Fundamentals of Construction Inspection

Are you relatively new to the field of construction inspection or considering a career in that role? Will you be working on county or municipal construction projects? This course is intended for you!

This workshop will introduce new inspectors to the components and considerations for success. It will outline the roles and responsibilities of inspectors, discuss required documentation, help you practice communication skills, and assist you in understanding project documents, which include both plan drawings and written specifications.

Topics Covered

- Inspector roles and responsibilities
- Introduction to site safety
- Communication and documentation
- Contract documents
- Tracking construction progress
- Understanding plans and specifications
- Ethics and behavior
