Re: Provisional Approval: VisiUltra (Potters Industries, LLC) - EXTENSION

Dear Jeff Stricker:

**The provisional approval of VisiUltra (Potters Industries, LLC) product has been extended and is valid until December 31, 2022.**

This extension allows more time for field testing (as described by the [Pavement Marking Evaluation and Acceptance Program](#)). During the field testing step, the product must be installed on 2 MnDOT construction projects and may be installed on up to 3 MnDOT construction projects.

In order to use this product on a MnDOT construction project, the manufacturer must

1. Find appropriate test locations.
2. Ensure that a sample verification package (as discussed in the [Pavement Marking Evaluation and Acceptance Program](#) document) is sent to the MnDOT Materials Laboratory.
3. Obtain the approval of both the Construction Project Engineer and Office of Traffic Engineering (OTE) Pavement Marking Engineer for the substitution of material on test location project. The material must be applied as detailed in the specifications and special provisions with no additional cost to MnDOT.
4. At least 5 working days prior to installation, the vendor and/or contractor will notify the [Pavement Marking Engineer](#) (please use the provided link as starting point for the email) of the installation date. During installation, the vendor and/or contractor will complete the [Pavement Marking Computerized Data Logging System Excel Template](#). Within 5 working days of installation, the data collected in the Excel template will be submitted to [PMdata.dot@state.mn.us](mailto:PMdata.dot@state.mn.us). **This information is critical in tracking the performance of the product for evaluation during the field test step.**
5. The manufacturer and contractor will be responsible for all performance requirements of the pavement marking specifications included in the project contract.

Please contact me at [tiffany.kautz@state.mn.us](mailto:tiffany.kautz@state.mn.us) or 651-234-7388 with any questions or concerns.

Sincerely,

A handwritten signature in blue ink that reads 'Tiffany Kautz'.
