook” roadway configuration for the Minnesota approach

## Public Open House #3

### Wednesday, Oct. 1, 2014

4:30 pm\* - 6:30 pm

\*Presentation begins at 5:00 pm  
at the

**Red Wing Public Library (Foot Room)**  
225 East Avenue, Red Wing, 55066

The Minnesota Department of Transportation will be hosting a public open house for the Red Wing Bridge Project on Wednesday, October 1st from 4:30 to 6:30 pm at the Red Wing Public Library. You may arrive at any time, but a brief presentation will begin at 5:00 pm. Project staff will be available to discuss the preliminary design and project developments throughout the Open House. The meeting is a great opportunity to learn about the project, key issues, provide feedback and get more information on how to get involved. We are interested in hearing your issues, concerns, and suggestions.

Find more information and sign up for email updates at:
