or email: ofcvpermits.dot@state.mn.us

Winter Load Increases starting and ending dates are based on how weather is affecting roadway strength. These dates are established by monitoring roadway strength as weather conditions change. Therefore, the ending date for Winter Load Increases is variable and drivers MUST check for updates throughout the year. Vehicle operators are required to check with the Minnesota Department of Transportation (MnDOT) for the exact start and end dates.

All changes are made with a minimum three calendar-day notice.

For the most current information, please go to MnDOT's automated 24-hour message center at 1-800-723-6543 for the USA and Canada, or locally at 651-366-5400 for the Minneapolis/St Paul area. This information is also published on the MnDOT Seasonal Load Limits website at www.mndot.gov/loadlimits.
