

Centerline and Lane Mileage Reports

Official Statistics, Provided by the Office of Transportation System Management (OTSM)

The system on which these figures are based is subject to ongoing revisions which can result in variations in the information provided on the statistical reports over time. To maintain consistency, this report is based on a snapshot of road data, typically taken at the end of the year. This date coincides with the annual data freeze used for federal reporting and statewide certified miles.

Data in this report represents road data as of December 31, **2021**

Information supplied by other sources (including Federal Agencies) may vary from the information supplied by OTSM. Use of this document is subject to MnDOT's disclaimers, legal notices and policies:

Report Summary

Mileage reports list the total Centerline and Lane miles for specified categories such as miles by Route System per County.

Reports include only two-way or one-way roads classified as Public Functional (the same criteria used to determine certified miles eligibility).

Data

Centerline Miles: Number of miles of a single roadway regardless of the number of lanes or if the road is divided or not.

Lane Miles: Number of accumulated miles per road lane, divided or undivided.

Optional Fields

Basic Pavement Type: Type of road pavement.

Construction District: Code representing the District Office with jurisdiction over the route for construction purposes.

Functional Class: Defines the character of service a road is attended to provide. For more information see functional class listed on the TDA glossary .

<https://www.dot.state.mn.us/tda/glossary.html>

Route System: 2-digit code representing the entity that has legal ownership of a roadway. For a complete list of descriptions see Route System listed on the TDA glossary .
