

Special windshield mounting tips

The vehicles listed below may be equipped with special windshields containing metal oxide in the glass. This can prevent your E-ZPass tag from being read. If you are unsure about whether your vehicle has one of these windshields, contact the dealer where you purchased your car. If your tag is not always being read when driving through E-ZPass lanes, you must cease using your tag and call the E-ZPass Customer Service Center at 1-866-397-4334.

E-ZPass tags will work in the following cars. However, in order to be read the tag must be mounted in a specific location.

*The E-ZPass front exterior license plate tag comes with special screws and a special wrench. If your car is not equipped for a front license plate it may require modifications before the E-ZPass tag can be attached. E-ZPass provides the exterior tag, special screws and special wrench, but does not install the tag.
